

The Listing Rules

THE STOCK EXCHANGE OF MAURITIUS LTD

(Amended July 2023)

PREFACE

This book contains rules (the "Listing Rules") made by the Stock Exchange of Mauritius Ltd (the "SEM") for the listing of securities on the Official List of the SEM. The Stock Exchange of Mauritius Ltd was established under section 14 of the repealed Stock Exchange Act 1988. The SEM has been appointed as the competent authority responsible for the listing of securities on the Official List under the supervision of the Financial Services Commission.

The Listing Rules govern the admission to listing, the continuing obligations of listing, the enforcement of those obligations and suspension and withdrawal from the Official List of the SEM. The rules are aimed at ensuring that the business of the SEM is carried on with due regard to the investors interests.

The Listing Division of the SEM is always available to offer guidance on any aspect of the Listing Rules and discussions take place in strict confidence.

In complying with the disclosure requirements of these Listing Rules, an issuer must ensure compliance with the requirements of the Securities Act 2005 and/or any Regulations and/or FSC Rules made under the Act.

IMPORTANT NOTE

TO AVOID ANY MISUNDERSTANDING, IT IS EMPHASISED THAT THE LISTING RULES ARE ENTIRELY INDEPENDENT OF, AND WITHOUT PREJUDICE TO, THE PROVISIONS ON CONTENTS OF PROSPECTUSES LAID DOWN IN THE SECURITIES ACT 2005 AND THAT THE COMPLIANCE WITH THESE RULES DOES NOT IN ANY WAY GUARANTEE THAT THE LISTING PARTICULARS CONCERNED COMPLIES WITH THE RELEVANT PROSPECTUS REQUIREMENTS OF THE SECURITIES ACT 2005 OR WILL BE REGISTERED BY THE FINANCIAL SERVICES COMMISSION.

CHAPTER 2

GENERAL REQUIREMENTS AND THE LISTING PROCESS

Objectives

- 2.1 It is an integral function of the SEM to provide facilities for the listing of securities of issuers (domestic and foreign) and to provide its users with an orderly market place for the trading of securities and to regulate accordingly. These Listing Rules reflect, inter alia, the rules and procedures governing applications for listing, proposed marketing of securities and the continuing obligations of issuers.

General Principles

- 2.2 The Listing Rules are designed to ensure that investors have and can maintain confidence in the market and in particular that:
- (a) the securities for which application for listing has been made are for listing;
 - (b) the issue and marketing of securities is conducted in a fair and orderly manner;
 - (c) potential investors and the public are given sufficient information to enable them to make a properly informed assessment of an issuer and of the securities for which listing is sought;
 - (d) once listing has been granted, there is sufficient disclosure of information to investors and the public to ensure that they are kept fully informed by listed issuers of all factors which might affect their interests and in particular that immediate disclosure is made on any information which might reasonably be expected to have a material effect on market activity in, and the prices of listed securities;
 - (e) all holders of listed securities are treated fairly and equally;
 - (f) directors of a listed issuer act in the interest of its shareholders as a whole; and
 - (g) holders of equity securities are given adequate opportunity to consider in advance and vote upon major changes in the issuer's business operations and matters of importance concerning the issuer's management and constitution.
- 2.3 The Listing Rules are not exhaustive and the SEM may impose additional requirements or make listing subject to special conditions whenever it considers it appropriate (see Rule 6.3).
- (a) The SEM may modify or amend the Listing Rules, provided prior approval has been obtained from the FSC in accordance with the Act.
 - (b) The SEM may waive compliance with the Listing Rules, subject to the procedures described below:
 - (i) In the case of new applicants for listing, the SEM shall waive the requirement to comply with these Listing Rules, provided prior approval has been obtained from the Listing Executive Committee and where the decision to waive relates to

information otherwise required to be disclosed in the Listing Particulars, the SEM shall require the applicant to include a statement in relation to any such decision in the Listing Particulars. The SEM shall also forthwith notify the FSC of such a waiver.

(ii) In the context of post-listing obligations, the SEM may waive any requirements under these Listing Rules in individual cases, subject to any conditions that it may impose. The SEM shall forthwith notify the FSC of any waiver granted under this section.

(c) The SEM may revoke or modify any waiver which it has granted, in such cases and by reference to such circumstances as it considers appropriate.

2.4 Suitability for listing depends on many factors. Applicants for listing should appreciate that compliance with the Listing Rules may not of itself ensure an applicant's suitability for listing. The SEM retains a discretion to accept or reject applications and in reaching its decision will pay particular regard to the general conditions outlined in Rule 6.2. Prospective issuers (including listed issuers) or their sponsors are therefore encouraged to contact the Listing Division of the SEM to seek informal and confidential guidance as to the eligibility of a proposed application for listing at the earliest possible opportunity.

SEM's Responsibilities for Listing

2.5 These Listing Rules are made, administered and enforced by the SEM subject where relevant to the approval of the Listing Executive Committee. Subject to Rule 2.6, the decisions of the SEM shall be conclusive and binding on the issuer. It is the SEM which grants listing to securities. The SEM may issue practice notes and guidance notes, from time to time, to assist issuers or their advisers in interpreting and complying with these Listing Rules.

2.6 These Listing Rules may, subject to the approval of the FSC, be amended by the SEM from time to time.

Listing Executive Committee

2.7 The Listing Executive Committee is the body responsible for listing matters established by the Board of Directors of the SEM. The Listing Executive Committee shall, inter alia, have the following responsibilities in respect to listing matters:

- (a) to determine the suitability of applications made to the SEM for a listing;
- (b) to recommend changes to the Listing Rules to the Board of Directors, including the listing fee rates as determined by the SEM from time to time;
- (c) to assess cases of apparent breaches of the Listing Rules and make recommendations to the relevant body for their adjudication; and
- (d) to assess cases on the suspension or cancellation of a listing on the SEM and to refer these to the relevant body for consideration.

- 2.8 In the first instance all matters concerning these Listing Rules and an application for listing will be dealt with by the staff of the Listing Division of the SEM. In this regard, the SEM shall provide the necessary staff and other resources to assist the Listing Executive Committee in carrying out its functions. In so doing, the SEM shall establish and resource a Listing Division of the SEM and appoint a Head of Listing to have management responsibility of that Division.

Admission on the Official List

- 2.9 Every company desirous of being admitted on the Official List or of issuing new securities of a class already listed shall make an application to the SEM.
- 2.10 On receipt of the application, the SEM shall refer the application to the Listing Executive Committee, which may after giving due consideration to the eligibility and suitability of the application:
- (a) grant the application subject to any conditions it deems fit; or
 - (b) reject the application.
- 2.11 Where the Listing Executive Committee grants an application, it shall forthwith forward a copy of the Listing Particulars to the FSC.
- 2.12 A company which is aggrieved by a decision of the Listing Executive Committee may make an appeal in accordance with such procedures as shall be established by the SEM.
- 2.13 Securities shall be quoted on the Official List upon publication of the Listing Particulars for the benefit of investors. The Listing Particulars shall contain all such particulars as are specified in these rules to enable any interested person to be reasonably well informed.

Fees

- 2.14 Issuers are required to pay the relevant fees to the SEM in accordance with the rates set out in Appendix 7. The fees set out in Appendix 7 may be reviewed on a yearly basis to reflect general economic and market conditions. Any increase in the fees shall be capped at a maximum of 7%.

CHAPTER 3

COMPLIANCE WITH AND ENFORCEMENT OF THE LISTING RULES

Compliance with Listing Rules

- 3.1 Issuers must comply with all Listing Rules applicable to them.
- 3.2 In the case of applications for listing, issuers must provide to the SEM without delay:
- (a) all the information and explanations that the SEM may reasonably require for the purpose of deciding whether to grant listing;
 - (b) all the information that the SEM considers appropriate in order to protect investors or ensure the smooth operation of the market;
 - (c) any other information or explanations that the SEM may reasonably require for the purpose of verifying whether the Listing Rules are being and have been complied with.
- 3.3 In cases other than applications for listing, issuers must provide to the SEM without delay:
- (a) all the information that the SEM considers appropriate in order to protect investors or ensure the smooth operation of the market;
 - (b) any other information or explanations that the SEM may reasonably require for the purpose of verifying whether the Listing Rules are being and have been complied with.

Refusal of Application for Listing

- 3.4 The SEM may refuse an application for listing:
- (a) if it considers the applicant's situation is such that admission of the securities would be detrimental to the interests of investors; or
 - (b) if it considers that the applicant does not comply or has not complied with the Listing Rules or with any special condition imposed upon the applicant by the SEM under Rule 6.3.

Enforcement

- 3.5 If the SEM considers that an issuer has contravened the Listing Rules it may do one or more of the following:
- (a) censure the issuer, which may include a formal written notice of censure being served upon the issuer and the requirement that the issuer provide a written explanation of its actions to the SEM and an undertaking to rectify the breach immediately;
 - (b) publish the fact that the issuer has been censured for failing to comply with the Listing Rules;
 - (c) refer the matter to the FSC for appropriate action; and

- (d) where Rule 3.9 applies, suspend or withdraw a company from the Official List of the SEM.
- 3.6 The SEM may, at any time, require an issuer to publish such information in such form and within such time limits as it considers appropriate for the purpose of protecting investors and maintaining the smooth operation of the market.
- 3.7 If an issuer fails to comply with a requirement under Rule 3.6 the SEM may itself publish the information after having given the issuer an opportunity to make representations to the SEM as to why the information should not be published.
- 3.8 Unless the SEM considers that maintenance of the smooth operation of the market or the protection of investors otherwise requires, the SEM will give advance notice to the parties involved of any action which it proposes to take under Rules 3.5 to 3.7 and will give them an opportunity to make representations to the SEM.

Suspension and Withdrawal of a company from the Official List

- 3.9 The SEM may at any time with the approval of the Listing Executive Committee, suspend dealings in any securities or withdraw a company from the Official List in such circumstances and subject to such conditions as it thinks fit (where dealings in the securities have not yet commenced), whether requested by an issuer or not, where:
 - (a) the SEM considers it necessary for the protection of investors or the maintenance of an orderly market; or
 - (b) an issuer fails, in a manner which the SEM considers material, to comply with these Listing Rules or its Listing Undertaking; or
 - (c) the SEM considers that the percentage of shares of the issuer in the hands of the public is below the prescribed limit (see Rules 6.21 and 6.22); or
 - (d) the SEM considers that the issuer does not have a sufficient level of operations or sufficient assets to warrant the continued listing of its securities (see Rule 11.35); or
 - (e) the SEM considers that the issuer or its business is no longer suitable for listing.
- 3.10 Where an issuer itself seeks a suspension, its sponsor or authorised representative shall make a written request for suspension duly supported by specific reason, to the SEM.
- 3.11 Where dealings have been suspended, the procedure for lifting the suspension will depend on the circumstances and the SEM may impose such conditions as it considers appropriate. For example a temporary suspension pending an announcement will usually be lifted when the announcement is made. Further, a suspension will not normally be lifted unless:
 - (a) where the suspension was at the issuer's request, the issuer has announced the reason for the suspension and, where appropriate, the anticipated timing of the lifting of the suspension;
 - (b) where the suspension was otherwise than at the issuer's request, the issuer has satisfied such conditions for the lifting of the suspension as imposed by the SEM.

- 3.11A Where suspension is at the issuer's request or where the SEM itself has suspended dealings in the issuer's securities, the issuer must:
- (a) continue to comply with all the listing requirements applicable to it;
 - (b) unless the SEM decides otherwise, submit to the SEM a monthly progress report pertaining to the current state of affairs of the issuer and, any action proposed to be taken by the issuer in order to have the listing reinstated; and
 - (c) unless the SEM decides otherwise, advise the holders of securities on a quarterly basis concerning the current state of affairs of the issuer and, any action proposed by the issuer in order to have the listing reinstated, including the date on which the suspension is expected to be lifted.
- 3.12 When a suspension continues for a prolonged period without the issuer taking adequate action to obtain restoration of listing (such as failing to comply promptly with the conditions imposed for the lifting of the suspension), the SEM may, with the approval of the Listing Executive Committee, withdraw the company from the Official List, provided that it notifies the issuer in advance of its intention to cancel the listing on a specified date.
- 3.13 There may be cases where a company is withdrawn from the Official List without a suspension intervening. Where the SEM with the approval of the Listing Executive Committee considers that an issuer or its business is no longer suitable for listing, it may publish an announcement naming the issuer and specifying the period within which the issuer must have remedied those matters which have rendered it unsuitable for listing. If the issuer fails to remedy those matters within the period set in the announcement, the SEM will withdraw the company from the Official List.

CHAPTER 4

SPONSORS AND AUTHORISED REPRESENTATIVES

Objectives

- 4.1 This Chapter sets out the role and responsibilities of sponsors in the application process for listing on the SEM. The rules in these Listing Rules should be read in light of the regulations which will be made by the FSC on Sponsors and Authorised Representatives.

Sponsors

- 4.2 An issuer must have a sponsor appointed at all times while it is an applicant or is listed. Without prejudice to the generality of the foregoing, a sponsor is required in the following situations:
- (a) when the issuer makes any application for listing which requires the production of Listing Particulars;
 - (b) after a breach of the Listing Rules, the SEM notifies the issuer that the appointment of a sponsor is required to give advice on the application of the Listing Rules; and
 - (c) when a sponsor is required by the Listing Rules to report to the SEM in relation to any transaction or matter (for example, as required in Chapter 13).

Sponsors' qualifications

- 4.3 The sponsor must be registered with the SEM and:
- (a) be an investment dealer, financial institution or any other person acceptable to the SEM;
 - (b) undertake to the SEM in the form set out in Appendix 2 to accept the responsibilities of a sponsor and discharge those responsibilities at all times to the satisfaction of the SEM;
 - (c) meet the eligibility criteria set out in Rule 4.4;
 - (d) be entered on the SEM 's register of sponsors, after having completed all the necessary application forms required by the SEM, having been approved by the Listing Executive Committee and having paid the necessary fee. Updates of the Register of Sponsors shall be forwarded to the FSC on a regular basis.
- 4.4 The eligibility criteria referred to in Rule 4.3 are:
- (a) employment of suitably qualified staff with relevant experience to undertake its corporate finance and listing activities;
 - (b) the sponsor will not act as a sponsor for an organisation from which it is not independent, except with the permission of the SEM; and
 - (c) the sponsor, on the anniversary of its admission to the register of sponsors maintained by the SEM, confirming to the SEM that it is still eligible to act as a sponsor.

Sponsors' Responsibilities

4.5 The sponsor must:

- (a) in the case of a new applicant, satisfy itself, to the best of its knowledge and belief, having made due and careful enquiry of the issuer and its advisers, that the issuer has satisfied all relevant conditions for listing, and other relevant requirements of the Listing Rules and is suitable to be listed;
- (b) ensure that the issuer is guided and advised as to the application of the Listing Rules and have satisfied itself that the issuer is not in breach of the Listing Rules to the best of the sponsor's knowledge;
- (c) have satisfied itself on all the available information that the directors of the issuer appreciate the nature of their responsibilities and can be expected to honour their obligations under these Listing Rules and the Listing Undertaking;
- (d) be satisfied that, where an issuer prepares Listing Particulars or a circular under Chapter 13 of these rules which includes a statement by the directors of the issuer as to the sufficiency of working capital, this statement has been made by the directors after due and careful enquiry and that persons or institutions providing finance have stated in writing that such facilities exist;
- (e) be satisfied that, where an issuer prepares Listing Particulars or a circular under Chapter 13 of these rules which contains a profit forecast or estimate, this forecast or estimate has been made after due and careful enquiry by the directors of the issuer; and
- (f) confirm to the SEM in writing that each of its responsibilities in paragraphs (a) to (e) of this Rule has been fulfilled.

4.6 The sponsor is responsible for the following in relation to any application for listing:

- (a) communications and dealings with the SEM on all matters arising in connection with the application for listing;
- (b) preparing the formal application for listing and lodging it and all the documents supporting the application with the SEM; and
- (c) seeking the approval of the SEM for the Listing Particulars.

Appointment of Agents

4.7 A sponsor may, at its discretion, appoint an agent to discharge on its behalf the responsibilities set out in Rule 4.5. The sponsor must advise the SEM in writing of the identity of any agent appointed under this Rule, and such agent must have sufficient experience to be able properly to discharge the functions for which it has been appointed. Responsibility for the actions of the agent will remain with the sponsor.

Imposition of sanctions

- 4.8 If the SEM considers that a sponsor has been in breach of its responsibilities under the Listing Rules and considers it appropriate to impose any sanction as set out in Rule 4.9, it will refer the matter to the Listing Executive Committee. Where the sponsor is a licensee under the Act, the SEM may also recommend that the sponsor's license not be renewed. If the SEM is of the opinion that the sponsor has committed an offence under the Act, it shall refer the matter to the FSC for appropriate action.
- 4.9 If the Listing Executive Committee finds that the sponsor has been in breach of its responsibilities under the Listing Rules it may censure the sponsor, and in addition, it may publish such censure and publish the fact of and the reasons for the censure and remove the sponsor from the register maintained by the SEM.
- 4.10 The sponsor should, however, be given advance notice of any proposed action by the SEM under Rule 4.9 and be entitled to make representations to the SEM either in writing or in person.

Authorised Representatives

- 4.11 Every issuer must appoint two authorised representatives to act as the issuer's principal channel of communication with the SEM, in the addition to the sponsor. One of the authorised representatives must be either a director or the secretary of the issuer.

CHAPTER 5

 - (c) a placing;
 - (d) a rights issue;
 - (e) a consideration issue;
 - (f) a capitalisation issue;
 - (g) a conversion of securities of one class into securities of another class;
 - (h) an exercise of options or warrants to subscribe for securities; and
 - (i) such other method as may be approved by the SEM either generally or in any particular case.

Offer for subscription

- 5.4 An offer for subscription is an invitation to the public by or on behalf of an issuer to subscribe for securities of the issuer not yet in issue or allotted.
- 5.5 The issuer must state the minimum level of subscription, below which the issue would be cancelled and the subscription would be refunded.
- 5.6 In the case of offers for subscription, the SEM must be satisfied as to the fairness of the basis of allotment so that every investor who applies at the same price for the same number of securities receives equal treatment.

Offer for Sale

- 5.7 An offer for sale is an invitation to the public by or on behalf of the holders or allottees of securities to purchase securities of the issuer already in issue or agreed to be subscribed.

- 5.8 In the case of offers for sale, the SEM must be satisfied as to the fairness of the basis of allocation so that every investor who applies at the same price for the same number of securities receives equal treatment.

Placing

- 5.9 A placing is the obtaining of subscriptions for or the sale of securities by an issuer or intermediary (such as the sponsor) privately from or to persons selected or approved by the issuer or intermediary.
- 5.10 The SEM may not permit a new applicant to be listed by way of a placing if there is likely to be significant public demand for the securities.
- 5.11 The SEM may be prepared to allow preliminary arrangements and placings to be made to dispose of securities before the start of dealings where necessary to comply with the requirement in Rules 6.21 or 6.22 that a minimum prescribed percentage of any class of listed securities must at all times be held by the public.
- 5.12 The SEM may require a list of placees.
- 5.13 If the securities are not offered to existing holders in proportion to their existing holdings then, unless the securities will be issued by the directors under the authority granted to them by an ordinary resolution of the company under section 52(2) of the Companies Act, any offer requires the prior approval of the meeting of shareholders.

Introduction

- 5.14 An introduction is a method of bringing securities to listing not involving an issue of new securities or any marketing of existing securities because the securities are already widely held by the public (so as to satisfy the requirements of Rules 6.21 and 6.22) and the issuer is a public company. For an introduction, the securities must be of such amount and so widely held that their marketability when listed can be assumed. To satisfy itself of this the SEM may require to see the applicant's share register.
- 5.15 Introductions will normally be appropriate in the following circumstances:
- (a) where the securities for which listing is sought are already listed on another securities exchange;
 - (b) where the securities of an issuer (for example, a wholly owned subsidiary of a listed issuer) are distributed in kind by a listed issuer to the shareholders of that listed issuer or to the shareholders of another listed issuer (for example, where the first listed issuer has a listed subsidiary); or
 - (c) where a holding company is formed and its securities are issued in exchange for those of one or more listed issuers.
- 5.16 An introduction will not be permitted if a change in the nature of the business is in contemplation or, if within six months prior to listing, there has been a marketing of those securities, save where it is an overseas company seeking a secondary listing on the SEM.

Rights Issue

- 5.17 A rights issue is an offer to existing holders of securities to subscribe for further securities in proportion to their holdings by means of the issue of a renounceable provisional letter of allotment (or other negotiable document) which may be traded (as "nil paid" rights) for a period before payment for the securities is due. The renounceable provisional letter of allotment (or other negotiable document) must specify the time, being not less than 21 days, in which the offer may be accepted.
- 5.18 In a rights issue the SEM may grant a listing of securities in "nil paid" form. Upon the securities being paid up and the allotment becoming unconditional in all respects, the listing in "nil paid" form will be amended without any need for further application for a listing of fully paid securities.
- 5.19 If existing holders do not take up their rights to subscribe in a rights issue:
- (a) the securities to which the offer relates must be offered for subscription on terms that any premium obtained over the subscription price (net of expenses) is to be for the account of such holders, save that if the proceeds for an existing holder do not exceed MRU 100, the proceeds may be retained for the issuer's benefit;
 - (b) the securities may be allotted or sold to underwriters, if on the expiry of the subscription period, no premium (net of expenses) has been obtained; and
 - (c) no excess applications are permitted without the prior permission of the SEM. A director of the issuer will not, save in exceptional circumstances, be permitted to subscribe for or purchase excess securities without those securities being offered to existing holders on the same terms.
- 5.20 In every rights issue, the issuer may make arrangements to dispose of fractional entitlements, provided that such arrangements with regard to fractional entitlements are disclosed in the Listing Particulars.

Capitalisation Issue

- 5.21 A capitalisation issue is an allotment of further securities to existing shareholders, credited as fully paid up out of the issuer's reserves or profits, in proportion to their existing holdings, or otherwise not involving any monetary payments. A capitalisation issue includes a bonus issue and a scrip dividend scheme under which profits are capitalised.
- 5.22 No issuer shall proceed with a capitalisation issue involving a payment of securities out of reserves, unless it has obtained the prior written confirmation of its auditors that its reserves are sufficient for this purpose.

Consideration Issue

- 5.23 A consideration issue is an issue of securities in consideration for the acquisition of assets, or an issue of securities on an acquisition of, or merger with, another company as consideration for the securities of that other company.

- 5.24 For the purposes of Chapter 8, a vendor consideration placing, that is a marketing by or on behalf of vendors of securities allotted to them as consideration for an acquisition, will be treated as a placing and not a consideration issue.

Exchange, Substitution or Conversion

- 5.25 Securities may be brought to listing by an exchange or a substitution of securities for or a conversion of securities into other classes of securities.

New applicants and disclosure of advisers' interests

- 5.26 If following an offer for sale, offer for subscription or placing by a new applicant, any of the new applicant's advisers becomes interested in five per cent or more of any class of equity securities being marketed, the interest must be notified to the SEM before dealings in the securities commence. Advisers, for the purpose of this Rule, include the issuer's sponsor and its associates, its lawyers, reporting accountants and any other financial advisers appointed by the issuer in connection with its application for listing.

CHAPTER 6

CONDITIONS FOR LISTING

Introduction

- 6.1 This Chapter sets out the basic conditions which have to be met as a pre-requisite to the listing of securities. They apply to every method of listing and to both new applicants and listed issuers except where otherwise stated. Additional and alternative conditions for listing are set out in Chapters 15 to 17 dealing with international issuers, investment entities and public sector issuers. Issuers are reminded that these requirements are not exhaustive and that the SEM may impose additional requirements in any particular case. Where indicated in the Rules the FSC is to be informed of the particular decision made by the SEM.

General Conditions

- 6.2 In order for the securities to be admitted to the Official List, the SEM must be of the opinion that the issuer and its business are suitable so as to allow the listing of its securities and that there is an adequate and open market in the securities for which listing is sought.

Special Conditions

- 6.3 The SEM may make the admission of securities to listing subject to any special condition which it considers appropriate in the interests of protecting investors and of which the SEM has explicitly informed the applicant.

Pre-requisites for Admission

- 6.4 An issuer seeking listing shall:
- (a) subject to Rule 6.5, issue the Listing Particulars which complies with both the prospectus requirements of the Act and the content requirements for Listing Particulars set out in these Listing Rules (see particularly Chapters 8 and 9);
 - (b) make provision in its articles of association or Constitution for various matters set out in Appendix 4; and
 - (c) enter into a Listing Undertaking in the form set out in Appendix 3.
- 6.5 Where a prospectus is issued pursuant to the Act in connection with the issue of securities, the SEM may treat the prospectus as constituting the Listing Particulars if the prospectus complies with the content requirements for Listing Particulars set out in these Listing Rules.

Conditions relating to new applicants

Incorporation

- 6.6 A new applicant must be duly incorporated or otherwise validly established according to the relevant laws of its place of incorporation or establishment, and be operating in conformity with its memorandum and articles of association or Constitution or equivalent constitutive documents. Its articles of association, Constitution or equivalent constitutive documents must

comply with the provisions of Appendix 4. Where a company is incorporated in Mauritius, it must be and remain a public company.

Accounts

- 6.7 A new applicant which is a company must have published or filed audited accounts which:
- (a) cover at least 3 years except as provided for in Rule 6.8 and the latest accounts must be in respect of a period ended not more than 6 months before the date of the Listing Particulars;
 - (b) are consolidated accounts in respect of the applicant and all its subsidiaries;
 - (c) have been prepared in accordance with the applicant's national law and, in all material respects, with International Financial Reporting Standards (but see Rule 15.3 in respect of international issuers);
 - (d) have been independently audited in accordance with International Standards on Auditing; and
 - (e) have been reported on by the auditors without qualification.
- 6.8 In relation to Rule 6.7(a) accounts relating to a period shorter than 3 years may be accepted if the SEM is satisfied that:
- (a) such acceptance is desirable in the interests of the new applicant or of investors and investors have the necessary information available to arrive at an informed judgement concerning the new applicant and the securities for which listing is sought (for example, in the case of a newly formed "project" company concerned with the construction of a major infrastructure project);
 - (b) where the application is in respect of guaranteed debt securities (except those guaranteed by a state or a state corporation as set out in Chapter 17), the guarantor has published or filed audited accounts which cover at least three years; and
 - (c) where the application is in respect of debt securities, the obligations created in respect of such securities are fully secured.
- 6.9 The auditors must be independent of the applicant and comply with guidelines on independence issued by their respective professional bodies.

Nature and duration of business activities

- 6.10 A new applicant which is a company must be carrying on as its main activity, either by itself or through one or more of its subsidiaries, an independent business which is revenue earning and must have done so for at least the period covered by the accounts required by Rule 6.7(a). A company with a majority of its assets invested in securities of another company listed on the SEM or on another securities exchange (including any overseas securities exchange) is not suitable for listing unless it satisfies the conditions for investment entities in Chapter 16.

Continuity of management

- 6.11 In determining the suitability for listing of a new applicant, the SEM may have regard to the continuity of management of the new applicant throughout the period covered by the accounts required by Rule 6.7(a). For this purpose, the SEM will have regard to whether:
- (a) the current executive directors have had, collectively, direct management responsibility for all the group's major businesses;
 - (b) the current key executive directors have played a significant role in the group's activities; and
 - (c) the senior management of the group taken as a whole has changed materially.

Directors

- 6.12 The directors of a new applicant which is a company must have collectively appropriate expertise and experience for the management of its business.
- 6.13 A new applicant which is a company must ensure that each of its directors is free from conflicts between duties to the company and private interests and other duties which might be detrimental to the business or prospects of the applicant, unless the applicant can demonstrate that arrangements are in place to avoid detriment to its interests. Directors must also satisfy the SEM that they are of good character and integrity.
- 6.14 Each director and proposed director of a new applicant must make a declaration and undertaking in the form set out in Appendix 5 and submit it to the SEM in accordance with the provisions of Rule 7.11(o).

Controlling shareholder

- 6.15 Where a new applicant has a controlling shareholder, the SEM may require the appointment of a sufficient number of independent non-executive directors (but in every case less than half of the members of the Board of directors) to ensure that the applicant is at all times capable of operating and making decisions independently of the controlling shareholder and that all transactions between the applicant and the controlling shareholder are conducted at arm's length and on a normal commercial basis.

Conditions relating to securities

Validity

- 6.16 To be listed, securities must:
- (a) conform to the law of the applicant's place of incorporation;
 - (b) be duly authorised according to the requirements of the applicant's memorandum and articles of association or Constitution; and
 - (c) have any necessary statutory or other consents.

Transferability

- 6.17 To be listed, securities must be freely transferable. In exceptional circumstances the SEM may permit an issuer to decline to approve the transfer of shares provided that this does not disturb the market in those securities. The SEM shall promptly inform the FSC on any occasion on which the SEM approves the listing of securities which are not freely transferable.

Market capitalisation

- 6.18 Except where equity securities of the same class are already listed, the expected aggregate market value of the equity securities for which application for listing has been made must be at least MRU 20 million.
- 6.19 If the shares of the issuer are not listed, then the issuer must have tangible assets of at least MRU 50 million. The nominal amount of each class of debt securities for which listing is sought must be not less than MRU 25 million divided into units of not less than MUR 100 or such other amount as determined by the SEM.
- 6.20 The SEM may admit securities of lower value than specified in Rules 6.18 and 6.19 if it is satisfied that there will be an adequate market for the securities concerned or where listing is sought in respect of a further issue of debt securities which are or are to be uniform in all respects with debt securities of a class already listed. The SEM in such a case shall promptly notify the FSC whenever securities are approved for listing pursuant to the exception created by this Rule.

Equity securities in public hands

- 6.21 Subject to Rule 6.22, where an application for listing has been made for a class of equity securities, at least 25 per cent of that class must, no later than the date on which dealings commence, be in the hands of not less than 200 members of the public (but see Rule 16.6(i) in respect of investment entities). Where an application for listing has been made for a class of debt securities the securities must, no later than the date on which dealings commence, be in the hands of not less than 100 members of the public.
- 6.22 (a) A percentage lower than 25 per cent may be acceptable if the market will operate properly with a lower percentage in view of the large number of shares of the same class and the extent of their distribution to the public. In exceptional circumstances, listing may be granted to a class of equity securities where as little as 15 per cent of that class is in public hands provided that the issuer undertakes to endeavour to increase the shareholding in public hands to 20 per cent not later than the end of the third year of listing and to 25 per cent not later than the end of the fifth year of listing.
- (b) The SEM may, at its discretion and with the approval of the FSC, accept a minimum percentage in public hands of 10 per cent in the case of an issuer with an expected market capitalization at the time of listing:
- (i) of over MRU 2 billion; or
 - (ii) greater than the average weighted market capitalization of the second ten companies on the Official Market,

provided that the issuer undertakes to increase the shareholding in public hands to 20 per cent not later than the end of the third year of listing and to 25 per cent not later than the end of the fifth year of listing.

- 6.23 Any related party of the company will not be recognised as a member of "the public" or equity securities held by a related party will not be recognised as being "in public hands". In addition, the following will not be recognised as a member of "the public":
- (a) any person whose acquisition of securities has been financed directly or indirectly by a related party;
 - (b) any person who is accustomed to take instructions from a related party in relation to the acquisition, disposal, voting or other disposition of securities of the issuer registered in his name or otherwise held by him.
- 6.24 If the percentage of a class of equity securities in the hands of the public falls below 25 per cent or such lower percentage as may be permitted in accordance with Rule 6.22 that may result in the suspension or withdrawal of a company from the Official List pursuant to Rule 3.9(c). The SEM will allow a reasonable time to restore the percentage, unless this is precluded by the need to maintain the smooth operation of the market or to protect investors.
- 6.25 Where equity securities are held by an investment entity, every one-percentage point shareholding shall be deemed to be held by eight individual shareholders.

Whole class to be listed

- 6.26 Where an application for listing is made in respect of any class of security:
- (a) if none of the securities of that class are already listed, the application must relate to all securities of that class issued or proposed to be issued; or
 - (b) if some of the securities of that class are already listed, the application must relate to all further securities of that class issued or proposed to be issued.
- 6.27 An application for listing shall be made for all further issues of securities of a class already listed prior to the issue of the securities.

Warrants or options to subscribe

- 6.28 In the absence of exceptional circumstances the issue of warrants or options to subscribe for equity securities must be limited to not more than 20 per cent of the stated capital of the applicant at the time of issue of the warrants or options, provided the 20 per cent shall not include the rights of subscription under an employee share scheme.
- 6.29 The conditions for listing of options or warrants to subscribe securities are the same as would apply if the subject of the application for listing had been the securities to be subscribed, unless the SEM otherwise agrees. Therefore, the Listing Particulars in respect of the options or warrants to subscribe securities must contain all the relevant information relating to the securities to be subscribed as well as that relating to the options or warrants.

Convertible securities

- 6.30 Convertible securities may be admitted to listing only if the securities into which they are convertible are or will become at the same time:
- (a) listed securities; or
 - (b) securities listed on another securities exchange (including an overseas securities exchange).

Cash Companies

- 6.31 Subject to Rules 3.9 to 3.13, a listed issuer which becomes a cash company will not satisfy the conditions for listing and will be suspended. A listed issuer which becomes a cash company will be given a period of six months from the date of its suspension or if earlier from the date of the meeting of shareholders approving the disposal (pursuant to Chapter 13), in which to take the necessary steps to cease to be a cash company. If at the end of the six-month period, the issuer remains a cash company, its listing will normally be cancelled. For the purposes of this Rule, a cash company is an issuer (other than an investment entity) whose assets consist wholly or substantially of cash or short dated securities because it has disposed of all or a substantial part of its business or otherwise has ceased to have a business of sufficient substance or support its market capitalisation.

Underwriters

- 6.32 The SEM reserves the right to enquire from an issuer as to the financial suitability of any proposed underwriter and may reject an application for listing if it is not satisfied as to the underwriter's ability to meet its underwriting commitment.

CHAPTER 7

APPLICATION PROCEDURES AND REQUIREMENTS

General

7.1 Securities may be admitted to the Official List of the SEM, at least 5 business days after the decision of the SEM to admit the securities to listing:

- (a) has been communicated to the applicant; and
- (b) has been announced to the public by way of a notice published by the SEM in the press, or on its website, immediately after the notification of the applicant.

However, dealings in such newly listed securities shall only commence upon the happening of the following events (as applicable):

- (c) the issue of the Listing Particulars (when Listing Particulars are required) within such time after the admission of the securities as may be determined after consultation with the SEM provided the approval from the SEM has been obtained;

and

- (d) the satisfaction of all conditions precedent to the issue of the securities (for example, the passage of all relevant resolutions at the issuer's special meeting of shareholders or obtaining any necessary regulatory or governmental consents).

Where Listing Particulars are not required, nor are there any conditions precedent to the issue, dealings in newly listed securities shall commence upon the next business day after paragraphs (a) and (b) of Rule 7.1 have taken place.

7.2 The SEM will not, save in exceptional circumstances, admit securities to listing until each of the application documents referred to in Rule 7.11 has been lodged. Failure to comply with Rule 7.11 may result in delayed consideration of the application by the SEM.

7.3 Where any document is amended after the initial submission, a like number of further copies must be submitted to the SEM (in the same manner as the original document was submitted) for approval, marked in the margin to indicate the changes made to conform to any comments previously made by the SEM, any other changes and indicating where the relevant items from Chapter 9 have been met.

7.4 No material amendment to the final proof of the Listing Particulars will be allowed without the consent of the SEM.

7.5 Listing Particulars or supplementary Listing Particulars must not be issued until they have received the approval of the SEM. However, circulation of a draft or preliminary Listing Particulars, which is clearly marked as such and which states that it has not been approved by the SEM is permitted for the purposes of arranging underwriting.

- 7.6 Issuers are reminded of the provisions of section 145 (1) of the Act which provides that the FSC may make rules in respect of the publication, form and content of securities advertisements.
- 7.7 Issuers are also reminded that these requirements are not exhaustive and that an applicant for listing must also supply any further documents and information which the SEM may require in a particular case.

Application procedure

- 7.8 An issuer wishing to apply for listing of any of its securities must file with the Listing Division of the SEM a draft formal application for listing in the form set out in Appendix 1 and the initial application documents as set below in Rule 7.11.
- 7.9 An application for listing made in accordance with Rule 7.8 shall be considered initially by the Listing Division which shall then advise the Listing Executive Committee of the eligibility and suitability of the issuer for listing.
- 7.10 The applicant must lodge with the SEM (in sealed envelope marked for the attention of the Secretary of the Listing Executive Committee) no later than midday at least three business days prior to the date of the Listing Executive Committee hearing the final application documents set out below in Rule 7.12.

- (q) such other documentation as may be required by the SEM.

- 7.13 Where a certified copy of any shareholders' resolution or board resolution (see Rule 7.12 (h) and (i)) is not available for lodging at least three business days prior to the intended publication date of the Listing Particulars, such resolution or resolutions will be required to be delivered to the Listing Division of the SEM as soon as is practicable thereafter.

Documents to be lodged later

- 7.14 The following documents must be lodged with the Listing Division of the SEM as soon as practicable after the publication of the Listing Particulars but before dealings commence:

(Such lists may be supplied directly to the SEM by each placing broker/investment dealer in order to maintain confidentiality.)

Block listing

- 7.15 Where a listed issuer issues securities pursuant to an employees' share scheme or following the exercise of conversion rights attaching to a class of convertible securities (including warrants) subject to the agreement of the Listing Division of the SEM, the issuer may make a single application for the total number of securities which may be issued in a particular case (a "block listing").
- 7.16 In a block listing application, the following items must be lodged in final form with the Listing Division of the SEM (marked for the attention of the Secretary of the Listing Executive Committee) at the outset:

CHAPTER 8

LISTING PARTICULARS

Introduction

- 8.1 This Chapter sets out the requirements relating to Listing Particulars. Additional and alternative requirements relating to Listing Particulars are set out in Chapters 15, 16 and 17 dealing with international issuers, investment entities and public sector issuers.
- 8.2 Issuers are reminded that Listing Particulars which also serve as a prospectus within the meaning of the Act must also comply with and be registered in accordance with the Act.
- 8.3 Applicants should note that they are required to confirm in their application that all requisite information has been included in the Listing Particulars or will be included before the final version is submitted for review (see Appendix 1).

Requirement for Listing Particulars

- 8.4 When an issuer applies for listing of its securities it must publish Listing Particulars, save as provided in Rules 8.22 (issues not requiring Listing Particulars) and 15.21 (mutual recognition).

Responsibility

- 8.5 The Listing Particulars and any supplementary Listing Particulars must include a statement in the form set out in Rule 9.2 or 9.68 (responsibility statement), modified as required pursuant to Rule 8.6.
- 8.6 In cases where the directors of the issuer are responsible for only part of the Listing Particulars and the directors of another company being responsible for the remainder, a responsibility statement as per Rule 9.2 or 9.68 would be required from directors in respect of their respective companies. In exceptional cases, the SEM may require either persons to give, or join in, the responsibility statement, in which case the statement must be adapted accordingly.

Form and content

- 8.7 The Listing Particulars must contain:
- (a) all the specific items of information set out in Chapter 9 (according to the nature and circumstances of the issuer and the type of security), as specified in Rule 8.8 and in the appendix to this Chapter;
 - (b) such other particulars and information which, according to the particular nature of the issuer and the securities for which listing is sought, is necessary to enable an investor to make an informed assessment of the activities, assets and liabilities, financial position, management, prospects, and the profits and losses of the issuer and of the rights attaching to such securities; and
 - (c) any additional information required by the SEM as a special condition pursuant to Rule 3.6.

- 8.8 An accountant's report must be incorporated into the Listing Particulars whenever Listing Particulars are required except in the following cases:
- (a) rights issues by a listed issuer;
 - (b) non-convertible debt issues by a listed issuer; or
 - (c) in exceptional circumstances as agreed by the SEM.
- 8.9 There is no prescribed format for Listing Particulars except that:
- (a) the SEM may require that prominence be given in the Listing Particulars to important information in such manner as it considers appropriate; and
 - (b) illustrations of a pictorial or graphic nature may be included provided that such illustrations are not misleading or likely to mislead in the form and context in which they are included.

Omission of information

- 8.10 If any information required by Rule 8.7(a) is not applicable and no equivalent information is available, it need not be included in the Listing Particulars provided that the SEM is informed of this in writing and Rule 2.3 is complied with.
- 8.11 The SEM may authorise the omission of information which is applicable if it considers that:
- (a) the information is of minor importance only and is not such as will influence assessment of the assets and liabilities, financial position, profits and losses and prospects of the issuer;
 - (b) disclosure would detrimentally affect the information needs of the market, namely that the inclusion of the information would not be material to an investor's decision to invest and its inclusion would be likely to distort and mislead in relation to matters which are required to be disclosed; or
 - (c) disclosure would be seriously detrimental to the issuer and omission is not likely to mislead investors with regard to facts and circumstances, knowledge of which is essential for the assessment of the securities in question.
- 8.12 Requests to the SEM to authorise any omission of information must:
- (a) be in writing from the issuer or sponsor;
 - (b) identify the information concerned and the reasons for the omission; and
 - (c) state why in the opinion of the issuer one or more of the grounds in Rule 8.11 applies.

Formal approval

- 8.13 Listing Particulars must be formally approved by the Listing Executive Committee. Such approval will only be given if the Listing Executive Committee considers that the information in the Listing Particulars is complete. Applicants must confirm in the application for listing (see Appendix 1) that the Listing Particulars contain all information required by Rule 8.7 or will contain all such information by the time that the final version is submitted for formal approval.

Supplementary Listing Particulars

- 8.14 The SEM must be advised immediately and a supplementary Listing Particulars prepared if, at any time after the Listing Particulars have been formally approved by the Listing Executive Committee and before dealings in the relevant securities commence, the issuer becomes aware that:

- (a) there has been a significant change affecting any matter contained in the Listing Particulars; or
- (b) a significant new matter has arisen, the inclusion of information in respect of which would have been required to be mentioned in the Listing Particulars if it had arisen at the time of their preparation.

For this purpose "significant" means significant for the purpose of enabling an investor to make an informed assessment of the activities, assets and liabilities, financial position, management, prospects, and the profits and losses of the issuer and of the rights attaching to such securities.

- 8.15 Supplementary Listing Particulars must:

- (a) give details of the change or new matter;
- (b) contain the statement required by Rule 8.5;
- (c) contain a statement that, save as disclosed, there has been no significant change and no significant new matter has arisen since publication of the previous Listing Particulars; and
- (d) be approved by the SEM prior to issue.

Omission of material contract from display

- 8.16 The SEM may subject to prior approval from the Listing Executive Committee (Rule 2.3) allow all or part of a material contract to be withheld from public inspection (see Rules 9.64 and 9.65 (c) or 9.122). The request must:

- (a) be in writing from the issuer or sponsor (see Rule 7.11 (k));
- (b) state why in the opinion of the issuer one or more of the grounds in Rule 8.11 applies;
- (c) enclose a copy of the contract in question or, if the contract is not reduced to writing, a memorandum giving full particulars of its terms; and

- (d) include confirmation by the issuer that the contract is a material contract not in the ordinary course of business.

Profit Forecasts

- 8.17 Listing Particulars must not contain reference (general or particular) to future profits or contain dividend forecasts based on an assumed future level of profit unless supported by formal profit forecasts. Dividend forecasts not based on assumed future profits (for example, dividend forecasts based on retained reserves) are not subject to this Rule.
- 8.18 As required by Rule 9.47 or 9.107 where a profit forecast appears in any Listing Particulars, the principal assumptions upon which it is based must be stated. These assumptions must relate only to matters which are outside the control of the directors and which could have a material effect on the achievement of the forecast and must:
 - (a) be readily understandable by investors;
 - (b) be specific about the particular aspect of the forecast to which they refer and about the uncertainty attaching to that aspect;
 - (c) relate only to material uncertainty; and
 - (d) not include the business estimates underlying the forecasts.

Previously published documents

- 8.19 The SEM may exempt listed issuers wholly or partially from the obligation to publish Listing Particulars, where:
 - (a) application is made for admission of securities all or part of which have been:
 - (i) the subject of a public issue;
 - (ii) issued in connection with a takeover offer; or
 - (iii) issued in connection with a merger involving the acquisition of another company or the formation of a new company, the division of a company, the transfer of all or part of an undertaking's assets and liabilities or as consideration for the transfer of assets other than cash; and
 - (b) not more than 12 months before admission of the securities, a document ("the relevant document") has been published in Mauritius containing, in the opinion of the SEM, equivalent information to that which would otherwise be required to be included in Listing Particulars by the SEM.
- 8.20 Where exemption is given under Rule 8.19 the following information must be published in printed form, in Listing Particulars if the exemption is partial or instead of Listing Particulars if the exemption is total:
 - (a) details of any material changes which have occurred since the date of the relevant document or an appropriate negative statement;

- (b) a statement that application has been made for listing of the securities specifying the number and class of the securities in question; and
- (c) a declaration by the directors as set out in Rule 9.2 or 9.68 as to their responsibility for the information required by this paragraph and contained in the relevant document.

The FSC shall be informed accordingly.

- 8.21 The information specified in Rule 8.20 (if not comprised in Listing Particulars) and the relevant document must be published in accordance with Chapter 10, as if they together comprised Listing Particulars.

Issues not requiring Listing Particulars

- 8.22 Listing Particulars are not required for issues of shares by an issuer whose shares are already listed which fall into the following categories:

- (a) shares resulting from the conversion of listed convertible debt securities;
- (b) shares resulting from the exercise of rights under listed warrants;
- (c) shares issued in place of shares already listed, for example upon a share consolidation or division (provided that there is no increase in the nominal value of the relevant class of share capital as a result); and
- (d) shares allotted to employees if shares of the same class are already listed.

- 8.23 In cases where Listing Particulars are not required under Rule 8.22, the following information must be first submitted for approval by the Listing Executive Committee prior to its publication:

- (a) the information required by Rules 9.9, 9.12, 9.14, 9.15, 9.21, 9.24; and
- (b) the circumstances of the issue of the securities in question.

- 8.24 Such information must be published in accordance with Chapter 10 as if the document comprised Listing Particulars as soon as possible after it receives its approval by the SEM. The publication must state where in Mauritius the information can be obtained.

APPENDIX TO CHAPTER 8

- 1 The tables in this appendix set out the information which may be omitted from or is required to be present in Listing Particulars in different circumstances:

Table I Issue of equity securities

Table II Issue of debt securities (including convertible debt securities)

Table III Issue of guaranteed debt securities (including guaranteed convertible debt securities)

- 2 Where the information required by a particular Rule is inappropriate to the issuer's sphere of activity or legal form, the information must be appropriately adapted so that equivalent information is given or a non-applicability letter (Rule 8.10) or an omitted information letter (Rule 8.12) must be provided to the SEM.
- 3 Negative statements are required only where expressly indicated.
- 4 Where another company is to become part of a new applicant's group, that other company and its subsidiaries must be treated as part of the new applicant's group for the purpose of the information required by this Chapter.
- 5 An indebtedness statement is not required to be included in Listing Particulars published in connection with an issue of shares (see Rule 9.45) where the issuer's business is entirely or substantially that of banking, insurance or the provision of similar financial services, provided that the SEM is satisfied that:
 - (a) the inclusion of such a statement would not provide significant information for investors;
and
 - (b) the issuer's solvency and capital adequacy are suitably regulated by another regulatory body.

TABLE I: ISSUE OF EQUITY SECURITIES

All the specific items of information set out in Part A of Chapter 9 must be produced in the Listing Particulars, as applicable, in the case of new applicants. Listed issuers may omit the following items of information (in addition to Rule 8.8) from their Listing Particulars in the following specific cases:

Rights issues and placings by or on behalf of a listed issuer of securities of a class already issued

Consideration issues

Generally, no Listing Particulars are required in respect of the issue of equity securities as a consideration issue. However, a vendor consideration placing is to be treated as a placing for the purposes of this Chapter (see Rule 5.24). Also, a Chapter 13 circular will be required where the consideration issue is made in conjunction with a notifiable transaction. In such cases, the provisions of Chapter 13 must be met.

TABLE II: ISSUE OF DEBT SECURITIES
(including convertible debt securities)

All the specific items of information set out in Part B of Chapter 9 must be produced in the Listing Particulars, as applicable, in the case of new applicants seeking to issue debt securities. Listed issuers seeking to issue debt securities may omit the following items of information (in addition to Rule 8.8) from their Listing Particulars: Rules 9.94 - 9.102 and Rule 9.104.

Listing Particulars in respect of non-convertible debt securities are not required to contain the information set out in Rules 9.86 - 9.88.

All convertible debt securities which are convertible into new equity securities or outstanding securities in the issuer or a company in the same group as the issuer for which a listing is to be sought must comply with both the requirements applicable to debt securities for which listing is sought and with the requirements applicable to the underlying equity securities to which such convertible securities relate. In the event of any conflict or inconsistency between the various requirements, those applicable to such equity securities shall prevail.

**TABLE III: ISSUE OF GUARANTEED DEBT SECURITIES

where there are joint guarantors

like information should be given for each guarantor. Where appropriate, the SEM may however permit abridged or summarised information to be given to achieve greater comprehensibility of the Listing Particulars.

Where the guarantor is a state

If the debt securities to be issued benefit as to both principal and interest from the unconditional and irrevocable guarantee of a state the following information otherwise required under Table II about the issuer of the debt securities may be omitted:

9.10, 9.27, 9.29, 9.52, 9.57, 9.86 - 9.88, 9.91, 9.103 - 9.112, 9.120.

Only the information required by Rule 17.10, insofar as it is appropriate, need be given for a guarantor which is a state.

CHAPTER 9

CONTENTS OF LISTING PARTICULARS

Introduction

This Chapter sets out items of information, which may be required to be included in Listing Particulars. The requirements vary according to the nature and circumstances of the issuer and the type of security to be listed, as set out in the appendix to Chapter 8 and in Chapters 15, 16 and 17.

The requirements for the listing of equity securities are dealt with in Part A below and the requirements for the listing of debt securities in Part B below. As set out in Rule 6.30, an application to list convertible securities must entail an application to list the underlying securities, and accordingly Listing Particulars in relation to convertible debt securities must comply with Part B insofar as it relates to the securities and Part A insofar as it relates to the underlying equity securities into which the convertible debt securities will convert. Similarly, Listing Particulars in relation to convertible equity securities must satisfy the requirements of Part A in relation to both the convertible and the underlying securities.

General obligation of disclosure for issuers

- 11.3 Generally and apart from compliance with all the specific requirements of these Listing Rules, the issuer shall keep the SEM, members of the issuer and other holders of its listed securities informed, as soon as reasonably practicable, of any information relating to the group (including information on any major new developments in the group's sphere of activity which is not public knowledge) which:
- (a) is necessary to enable them and the public to appraise the position of the group;
 - (b) is necessary to avoid the establishment of a false market in its securities; and
 - (c) might reasonably be expected materially to affect market activity in and the price of its securities.
- 11.4 Information that is required to be disseminated pursuant to Rule 11.3 must not be given to a third party before it is notified to the SEM except as permitted in this Rule. An issuer may give information in strict confidence to its advisers and to persons with whom it is negotiating with a view to effecting a transaction or raising finance; these persons may include prospective underwriters of an issue of securities, providers of funds or loans or the placees of the balance of a rights issue not taken up by shareholders. - 11.5 An issuer whose securities are listed on the SEM and on any other securities exchange must ensure that equivalent information is made available at the same time to the market at the SEM and such other securities exchanges.

Closure of Books

- 11.6 The issuer shall publish in at least two widely circulated daily newspapers, or on its website, notice of the closure of its register of members at least 14 days before such closure and shall give individual notice thereof to the SEM and the CDS not later than the first day after such publication.

- 11.13 No such consent as is referred to in Rule 11.12 above shall be required:
- (a) for the allotment, issue or grant of such securities pursuant to an offer made to the shareholders of the issuer and, where appropriate, to holders of other equity securities of the issuer entitled to be offered to them pro rata (apart from fractional entitlements) to their existing holdings; or

11.14 A general mandate given under Rule 11.13 shall only continue in force until:

- (b) revoked or varied by ordinary resolution of the meeting of shareholders whichever occurs first.

11.15 Notwithstanding Rule 11.13 (b), the directors of the issuer must obtain the consent of the meeting of shareholders in prior to allotting any voting shares if such allotment would effectively alter the control of the issuer.

The issuer must, on the next day after the approval of the abridged audited annual financial statements by or on behalf of the board,:

- (i) publish the abridged audited annual financial statements, as a paid advertisement, in at least one daily newspaper with wide circulation, or on its website,
- (ii) publish in two local newspapers not being the same newspaper as in (i) above, or on its website, a notice to indicate that the issuer's abridged audited annual financial statements have been published and can be viewed on the issuer's website or, where an issuer does not have a website, that such financial statements can be viewed at the registered office of the issuer (or at any other place of business as may be designated by the issuer).

The advertisement in paragraph (i) above must also state that copies of the abridged audited annual financial statements are available to the public, free of charge, at the issuer's registered office (or such other place of business as may be designated by the issuer) in Mauritius and the person to whom a request should be addressed to receive a copy of the abridged audited annual financial statements.

A copy of the Annual Report shall be filed with the SEM (if available) within 90 days of, but not later than 6 months after its balance sheet date.

An issuer shall supply the SEM with a soft copy (by email) of its Annual Report (if available).

12.15 The Annual Report must:

- (a) provide more detailed and additional information (but see Rule 15.3 in respect of international companies) if they do not give a true and fair view of the state of affairs, profit or loss and cash flows of the group;
- (b) be lodged with the SEM on the same day as they are sent to shareholders under Rule 12.14. The issuer shall supply the SEM with a soft copy (by e-mail) of the Annual Report (if available).

12.16 The following items in addition to the specific disclosure requirements under International Financial Reporting Standards and such other standards issued under the Financial Reporting Act 2004 must, unless the SEM otherwise agrees, be included in the Annual Report:

- (f) a statement in aggregate as to the period unexpired of service contracts, which are not determinable by the employer within one year without payment of compensation (other than statutory compensation), of directors proposed for re-election at the forthcoming annual meeting of shareholders or, if there are no service contracts, a statement of that fact;
- (g) particulars of any contract of significance subsisting during the period under review, to which the issuer, or one of its subsidiaries, is a party and in which a director of the issuer is or was materially interested, either directly or indirectly, or, if there has been no such contract, a statement of that fact;
- (h) particulars of any contract of significance between the issuer, or one of its subsidiaries, and a controlling shareholder or any of its subsidiaries subsisting during the period under review;
- (i) particulars of any contract of significance for the provision of services to the issuer or any of its subsidiaries by a controlling shareholder or any of its subsidiaries subsisting during the period under review;

- (n) details of the classes and numbers of any convertible securities, options, warrants or similar rights issued or granted by the issuer or any of its subsidiaries during the period under review, together with the consideration received by the issuer or any of its subsidiaries thereof;

- (p) particulars (including the price paid) of any redemption or purchase or cancellation by the issuer of its securities and, in the case of such redemptions, purchases or cancellations made otherwise than through the market or by tender or partial offer to all shareholders, particulars of the names of sellers of such shares redeemed, purchased or cancelled by the issuer during the period under review;

- (r) a summary, in the form of a comparative table, of the published results and of the assets and liabilities of the group, for the last three financial years.

12.17 Where in the opinion of the directors of the issuer, the number of subsidiaries is such that compliance with Rule 12.16 (b) may result in particulars of excessive length being given, compliance with that Rule may be waived by the SEM except in the case of subsidiaries carrying on a business the results of the carrying on of which, in the opinion of the directors, materially affect the amount of the profit or loss of the group or the amount of the assets of the group.

Interim (quarterly) reports

12.18 An issuer which has listed equity securities must prepare an interim (quarterly) report, on a group basis where relevant, on its activities.

12.19 The interim (quarterly) report must be published within forty-five days of the end of the period to which it relates.

12.20 The issuer must, on the next day after the approval of the interim (quarterly) report by or on behalf of the board,:

- (i) publish the interim (quarterly) report, as a paid advertisement, in at least one daily newspaper with wide circulation, or on its website,
- (ii) publish in two local newspapers not being the same newspaper as in (i) above, or on its website, a notice to indicate that the issuer's interim (quarterly) report has been published and can be viewed on the issuer's website or, where an issuer does not have a website, that such report can be viewed at the registered office of the issuer (or at any other place of business as may be designated by the issuer).

The advertisement in Rule 12.20 (i) above must also state that copies of the interim (quarterly) report are available to the public, free of charge, at the issuer's registered office (or such other place of business as may be designated by the issuer) in Mauritius and the person to whom a request should be addressed to receive a copy of the interim (quarterly) reports. The issuer may also send the interim (quarterly) report to holders of its listed securities.

- 12.21 The issuer must also supply the SEM with a soft copy (by email) of its interim (quarterly) report as soon as it is approved by or on behalf of the board.
- 12.22 The following items in addition to the specific disclosure requirements under International Financial Reporting Standards and such other standards issued under the Financial Reporting Act 2004 must, unless the SEM otherwise agrees, be included in the interim (quarterly) report:
- (a) the rates of dividend paid or proposed on each class of shares (with particulars of each such class) and amounts absorbed thereby (or an appropriate negative statement);
 - (b) an explanatory statement relating to the activities of the group and profit (or loss) during the relevant period including any significant information enabling investors to make an informed assessment of the trend of the activities and profit (or loss) of the group together with an indication of any special factor which has influenced those activities and the profit (or loss) during the period in question, and enabling a comparison to be made with the corresponding period of the preceding financial year and must also, as far as possible, refer to the prospects of the group in the current financial year; and
 - (c) any supplementary information which in the opinion of the directors of the issuer is necessary for a reasonable appreciation of the results of the quarter.
- 12.23 Where the figures in the interim (quarterly) report have not been audited, a statement to that effect must be included; where they have been audited, the report of the licensed auditors including any qualifications must be reproduced in full.
- 12.24 The requirement to file interim (quarterly) reports with the SEM will not apply for the quarter where the closing date coincides with the balance sheet date.

CHAPTER 13

NOTIFIABLE TRANSACTIONS

Introduction

- 13.1 This Chapter sets out the circumstances in which listed companies are required:
- (a) to disclose details of the following transactions ("notifiable transactions"):
 - (i) "substantial transactions" - Rule 13.9;
 - (ii) "disclosable transactions" - Rule 13.13; and
 - (iii) "related party transactions" - Rule 13.21.
 - (b) to send a circular to shareholders giving information about certain such notifiable transactions (a "Chapter 13 circular"); and
 - (c) in the case of substantial transactions or certain related party transactions, to obtain shareholders' consent to them.
- 13.2 In cases of takeovers, mergers and demergers, issuers should follow the procedure prescribed in Rule 11.21.
- 13.3 Issuers should note that even if a transaction is not required to be disclosed by the provisions of this Chapter, disclosure may nevertheless be required under the issuer's general obligation to keep the market informed of all price-sensitive information (see Rule 11.4).

Interpretation

- 13.4 References in this Chapter 13 to a transaction by a listed issuer:
- (a) include a transaction by any subsidiary of the listed issuer;
 - (b) exclude an issue of securities for cash and which (so far as is practicable) is made available to all holders of the relevant class of the issuer's securities or a transaction to raise finance which, in either case, does not involve the acquisition or disposal of any fixed asset of the listed issuer or its subsidiaries;
 - (c) exclude transactions by an issuer which has neither equity nor convertible debt securities listed;
 - (d) exclude transactions by an issuer which is an international issuer with a secondary listing on the SEM; and
 - (e) in the case of a related party transaction, exclude the grant of options or the receipt of shares by a director in accordance with the terms of an employees' share scheme which does not have the effect of conferring benefits only or mainly on directors of the issuer.
- 13.5 For the purposes of this Chapter 13, references to an acquisition or realisation of assets include the entering into or termination of finance and/or operating leases where the financial

effects of such leases have an impact on the balance sheet and/or profit and loss account of the issuer, respectively.

- 13.6 In the case of related party transactions only, reference to an acquisition or realisation of assets includes an option to acquire or realise assets.
- 13.7 In determining the category into which a transaction falls, the following should be taken into consideration:
- (a) in any acquisition or realisation of equity capital, the value of such capital is to be assessed by reference to the net assets represented by such capital as disclosed in the latest published audited accounts or consolidated accounts (as appropriate) adjusted to take account of subsequent transactions in the manner described in (f) below (the "net assets");
 - (b) in any acquisition or realisation of assets other than equity capital, the value of such assets is to be assessed by reference to the consideration or, in the case of a realisation, by reference to their net assets as disclosed in (a) above, if that is greater;
 - (c) where the consideration is in the form of equity capital, the SEM may determine the value of the consideration by reference either to the market value of such capital or the net assets represented by such capital;
 - (d) subject to the provisions of this Rule, references to the assets of the acquiring or realising group are to its net assets or consolidated net assets, as appropriate, as defined in (a) above, provided that in the case of the acquisition or realisation of properties by an issuer whose assets consist solely or mainly of property or interests in companies whose assets consist solely or mainly of properties and whose income is solely or mainly derived from those properties, the properties being acquired or realised will be compared with the latest available net book value of the issuer's properties, or published valuation, before deducting mortgages;
 - (e) the SEM will normally aggregate a series of transactions that have taken place since either the publication of the last accounts or the issue of the last Chapter 13 circular, whichever is the later, and treat them as if they were one transaction occurring as at the date of the latest transaction if they were all completed within a short period of time or are otherwise related;
 - (f) the value of transactions in respect of which adequate information has already been issued to shareholders will be included in the net assets or profits of the acquiring or realising issuer for comparison with the transaction or transactions under consideration; and
 - (g) where an issuer can demonstrate that its balance sheet does not reflect the real value of its business due to the exceptional nature of that business, the SEM may agree to an alternative test or set of tests to those set out in Rules 13.9 and 13.13, on an issuer by issuer basis.
- 13.8 The requirements apply whether the consideration is in cash or other than cash or a combination of the two.

Substantial Transactions

- 13.9 A substantial transaction is any acquisition or realisation of assets (including securities) by a listed issuer or any of its subsidiaries where:
- (a) the value of the assets being acquired or realised represents 50 per cent or more of the net assets or consolidated net assets, as the case may be, of the acquiring or realising group; or
 - (b) the net profit (after deducting all charges except taxation) attributable to the assets being acquired or realised as disclosed in the latest published audited accounts represents 50 per cent or more of such net profit of the acquiring or realising group; or
 - (c) the aggregate value of the consideration given or received represents 50 per cent or more of the net assets or consolidated net assets, as the case may be, of the acquiring or realising group; or
 - (d) the value of the equity capital issued as consideration by the acquiring issuer represents 50 per cent or more of the value of the equity capital previously in issue.

Where the relative figures on the bases set out in Rule 13.9(a), (c) and (d) are below the relevant percentages but the relative figure on the basis set out in Rule 13.9(b) is above the relevant threshold, the SEM may be prepared to disregard the net profits test set out in Rule 13.9(b) if the issuer can clearly demonstrate that the comparison is affected by exceptional factors without which the comparison would have produced a result below the percentage.

- 13.10 A substantial transaction must be made conditional on approval by shareholders. Such approval may be obtained either by convening a meeting of the issuer or by means of the written approval of the transaction by a shareholder who holds or shareholders who together hold more than 50 per cent in nominal value/value of the securities giving the right to attend and vote at such meeting of shareholders. The SEM will normally require that any shareholder shall abstain from voting at that meeting of shareholders and will not accept the written approval of any such shareholder if such shareholder has a material interest in the transaction. In that event, a statement that such shareholder will not vote must be included in the Chapter 13 circular to shareholders.
- 13.11 A substantial transaction which entails any acquisition by a listed issuer or any of its subsidiaries of another business, assets, company or companies, substantially all of which are not listed, where the relative figures on the bases set out in Rule 13.9 would be 100 per cent or more or which would result in a change in control through the introduction of a majority holder or group of holders (e.g. a reverse take-over) will normally result in the suspension of the listing of the issuer's securities.
- 13.12 Save as set out in this Rule, the issuer's application for a lifting of the suspension imposed under Rule 13.11 above will be treated as if it were an application for listing from a new applicant for all purposes and the issuer will be required (*inter alia*) to publish Listing Particulars complying in all relevant respects with Chapter 8, pay the initial listing fee and execute a new Listing Undertaking. However, where the following conditions are satisfied, the issuer's application for a lifting of the suspension will not be treated as if it were an application for listing from a new applicant:

- (a) the business, company or companies to be acquired is not or are not substantially larger than the issuer;
- (b) the business, company or companies to be acquired is or are in a similar line of business to the issuer;
- (c) there is no intention to make a major change in the business of the issuer after the acquisition;
- (d) the enlarged group is suitable for listing;
- (e) there will be no significant change in the composition of the board of directors; and
- (f) there will be no material change in control of the issuer or the persons who control the composition of a majority of the board of directors.

Disclosable Transactions

- 13.13 A disclosable transaction is any acquisition or realisation of assets (including securities) by a listed issuer or any of its subsidiaries where the relative figures on the bases set out in Rule 13.9 would be 15 per cent or more and includes substantial transactions.
- 13.14 Where an acquisition is a disclosable transaction by reason only of Rule 13.9(c), and the value of the consideration is calculated by reference to the market value of the equity capital, the SEM will normally be prepared to waive the requirement to send a Chapter 13 circular to shareholders (see Rule 13.15), provided the other relative figures on the bases set out in Rules 13.9(a), (b) and (d) are less than 15 per cent.

Substantial and Disclosable Transaction Circular Requirements

- 13.15 As soon as possible after the terms of a substantial or disclosable transaction have been agreed, the issuer must:
- (a) inform the SEM; and
 - (b) deliver to the SEM a draft circular containing at least the information set out in Rules 13.16 to 13.18 (as appropriate) and after giving the SEM opportunity to comment thereon, cause the circular, amended to take account of any such comments, to be delivered to the SEM, and within two days of such delivery:
 - (i) publish in at least two daily newspapers of wide circulation, or on its website, a summary of the transaction and details of where, in Mauritius, copies are available for up to 14 days from that date in; and
 - (ii) in the case of a substantial transaction, despatched together with the relevant notice of the meeting of shareholders to each of the issuer's shareholders.

Disclosable Transaction Circulars

- 13.16 Each disclosable transaction circular must contain at least the following information:

- (a) the date of the transaction and the parties thereto (unless the counterparty is an independent third party who wishes to remain anonymous and the SEM agrees that the identity of the counter-party is not otherwise relevant to the particular transaction);
- (b) brief details of the general nature of the transaction;
- (c) particulars of the assets being acquired or realised, including the name of any company or business where relevant and, if the assets include shares, the name and general description of the activities of the company in which the shares are or were held;
- (d) a description of the trade carried on;
- (e) the aggregate value of the consideration, explaining how this is being or is to be satisfied, including the terms of any arrangements for payment on a deferred basis;
- (f) the value of the assets being acquired or realised;
- (g) brief details of the basis upon which the consideration was determined;
- (h) where applicable, the net profits before and after taxation attributed to the assets being acquired or realised in respect of the two financial years immediately preceding the transaction;
- (i) the benefits which are expected to accrue to the issuer as a result of the transaction;
- (j) in the case of an acquisition,
 - (i) the information regarding the listed issuer and its subsidiaries specified by the following Rules:
9.1, 9.2, 9.7, 9.12 and 9.13 (if applicable), 9.26 (if new shares are to be issued as consideration), 9.47, 9.51, 9.56;
 - (ii) a statement as to the effect of the acquisition on earnings or assets and liabilities of the listed issuer;
 - (iii) where as a result of the acquisition a company becomes a subsidiary of the listed issuer, the percentage of the stated capital held in that company after the acquisition;
- (k) in the case of a realisation,
 - (i) the information as regards the listed issuer and its subsidiaries specified by the following Rules:
9.1, 9.2, 9.7, 9.46(b), 9.51 and 9.56;
 - (ii) information concerning the effect of the realisation on the realising company;
 - (iii) the intended application of the sale proceeds and if this includes securities, whether such securities are or are to be listed;

- (iv) the excess or deficit of the consideration over or under the book value;
- (v) where as a result of the realisation a company ceases to be a subsidiary of the listed issuer, the percentage of the stated capital (if any) held in that company after the realisation and whether those shares are to be sold or retained;
- (l) where appropriate, a valuer's report on the property being acquired as set out in Rule 9.50;
- (m) where the transaction is also a related party transaction, details of the relevant connection and a statement that the transaction is subject to an independent shareholders' approval, if applicable; and
- (n) details of any service contracts of proposed directors of the issuer (excluding contracts expiring or determinable by the employer within one year without payment of compensation (other than statutory compensation)).

Substantial Transaction Circulars

13.17 Each substantial transaction circular must contain at least the following information:

- (a) all that required by Rule 13.16 above in relation to disclosable transactions;
- (b) where appropriate (see Rule 13.10), a statement that any interested shareholder will not vote;
- (c) in the case of an acquisition, the information regarding the issuer and its subsidiaries specified by the following Rules:
 - 9.45, 9.46 (b), 9.48, 9.49, 9.58, 9.59, 9.60, 9.64 and 9.65;
- (d) in the case of an acquisition, an accountants' report on the business, company or companies being acquired (see Rules 12.5 and 12.6) unless it is a listed company which is being acquired, in which case the inclusion of the last published balance sheet and of three years' profits (after the deduction of all charges, except taxation which charge shall be shown separately) taken from the published accounts of the company to be acquired, will suffice;
- (e) in the case of an acquisition of a business or company or companies which thereby become(s) a subsidiary or subsidiaries, a pro forma statement combining the assets and liabilities of the listed issuer and its subsidiaries (if any) with the assets and liabilities of the business, company or companies being acquired;
- (f) in the case of a realisation, the information regarding the issuer and its subsidiaries specified by the following Rules:

9.45, 9.47, 9.48, 9.49, 9.58, 9.58, 9.59, 9.60, 9.64 and 9.65,

provided that where a substantial transaction involves the realisation of assets for a cash consideration only and the issuer demonstrates to the satisfaction of the SEM that such realisation improves the working capital position of the issuer, compliance with Rule 9.48 may not be required.

- 13.18 Each substantial transaction circular must incorporate or be accompanied by a notice of the meeting of shareholders setting out the ordinary resolution to approve the entry into and completion of the substantial transaction in question.

General

- 13.19 Where the Chapter 13 circular contains a profit forecast or estimate, the circular must comply with Rules 8.17, 8.18 and 9.47 as if it were Listing Particulars and the sponsor must provide to the SEM upon submission of the draft Chapter 13 circular for review a Rule 7.12(k) letter in respect of the circular, as, if it were Listing Particulars.
- 13.20 In the case of a substantial transaction, whether the consideration includes securities or not, the SEM will require a letter from the issuer's sponsor confirming that it is satisfied that the statement in the circular as to the sufficiency of working capital has been made by the directors after due and careful enquiry and that persons or institutions providing finance have stated in writing that such facilities exist.

Related Party Transactions

- 13.21 If an issuer (or any of its subsidiaries) proposes to enter into a related party transaction, the issuer must consult the Listing Executive Committee at an early stage. If the Listing Executive Committee considers the related party to have a significant interest in, or influence over the related party transaction, it may, at its sole discretion, impose the requirements set out in Rules 13.23 and 13.24. The relevant draft contract must be supplied to the Listing Executive Committee, if requested.
- 13.22 The Listing Executive Committee may, in its sole discretion, require the issuer to provide it with a declaration that, to the best of the knowledge and belief of the directors, any nominee shareholders do not include any person who may be acting in concert with any other person in relation to the related party transaction.
- 13.23 If the Listing Executive Committee so decides, the issuer must in respect of a related party transaction:
- (a) make an announcement in the press, or on its website, containing:
 - (i) the information specified in Rule 13.30;
 - (ii) the name of the related party concerned; and
 - (iii) details of the nature and extent of the interest of the related party in the transaction;
 - (b) send a circular to its shareholders containing the information required in Rule 13.30;
 - (c) obtain the approval, by resolution, of its shareholders either prior to the transaction being entered into or, if it is expressed to be conditional on such approval, prior to completion of the transaction; and
 - (d) include in the special or ordinary resolution to approve or give effect to the transaction a condition that the validity (for the purposes of the listing requirements) of the resolution will be subject to a simple majority of the votes of shareholders other than the related party being cast in favour of the resolution.

- 13.24 Where a meeting of the issuer has been called to approve a transaction and, after the date of the notice of the meeting but prior to the meeting itself, the transaction becomes a related party transaction, the Listing Executive Committee may require that the issuer either:
- (a) take immediate steps to amend the relevant resolution by including the condition referred to in Rule 13.23(d) and give notice of the amendment to shareholders by way of a circular containing also any information required by Rule 13.30 which was not contained in the original circular accompanying the notice of the meeting; or
 - (b) withdraw the notice of the meeting and convene a fresh meeting complying with Rule 13.23(d).
- 13.25 If the Listing Executive Committee decides not to impose the requirements set out in Rules 13.23 or 13.24 in respect of a related party transaction, the issuer must prior to completing the transaction:
- (a) provide the Listing Executive Committee with a valuation report certified by an independent professional expert accredited with the SEM pursuant to Appendix 9 of the Listing Rules and acceptable to the Listing Executive Committee and with written confirmation, that the terms of the proposed transaction with the related party are fair and reasonable as far as the shareholders of the issuer are concerned; and
 - (b) undertake in writing to the Listing Executive Committee to include details of the transaction in the issuer's next published annual financial statements, circular or pre-listing statement, including the identity of the related party, the value of the consideration for the transaction and all other relevant circumstances.
- 13.26 The variation or novation of an existing agreement between the issuer (or any of its subsidiaries) and a related party will be subject to the provisions of Rule 13.23 above whether or not, at the time the original agreement was entered into, that party was a related party.
- 13.27 In addition to transactions excluded from the scope of Chapter 13 by Rule 13.4 above, the Rules in relation to related party transactions do not apply to the following transactions:
- (a) the grant of credit (including the lending of money or the guaranteeing of a loan) to a related party upon normal commercial terms in the ordinary course of business;
 - (b) the grant of an indemnity to a director of the issuer (or any of its subsidiaries) to the extent permitted by section 161 of the Companies Act, subject to full disclosure in the Annual Report;
 - (c) an underwriting (or sub-underwriting) by a related party of all or part of an issue of securities by the issuer (or any of its subsidiaries) subject to the requirements of Chapter 9 and the consideration to be paid by the issuer (or any of its subsidiaries) in respect of such underwriting is no more than the usual commercial underwriting consideration and is the same as that to be paid to the other underwriters (if any), subject to full disclosure of the terms and conditions of that underwriting (or sub-underwriting) in the Listing Particulars; or
 - (d) the transaction is one where both of the percentage ratios (where applicable) referred to in Rule 13.32 are less than 5%.

13.28 In the case of a related party transaction where both of the percentage ratios (where applicable) referred to in Rule 13.32 are 5% or more but less than 10%, the usual requirements for a transaction with a related party set out in Rule 13.23 do not apply and instead, the company must prior to completing the transaction:

- (a) inform the Listing Executive Committee in writing of the details of the proposed transaction;
- (b) provide the Listing Executive Committee with a valuation report certified by an independent professional expert accredited with the SEM pursuant to Appendix 9 of the Listing Rules and acceptable to the Listing Executive Committee and with written confirmation, that the terms of the proposed transaction with the related party are fair and reasonable so far as the shareholders of the company are concerned; and
- (c) undertake in writing to the Listing Executive Committee to include details of the transaction in the company's next published Annual Report, including, where relevant, the identity of the related party, the value of the consideration for the transaction (including, where relevant, interest rates, length of repayment period and security, if any) and all other relevant circumstances.

13.29 The Listing Executive Committee will require all transactions to be aggregated which are entered into by the issuer (or any of its subsidiaries) with the same related party (and any of its associates) in any twelve month period and which have neither been approved by shareholders nor described in circular complying with the requirements of Rule 13.30. Where any percentage ratio of a transaction is 10% or more (see Rule 13.32), the Listing Executive Committee may require the company to comply with the requirements of Rule 13.22 in respect of the latest transaction and to disclose in the circular all relevant details of each of the transactions being aggregated.

13.30 *Contents of Related Party Transaction Circulars*

The circular must contain at least:

- (a) full particulars of the transaction, including:

 - (vii) the nature and extent of the interest of the related party in the transaction;
- (b) the items of information as regards the listed issuer specified by the following Rules:

9.1, 9.2, 9.7, 9.13 (if applicable), 9.47, 9.49, 9.56, 9.60 and 9.65(c) in relation to contracts referred to in 9.58 or otherwise in the circular;

- (c) a statement that the related party will not vote;
- (d) in the case of an acquisition or disposal of an asset, an independent valuation;
- (e) any further information required pursuant to Rule 13.31(d);
- (f) if the transaction is also a substantial transaction or a disclosable transaction, the information and other matters (including, where appropriate, an accountants' report) specified by Rules 13.16 or 13.17 as the case may be; and
- (g) an opinion, in the form of a separate letter, by the issuer's sponsor as to whether the transaction is fair and reasonable so far as the shareholders of the issuer are concerned and such opinion must set out the reasons for, the key assumptions made and the factors taken into consideration in forming that opinion.

13.31 The following guidance points should be borne in mind in preparing Chapter 13 circulars for related party transactions:

- (a) the primary objective is that the circular should demonstrate the reasonableness and fairness of the proposed transaction. The balance of advantage or disadvantage to the issuer must therefore be readily apparent to enable a shareholder to reach his own conclusions on the proposal;
- (b) while the ideal approach will generally involve an arithmetical evaluation by the issuer being set out in the circular, this may not be practicable in the case of a complex transaction. It is, however, essential that sufficient information is provided to enable any recipient of the circular to evaluate the effects on the issuer;
- (c) in the case of an acquisition or realisation of an asset the primary significance of which is in terms of capital value (such as a property) an independent valuation will be required; and
- (d) notwithstanding the inclusion of an independent valuation, the circular must contain sufficient information, comment and explanation to satisfy the objectives referred to in (a) and (b) above.

13.32 The percentage ratios are the figures, expressed as a percentage, resulting from each of the following calculations:

- (a) *Consideration to market capitalisation* - the consideration divided by the aggregate market value of all the equity securities of the issuer; or
- (b) *Dilution* - the number of securities issued by an issuer as consideration for an acquisition compared to those in issue prior to the transaction.

In circumstances where either of the above calculations produces an anomalous result or where the calculations are inappropriate to the sphere of activity of the issuer, the Listing Executive Committee may disregard the calculation and may substitute other relevant indicators of size.

CHAPTER 14

RESTRICTIONS ON PURCHASE AND SUBSCRIPTION

Introduction

- 14.1 This Chapter sets out certain restrictions on a listed issuer in purchasing or redeeming its own listed securities and on the subscription of those securities. The SEM may subject to Rule 2.3 impose further requirements on an issuer in order to ensure that the general obligation of disclosure set out in Rule 11.4 is observed. The issuers are reminded that domestic issuers shall also be subject to the requirements of the Companies Act and the Securities (Purchase of Own Shares) Rules 2008 or any statutory modification, amendment thereof.

Redemption and purchase of equity securities

- 14.2 Any proposed redemption or purchase of equity securities must take place in accordance with the law of the place of incorporation or establishment of the issuer.
- 14.3 Where an issuer proposes to redeem or purchase more than 25 per cent, but less than 100 per cent, of a class of equity securities, it must make a tender offer to all holders of the relevant equity securities.
- 14.4 Where an international issuer proposes to redeem or purchase its equity securities, it must submit a draft Notice of Redemption/Purchase to the SEM for review and approval. Such Notice must contain the following information:
- (a) a statement of the total number and description of equity securities which the issuer proposes to redeem or purchase and the duration of the share-buy-back;
 - (b) a statement by the directors of the reasons for the proposed redemption or purchase of equity securities;
 - (c) a description of the terms and conditions of the tender offer, where appropriate;
 - (d) a statement by the directors as to the proposed source of funds for making the proposed redemption or purchase, which shall be funds legally available for such purpose in accordance with the issuer's constitutive documents, and the laws of the jurisdiction in which the issuer is incorporated or otherwise established;
 - (e) a statement as to any material adverse impact on the working capital or gearing position of the issuer (as compared with the position disclosed in the most recent published audited accounts) in the event that the proposed redemption or purchase would be carried out in full at any time during the proposed redemption or purchase period, or an appropriate negative statement;
 - (f) statement of the name of any directors, and to the best of the knowledge of the directors having made all reasonable enquiries, any associates of the directors and any related parties, who have a present intention to redeem or sell equity securities in the proposed redemption or purchase, or an appropriate negative statement;
 - (g) an undertaking to the SEM by the directors of the issuer that the exercise of the power of the issuer to make redemptions or purchases as set out above is in accordance with the

laws of the jurisdiction in which the issuer is incorporated or otherwise established, and in accordance with these Listing Rules;

- (h) a statement giving details of any redemptions or purchases by the issuer of equity securities made in the previous six months (whether on the SEM or otherwise), giving the date of each purchase and the purchase price per equity security or the highest and lowest prices paid for such purchases, where relevant;
 - (i) a statement that following redemption or purchase, it shall continue to comply with Rule 6.21 (or Rule 6.22 where applicable); and
 - (j) a statement giving the highest and lowest prices to which the relevant equity securities have traded on the SEM during the previous twelve months.
- 14.5 The repurchases shall be conducted in the open market. For the purposes of this Rule, trades for the account of (or an account under the direction of) the investment dealer handling the purchase or trades solicited by that investment dealer, shall not be regarded as being conducted in the open market.
- 14.6 Upon the grant of approval and authorisation of issue of the Notice, the Notice shall be delivered to the SEM, and the issuer shall cause the Notice to be published in at least two daily newspapers of wide circulation, or on its website, within two days of the grant of the approval and authorisation of issue.
- 14.7 The SEM reserves the right to prohibit an issuer from making purchases of equity securities on the SEM (even if that issuer's primary listing is on another securities exchange) if the SEM considers that the issuer has committed a breach of any of the Listing Rules which apply to that issuer. In the event that the SEM does so prohibit, no such dealings shall take place until the prohibition is lifted.

Redemption and purchase of debt securities

- 14.8 Any purchases, early redemptions or cancellations of an issuer's own listed debt securities by or on behalf of the issuer or any other member of the group of which the issuer is part must be notified to the SEM when an aggregate of 10 per cent of the initial nominal amount of the securities has been purchased, redeemed or cancelled and for each 5 per cent in aggregate of the initial nominal amount acquired thereafter. Such notifications must be made as soon as possible and in any event not later than the opening of business on the business day following the calendar day on which the relevant threshold is reached or exceeded. The notification must state the nominal amount of securities acquired, redeemed or cancelled since the last such notification, the nominal amount of the securities remaining outstanding and whether or not the securities acquired are to be cancelled. Once a relevant threshold is reached, no further purchases, redemptions or cancellations may be effected until notification in accordance with this Rule has been made.

Restrictions on preferential treatment of purchase and subscription applications

- 14.9 Normally no more than 10 per cent of any securities being marketed for which listing is sought may be offered on a preferential basis to employees or past employees of the issuer or its subsidiaries or associated companies and their respective dependants or any trust or pension scheme for the benefit of such persons. Any preferential treatment must be approved by the SEM who acts on the recommendations of the Listing Executive Committee, prior to the

marketing. The SEM shall inform the FSC of such preferential treatment scheme. The issuer concerned may be called upon to supply particulars of such employees, past employees and their respective dependants, and the objects, beneficiaries or members of any trust or pension fund, as well as the results of subscription by such persons. The issuer must maintain records of such particulars for a period of not less than twelve months from the date of approval, and make same available for inspection by the SEM during that period.

Restrictions on directors' purchase and subscription

- 14.10 Directors of the issuer and their associates may only subscribe for or purchase any securities for which listing is sought which are being marketed by or on behalf of a new applicant, whether in their own names or through nominees, if the following circumstances are met:
- (a) that no securities are offered to them on a preferential basis, and no preferential treatment is given to them in the application of the securities; and
 - (b) that the prescribed minimum percentage of public shareholders required by Rule 6.21 (or where applicable, Rule 6.22) is achieved.

Restrictions on disposal of shares by controlling shareholders following a new listing

- 14.11 A person or group of persons named in Listing Particulars issued at the time of the issuer's application for listing to be a controlling shareholder of the issuer shall not in the period of six months from the date on which dealings in the securities of the new applicant commence on the SEM, dispose of, and shall procure that the registered holder shall not dispose of, any of those securities of the issuer in respect of which he is or they are shown by the Listing Particulars to be the beneficial owner. For the purpose of this Rule, a person is treated as the beneficial owner of securities if he has the ultimate beneficial ownership or control of the securities, whether through a chain of companies or otherwise.

CHAPTER 15

INTERNATIONAL ISSUERS

Introduction

- 15.1 These Listing Rules apply as much to international issuers as they do to Mauritian issuers, subject to additional requirements, modifications or exceptions set out or referred to in this Chapter. Certain of these modifications apply to all overseas companies. Other modifications depend on whether the overseas company is seeking, or has, a primary or secondary listing in Mauritius. The primary listing will normally be in the country of incorporation or the country of first listing or the country in which a majority of the company's securities are held. An international issuer which is an investment entity should refer to Chapter 16 and an overseas public sector issuer should refer to Chapter 17, as appropriate.

Part A

Modifications to the Listing Rules applicable to all international issuers

Accounts

- 15.2 If the SEM is satisfied that an international issuer's accounts have been prepared to a standard appropriate for a company of international standing and repute, different standards from those referred to in Rule 6.7(c) may be accepted in an accountants' report (see Rule 12.8) and in the Annual Report (see Rule 12.15 (a)). However:
- (a) consolidation practices must be adopted such as to provide a fair presentation of the results and financial position of the group as a whole with adequate disclosure of the basis of presentation;
 - (b) unless otherwise required by law, amounts transferred to reserves must be dealt with as appropriations of profit; and
 - (c) adequate information must be provided in the accounts as to the basis of asset valuation.
- 15.3 Where the accounts of an international issuer have not been prepared in accordance with the requirements of Rules 6.7 and 6.9 (accounts), the international issuer or its advisers must consult the SEM at an early stage to discuss possible derogations from these requirements. The SEM shall notify the FSC forthwith.

Appointment of Authorised Representative

- 15.4 The international issuer must appoint and maintain throughout the period the international issuer's securities are listed on the SEM, the appointment of a person authorised to accept service of process and notices on its behalf in Mauritius. The international issuer must notify the SEM of his appointment and any termination of his appointment and details of:
- (a) his address for service of process and notices;
 - (b) if different, his place of business or his residential address;
 - (c) his business or residential telephone number, as the case may be;

(d) his telex and/or facsimile number; and

(e) any changes in the above particulars.

Registers

15.5 In the case of registered securities, provision must be made for a register of holders to be maintained in Mauritius and, for transfers to be registered locally. Where two or more share registers are maintained it will not be necessary for the Mauritian register to contain particulars of the shares registered on any other register except where the FSC requires such information in the course of an investigation.

Listing Particulars

15.6 The SEM may subject to Rule 2.3 authorise the omission of certain information otherwise required by Chapter 8 to be included in Listing Particulars (see Rules 8.10 and 8.12). In considering whether to authorise an omission of information by an international issuer, the SEM will, in addition to the factors described in Rule 8.11, have regard to:

(a) whether the issuer is listed on an overseas securities exchange and conducts its business and makes disclosure according to internationally accepted standards; and

(b) the nature and extent of the regulation to which the issuer is subject in its country of incorporation or other establishment.

Interim (quarterly) reports

15.7 If an issuer incorporated or otherwise established outside Mauritius publishes an interim (half yearly or quarterly) report in that country, the SEM may authorise it to publish that report (if necessary translated into English) instead of the interim (quarterly) report required by Rules 12.18 to 12.23, as appropriate, provided that the standards are appropriate to companies of international standing and repute.

Pre-emption rights

15.8 An international issuer is not required to comply with Rules 11.12 to 11.15 (pre-emption rights).

Early repayment of debt securities

15.9 The SEM may after consultation with the FSC permit early repayment of debt securities issued by an international issuer, contrary to the provisions of Rules 11.11 and 15.33 (equality of treatment), if such repayment is in accordance with the relevant national law.

English language

15.10 Where an international issuer issues any information in any circular, report or other document required by these Listing Rules to be sent to shareholders, it must issue a version in English. Information notified to the SEM must be in English.

Directors' declaration

- 15.11 The directors' declaration and undertaking required by Rules 11.24 and 11.25 to be given by directors, in the form set out in Appendix 5, must be adjusted to take into account the laws to which the international issuer is subject.
- 15.12 All reference to "directors" in the Listing Rules should be read as references to members of the international issuer's governing body.

Interests in securities

- 15.13 An international issuer must notify the SEM without delay information equivalent to that required under Rules 11.9 and 11.10 (notification of major interests in shares) whenever it becomes aware of such information.

Part B

International issuers with or seeking a primary listing on the SEM

General

- 15.14 Securities of an issuer incorporated outside Mauritius which are not listed either in the issuer's country of incorporation or other establishment or in the country in which a majority of its securities are held, will not be admitted to listing unless the SEM is satisfied that the absence of such a listing is not due to the need to protect investors. The SEM reserves the right, in its absolute discretion, to refuse a listing of securities of an international issuer if it is not in the investors interests to list them.
- 15.15 An international issuer with, or seeking, a primary listing on the SEM must comply with all the Listing Rules relevant to companies as modified by Rules 15.2 to 15.13. Where the Listing Rules refer to an issuer incorporated in Mauritius, the overseas issuer must nevertheless comply so far as:
- (a) the information available to it enables it to do so; and
 - (b) compliance is not contrary to the Law, in the country of its incorporation or other establishment. An international issuer must, on request by the SEM, produce a letter from an independent legal adviser explaining why compliance with a Listing Rule would be contrary to that law.

Part C

International issuers with or seeking a secondary listing on the SEM

General

- 15.16 An international issuer with, or seeking, a secondary listing on the SEM must comply with all the Listing Rules relevant to issuers as modified by Rules 15.2 to 15.13, and Rules 15.17 to 15.23 unless the SEM, after consultation with the relevant foreign regulatory bodies, otherwise agrees, save that it need not comply with Chapters 11, 13 and 14 and the continuing obligations set out in Rules 12.14 to 12.23 (financial continuing obligations). If an international

issuer is in any doubt as to whether, or to what extent, a continuing obligation applies, the SEM must be consulted at an early stage.

Conditions for listing

- 15.17 Rule 6.7(a) (audited accounts for three years) is modified to the extent that the published audited accounts of an international issuer which is a new applicant seeking a secondary listing on the SEM must cover at least three years ended not more than twelve months before the date of the Listing Particulars.
- 15.18 Rule 6.28 (20 per cent limit on warrants and options to subscribe) does not apply to an international issuer with or seeking a secondary listing on the SEM where such a limit does not apply on the issuer's securities exchange of primary listing.
- 15.19 An international issuer with or seeking a secondary listing on the SEM must:
- (a) be in compliance with the requirements of:
 - (i) any overseas securities exchange on which it has securities listed; and
 - (ii) any competent authority or equivalent regulatory body which regulates it; and
 - (b) in the case of a new applicant, submit a letter to the SEM (marked for the attention of the Secretary of the Listing Executive Committee) in accordance with Rule 7.11(n) confirming that it is in compliance with the requirements of the bodies mentioned in (a) above and stating the number and amount of its securities currently listed on any overseas securities exchange.
- 15.20 The requirement in Rule 6.21 that a prescribed percentage of any class of listed securities must at all times be held by the public does not apply.

Listing Particulars - mutual recognition

- 15.21 Where an international issuer has its primary listing on a securities exchange which is recognised by the SEM and whose name appears in Appendix 8 of these Listing Rules, an application document issued by the issuer and approved by its primary securities exchange within the preceding one year may be accepted as Listing Particulars, provided that the issuer is listed on a board which is equivalent to the Official Market and such an issuer will not be required to comply with the requirements of Chapters 8 and 9. The SEM may require additional information to be produced by such an issuer in an annex to the application document as approved by a recognised securities exchange listed in Appendix 8.
- 15.21(A) Where an international issuer has its primary listing on a securities exchange which is recognised by the SEM and whose name appears in Appendix 8A of these Listing Rules, an application document issued by the issuer and approved by its primary securities exchange will be accepted as Listing Particulars, provided that the issuer is listed on a board which is equivalent to the Official Market and such an issuer will not be required to comply with the requirements of Chapters 8 and 9. The SEM may require additional information to be produced by such an issuer in an annex to the application document as approved by a recognised securities exchange listed in Appendix 8A. A fast track listing process will be available for such an issuer.

15.22 Any document recognised under Rule 15.21 must either be in English or be accompanied by a translation into English.

15.23 Any such document which an international issuer seeks to have approved under Rule 15.21 must be submitted to the SEM (marked for the attention of the Secretary of the Listing Executive Committee) in accordance with the provisions of Rules 7.11 and 7.12.

Continuing obligations of international issuers with a secondary listing on the SEM

General obligation of disclosure

15.24 Generally and apart from compliance with all the specific requirements of these Listing Rules, the international issuer shall keep the SEM, members of the international issuer and other holders of its listed securities informed as soon as reasonably practicable of any information relating to the group (including information on any major new developments in the group's sphere of activity which is not public knowledge) which:

(a) is necessary to enable them and the public to appraise the position of the group;

(b) is necessary to avoid the establishment of a false market in its securities; and

(c) might reasonably be expected materially to affect market activity in and the price of its securities.

The attention of international issuers is drawn to Rule 11.6.

15.25 Information that is required to be disseminated pursuant to Rule 15.24 must not be given to a third party before it is notified to the SEM except as permitted in this paragraph. The SEM shall make available to the FSC information to be disseminated pursuant to Rule 15.24, as soon as the relevant information is received from the international issuer. An international issuer may give information in strict confidence to its advisers and to persons with whom it is negotiating with a view to effecting a transaction or raising finance; these persons may include prospective underwriters of an overseas issue of securities, providers of funds or loans or the placees of the balance of a rights issue not taken up by shareholders. In such cases, the international issuer must advise the recipients of such information that it is confidential and that they should not deal in the international issuer's securities before the information has been made available to the public. The securities exchange on which an international issuer has its primary listing does not constitute a third party for the purposes of this Rule.

Changes in capital structure

15.26 The international issuer must notify the SEM without delay of the following information relating to its capital:

(a) any proposed changes in its capital structure, including the structure of its listed debt securities, save that an announcement of a new issue may be delayed while a marketing or underwriting is in progress;

(b) where the issuer has listed debt securities, any new issues of debt securities and in particular any guarantee or security in respect thereof;

- (c) any change in the rights attaching to any class of listed securities (including any change in loan terms or in the rate of interest carried by a debt security) or to any securities into which any listed securities are convertible or exchangeable; and
- (d) any purchase, sale, drawing or redemption by an issuer of its listed securities.

Acquisitions and disposals

- 15.27 An international issuer must subject to the provisions of the Code on Mergers and Takeovers, notify to the SEM details of acquisitions and disposals of assets as required by the securities exchange on which the issuer has its primary listing.

Interests in shares

- 15.28 An international issuer must notify to the SEM whenever it becomes aware that a person or entity has acquired or disposed of a number of shares such that that person or entity's holding of the voting rights in the issuer reaches, exceeds or falls below 10 per cent, 20 per cent, one third, 50 per cent and two thirds of the total voting rights, the following details:

- (a) the proportion of voting rights held;
- (b) the identity of the person or entity; and
- (c) the date on which the issuer became so aware;

and the notification must be made within nine calendar days of the date on which the issuer becomes aware of the acquisition or disposal.

In this Rule, "voting rights" means a right to receive notices of and attend any general meeting of the issuer and to speak and vote in respect of the share held by the shareholder on resolutions placed before the meeting.

Change in directorate

- 15.29 An international issuer must notify the SEM without delay when:

- (a) a new director is appointed; and
- (b) the resignation or removal of a director takes effect.

Dividends

- 15.30 An international issuer must notify the SEM of any decision to pay or make any dividend or other distribution on listed equity securities or any failure to pay any dividend or interest payment on listed securities.

Equality of treatment

- 15.31 An international issuer having listed shares must ensure equality of treatment for all holders of such shares who are in the same position.

An international issuer having listed debt securities must ensure equality of treatment for all holders of such securities of the same class in respect of all rights attaching to such securities.

Prescribed information to shareholders

15.32 An international issuer must in respect of all holders of securities resident in Mauritius:

- (a) inform them of the holding of meetings which they are entitled to attend;
- (b) enable them to exercise their right to vote, where applicable; and
- (c) publish notices or distribute circulars giving information on:
 - (i) the allocation and payment of dividends and interest;
 - (ii) the issue of new securities including arrangements for the allotment, subscription, renunciation, conversion or exchange of the securities; and
 - (iii) redemption or repayment of the securities.

Paying agent and registrar

15.33 Unless an international issuer itself performs the functions of a payment agent and registrar within Mauritius, it must:

- (a) appoint a paying agent in Port Louis or such other place as the SEM may agree; and
- (b) unless the SEM otherwise agrees and save in respect of bearer securities, where either there are 200 or more holders resident in Mauritius or 10 per cent or more of the securities are held by persons resident in Mauritius, a registrar in Mauritius.

Use of airmail

15.34 An international issuer must use airmail or any other method of communication acceptable to the SEM when sending documents to holders of listed securities residing outside its country of incorporation.

Copies of circulars

15.35 An international issuer must send by airmail to the SEM or by any other method of communication acceptable to the SEM, at the same time as they are issued, one copy of any circular, notice, report or other document issued by the company in compliance with the requirements of any other securities exchange on which it has its securities listed, or any competent authority or equivalent regulatory authority which regulates it.

Annual Report

15.36 An international issuer must issue an Annual Report which must:

- (a) be drawn up and independently audited in accordance with the requirements of Rules 6.7(c), 6.7(d) and 6.9 (subject to Rules 15.2 and 15.3);
- (b) be in consolidated form if the issuer has subsidiaries (but the issuer's own accounts must also be published if they contain significant additional information);
- (c) be published within ninety days of its balance sheet date; and

(d) if they do not give a true and fair view of the state of affairs and profit or loss of the group, provide more detailed and additional information (see Rule 15.40).

15.36A An abridged version of the audited annual financial statements must be filed with the SEM and published as soon as it is approved by or on behalf of the board and not later than 90 days after its balance sheet date.

To publish the abridged audited annual financial statements, the issuer must, on the next day after the approval of the abridged audited annual financial statements by or on behalf of the board:

- (i) publish the abridged audited annual financial statements, as a paid advertisement, in at least one daily newspaper with wide circulation, or on its website,
- (ii) publish in two local newspapers not being the same newspaper as in (i) above, or on its website, a notice to indicate that the issuer's abridged audited annual financial statements have been published and can be viewed on the issuer's website or, where an issuer does not have a website, that such financial statements can be viewed at the registered office of the issuer (or at any other place of business as may be designated by the issuer).

The advertisement in paragraph (i) above must also state that copies of the abridged audited annual financial statements are available to the public, free of charge, at the issuer's registered office (or such other place of business as may be designated by the issuer) in Mauritius and the person to whom a request should be addressed to receive a copy of the abridged audited annual financial statements.

Circulation of Annual Report

15.37 An international issuer must circulate to all holders of its listed securities whose addresses are in Mauritius a copy of the Annual Report together with a copy of the auditors' report. If any listed securities are in bearer or quasi-bearer form, the issuer must publish an advertisement in two daily newspapers of wide circulation published in Mauritius, or on its website, stating the time and place in Port Louis, or such other place as the SEM may determine, at which copies of such report and auditors' report thereon may be obtained without charge.

Auditors' report

15.38 The report of the auditor must be annexed to all copies of the Annual Report and indicate whether in his opinion the accounts give a true and fair view save as provided for in Rule 15.39:

- (a) in the case of the issuer's accounts, of the state of its affairs at the end of the financial position for the financial year; and
- (b) where consolidated accounts are required, of the state of affairs at the end of the financial year and profit or loss and changes in the financial position of the issuer and its subsidiaries for the financial year.

- 15.39 An international issuer which is not required to draw up its accounts so as to give a true and fair view must consult the SEM to establish whether the standards to which they are drawn up are appropriate for companies of international standing and repute.

Contents of Annual Report

- 15.40 The Annual Report must be prepared in accordance with standards appropriate for companies of international standing and repute and must also include particulars of the interest in its equity share capital of each director and controlling shareholder as required by the company's country of incorporation.

Interim (quarterly) reports, where applicable

- 15.41 An international issuer which has listed equity securities must prepare interim (quarterly) reports, on a group basis where relevant, on its activities.
- 15.42 Where the interim (quarterly) report is not prepared on a basis consistent with that of the Annual Report, the interim (quarterly) report must include a statement that, in the opinion of the international issuer's directors, the interim (quarterly) report enables investors to make an informed assessment of the results and activities of the group for the period.
- 15.43 The interim (quarterly) report must be published within forty-five days of the end of the period to which it relates.
- 15.44 An international issuer must on the next day after the approval of the interim (quarterly) report by or on behalf of the board:
- (i) publish the interim (quarterly) report, as a paid advertisement, in at least one daily newspaper with wide circulation, or on its website,
 - (ii) publish in two local newspapers not being the same newspaper as in (i) above, or on its website, a notice to indicate that the issuer's interim (quarterly) report has been published and can be viewed on the issuer's website or, where an issuer does not have a website, that such report can be viewed at the registered office of the issuer (or at any other place of business as may be designated by the issuer).

The advertisement in paragraph (i) above must also state that copies of the interim (quarterly) report are available to the public, free of charge, at an address in Mauritius and the person to whom a request should be addressed to receive a copy of the interim (quarterly) reports.

- 15.45 A soft (by email) copy of the report must also be sent to the SEM without delay.
- 15.46 The interim (quarterly) report must consist of figures and an explanatory statement relating to the group's activities and profit or loss during the relevant period. If a change in the financial year is proposed, the SEM must be consulted as to the period or periods to be covered by the interim (quarterly) report.
- 15.47 Where the figures in the interim (quarterly) report have not been audited, a statement to that effect must be included. Where they have been audited, the report of the auditors, including any qualifications, must be reproduced in full.

- 15.48 The interim (quarterly) report must contain:
- (a) an explanatory statement including any significant information enabling investors to make an informed assessment of the trend of the company's or group's activities and profit or loss;
 - (b) an indication of any special factor which has influenced those activities and the profit or loss during that period in question;
 - (c) enough information to enable a comparison to be made with the corresponding period in the preceding financial year; and
 - (d) so far as possible, a reference to the group's prospects in the current financial year.
- 15.49 The SEM may subject to Rule 2.3 authorise the omission from an interim (quarterly) report of specified items of information if it considers that disclosure of such information would be contrary to the investors interests or seriously detrimental to the international issuer, provided that such omission would not be likely to mislead the public with regard to facts and circumstances, knowledge of which is essential for the assessment of the securities in question. The issuer or its representatives will be responsible for the correctness and relevance of the facts on which any application for such exemption is based.

Further allotment of securities

- 15.50 When further securities are allotted of the same class as securities already listed, application for listing such further securities must be made in compliance with the Act either not more than one year after their issue or when they become freely negotiable.

Annual fees

- 15.51 An international issuer must pay the annual fee for listing in accordance with the SEM's fees as set out in Appendix 7, as soon as such payment becomes due.

General application

- 15.52 For the purpose of part C, the SEM may allow the requirements of the primary exchange to take precedence in relation to an issuer with a secondary listing on the SEM with the prior approval of the SEM.
- 15.53 The issuer may, with the approval of the SEM, be dispensed of any specific provision under part C

CHAPTER 16

INVESTMENT ENTITIES

Introduction

16.1 This Chapter sets out the requirements for the listing of the securities of investment entities, which include investment companies, unit trusts, closed-end funds, Global schemes, professional collective investment schemes, specialised collective investment schemes, expert funds and other collective investment schemes as defined in the Act and the Securities (Collective Investment Schemes and Closed-end Funds) Regulations 2008. CHAPTER 18

SPECIALIST COMPANIES, SPECIALIST DEBT INSTRUMENTS AND OTHER SPECIALIST SECURITIES

Introduction

- 18.1 This Chapter sets out the requirements for the listing of the securities of specialist companies and specialist debt instruments, including but not limited to corporations holding a Global Business Licence, debt securities targeting special categories of investors and other securities or instruments that may be acceptable to the SEM. Entities seeking a listing or admitted to listing under Chapter 18 must comply with all the provisions of the Listing Rules except as may be provided otherwise in the present Chapter. Where application for listing is made in respect of securities which are not specifically addressed in this Chapter, the SEM should be consulted at an early stage.
- 18.2 Applicants for listing are reminded that compliance with the Listing Rules may not in itself ensure an applicant's suitability for listing and that the SEM retains a discretion to accept or reject applications. Before granting a listing, the SEM should be satisfied that the issuer and its business are suitable to allow the listing of its securities and that there is an adequate and open market in the securities for which listing is sought. Prospective issuers (including listed issuers) or their sponsors (where applicable) are therefore encouraged to contact the Listing Division of the SEM to seek informal and confidential guidance as to the eligibility of a proposed application for listing at the earliest possible opportunity.
- 18.3 Issuers are reminded that these requirements are not exhaustive and that the SEM may impose additional requirements in any particular case. Where indicated in the Rules, the FSC is to be informed of the particular decision made by the SEM.
- 18.4 The SEM may make the admission of securities to listing subject to any special condition which it considers appropriate in the interests of protecting investors and of which the SEM has explicitly informed the applicant.

PART A – Listing of corporations holding a Global Business Licence (other than those authorised under the Securities (Collective Investment Schemes and Closed-end Funds) Regulations 2008)

- 18.5 This Part sets out the requirements for the listing of corporations holding a Global Business Licence on the SEM and excludes those investment entities which are authorised under the Securities (Collective Investment Schemes and Closed-end funds) Regulations 2008. Corporations holding a Global Business Licence operate under a specific legal regime and are subject to distinct tax, legal and regulatory requirements. A listing on the SEM of a corporation holding a Global Business Licence constitutes an important way of demonstrating substance and added-value while reinforcing the corporation's connection and tie with the Mauritian jurisdiction. The Exchange platform offers a unique opportunity for these types of entities to raise capital for future funding with a view to accompanying their growth initiatives and also for the trading of their securities in a secure and transparent environment. The listing of a corporation holding a Global Business Licence on the SEM also enhances the company's visibility, credibility and profile for the benefit of its investors and other stakeholders.

Conditions for Listing

18.6 A corporation holding a Global Business Licence must comply with the conditions for listing, as set out in Chapter 6, with the following modifications and additional conditions except as provided under The Financial Services Act 2007 and/ or any regulations or rules made thereunder:

- (a) if the corporation is not able to satisfy fully the conditions set out in Rule 6.7(a) (audited accounts for three years), Rule 6.10 (nature and duration of business activities) and Rule 6.11 (continuity of management), it must:
 - (i) satisfy the SEM that its directors have sufficient and satisfactory experience in the management of global businesses; and
 - (ii) submit to the SEM a sound business plan, certified by an independent financial advisor accredited pursuant to Appendix 9 of the Listing Rules and acceptable to the SEM, covering at least 3 years and demonstrating clearly the sustained viability of the applicant. The applicant shall also disclose major risk factors.

Basic parameters for securities that track or reference an index

18.122 If the securities to be listed will track or reference an index it must be issued over an index or index product acceptable to the SEM in accordance with Rules 18.123 to 18.133 relating

to index disclosures and acceptable index calculators.

Index disclosures and acceptable index calculators

General

- 18.123 Issuers wishing to list any instruments where an index is referenced must ensure that the relevant rules comply with Listing Rule 18.127 and index calculators must comply with Listing Rules 18.128 to 18.132.
- 18.124 The SEM will publish a list of acceptable index calculators on its website. Such acceptable index calculators will not be required to obtain approval on an ongoing basis, subject to the provisions of Rule 18.132.
- 18.125 Issuers must submit an application to the SEM illustrating full compliance with Rules 18.127 to 18.132 prior to the listing of any instrument with an index as underlying.
- 18.126 Issuers will not be permitted to make use of an index without a valid index license agreement obtained from the index sponsor.

Transparency

- 18.127 The construction of the index, including the treatment of various corporate actions (where applicable), must be clearly documented in a ground rule summary document and this document must be publicly available on the issuer's website to ensure full transparency. The comprehensive ground rules document must ensure that the following principles are adequately observed:
- (a) the basic constitution of the index and the treatment of all known corporate actions (where applicable) must be clearly disclosed to ensure that such corporate actions are dealt with timeously, objectively and consistently;
 - (b) details of index reviews and their intervals must be clearly disclosed;
 - (c) the ground rules must ensure that the index is free of any type of manipulation by the index calculator or the issuer;
 - (d) details on the process involved when there are changes to the index, including but not limited to any corporate action (where applicable) and how these changes will be communicated to investors;
 - (e) index methodology must be clear and give details of the calculation method, constitution, index rules, index review, changes to the index and the consequences of any changes in the index methodology. This must be in plain English so that it is easily understandable;
 - (f) the use of sole discretion by the index calculator should be limited to avoid any unnecessary movement in the market. Advance communication by the index calculator with the market is imperative;
 - (g) the mathematics applied in the index must match the written description of the index;

- (h) the index must be replicable as far as practically possible, i.e. investors must achieve the same returns as the index in the open market;
- (i) any changes pertaining to the index must be published publicly on the issuer’s website and in a timely manner, via a notice, for index users to be able to replicate the index as far as practically possible, as must corrected index data in the event of erroneous distribution of data ;
- (j) a clear policy should exist in terms of corrections e.g. how will these be published and how will these be corrected;
- (k) all instruments in the index must have a reliable and discoverable price that is published;
- (l) material changes to the index methodology must be communicated to the SEM, and communicated to the market;
- (m) a brief explanation, sufficient for an investor to understand how an index was developed, including, at a minimum, the size and liquidity of the market being assessed namely the number and volume of transactions submitted, the range and average volume and range and average of price, and indicative percentages of each type of market data that have been considered in a benchmark determination. Terms referring to the pricing methodology must be included “transaction-based”, “spread-based” or “interpolated/extrapolated”; and
- (n) a brief explanation of the extent to which and the basis upon which expert judgment, if any, was used in establishing an index.

Experience

18.128 The index calculator must satisfy the SEM that it has adequate experience in calculating indices. The SEM will have regard to the following principles in considering whether an index calculator has the required experience:

- (a) the index calculator will be expected to have sufficient staff with considerable relevant experience. Experience could include the calculation of in-house benchmarks, custom indices or having worked with or been employed by an acceptable index calculator for a considerable period; and
- (b) the index calculator must prove that it has enough knowledge and experience in dealing with the impact of corporate actions (where applicable) on indices. This will be achieved by displaying a track record of handling corporate actions (where applicable) that it has dealt with.

Independence

18.129 An index calculator must not act as an index calculator to any organisation or fund of which it is not independent except with the specific approval of the SEM. The index calculator must be able to demonstrate to the SEM that it can act in a neutral and objective manner without any undue influence from the issuer or its associates. The SEM will have regard to the following

principles in considering whether to allow an index calculator to act for an organisation or fund from which it is not deemed to be independent:

- (a) the department or area that is responsible for calculating the index must operate separately from the issuer of the instrument;
- (b) the department responsible for calculating the index must not have any reporting lines into the department responsible for issuing the instrument;
- (c) the compliance officer of the organisation must confirm in writing that the two areas are sufficiently independent and separated to ensure that the one is not influenced at all by the other;
- (d) a policy must be in place stipulating how matters will be dealt with that are not covered in the ground rules and this policy must ensure that decisions are taken without any consideration to the issuer of the instrument and at all times in the best interest of investors; and
- (e) disclosure about the relationship must be disclosed in the listing documentation together with details on the index calculator's ability to act independently.

Continuity

18.130 Arrangements must be in place to ensure that a sufficient number of experienced staff are available to properly discharge the index calculator's responsibilities at all times. If the index calculator does not have the necessary staff to fulfil this obligation, it must have alternative arrangements in place to ensure continuity at all times. The SEM will have regard to the following guidelines in considering whether the alternative arrangements are acceptable:

- (a) The index calculator must have an agreement in place with another index provider that will take over its responsibilities in the event of the index calculator not being able to discharge its responsibilities for whatever reason; and
- (b) The issuer must make arrangements, subject to the approval by the SEM, to ensure the proper discharge of the other index calculator's responsibilities at all times.

Technology

18.131 The index calculator must demonstrate to the SEM that it has a robust index calculation system in place. The SEM will have regard to the following principles in considering whether the system is acceptable:

- (a) a process must be in place to prevent manipulation of the index system. Confirmation of this must be provided to the SEM and the issuer of the instrument must confirm that it is satisfied with this;
- (b) the system must have regularly tested back-ups; and
- (c) the technology being used must ensure continuity with proper automation and data feeds in the event of a system failure.

The SEM would encourage potential index calculators to submit all the relevant documentation evidencing compliance with the above principles and guidelines early in the process in order to ensure

that there are no unnecessary delays in the approval of a new listing.

Continuing Obligations

18.132 The index calculator is approved based on the information presented to the SEM with the initial application and in order to maintain standards on a continuing basis the issuer of any securities after due and careful inquiry must notify the SEM of any significant changes including:

- (a) any changes to its staff or other external service provider responsible for calculating the index;
- (b) any changes to its technology; and
- (c) any changes to its relationship between the index calculator and the issuer of securities and any of its associates.

Other

18.133 The SEM may allow the listing of securities which track or reference the performance of a specified security, index, or other assets, which include, but are not limited to, indices, commodities, currencies or any other asset acceptable to the SEM. Issuers must ensure that the SEM is consulted well in advance regarding the acceptability of a particular security prior to the proposed issue date.

Registrar and transfer agent

18.134 The issuer must appoint a registrar and transfer agent. Where the registrar and transfer agent is located in a foreign jurisdiction, the SEM may require the issuer to appoint a local representative to perform some or all of the functions of the registrar and transfer agent in Mauritius. The SEM may require the issuer to appoint a registrar and transfer agent in Mauritius where it deems appropriate after consultation with CDS. Any change in registrar and transfer agent must be notified to the SEM without delay.

CHAPTER 19

DEPOSITARY RECEIPTS

Introduction

This chapter sets out the conditions for listing and the information which is required to be included in the Listing Particulars for depositary receipts, including the requirements for unsponsored issues, which are covered in the section entitled 'Modifications, exceptions, and additions – unsponsored issues' and also issues of depositary receipts by overseas public sector issuers. All applicants for listing of depositary receipts must also comply, unless otherwise agreed by the SEM, with the provisions of Chapters 1, 2, 3 and 10 of the Listing Rules (in the case of unsponsored depositary receipts, substituting "applicant" for "issuer" in relation to the obligations specified, where applicable).

Definitions

The following definitions apply:

- (a) "depositary receipts" means instruments which confer a contractual right (other than an option) to acquire securities otherwise than by subscription and which, because of their nature, are normally bought and traded by a limited number of investors who are particularly knowledgeable in investment matters or other specialist instruments representing securities.
- (b) "issuer" means the issuer of the securities represented by the depositary receipts.
- (c) "securities" means the securities represented by the depositary receipts.
- (d) "sponsored issue" means an issue of depositary receipts which is undertaken by the issuer of the underlying securities represented by depositary receipts.
- (e) "unsponsored issue" means an issue of depositary receipts which is undertaken without the specific agreement or support of the issuer of the underlying securities represented by the depositary receipts.

Conditions for Listing

Issuer

- 19.1 The issuer must be duly incorporated or otherwise validly established according to the relevant laws of the place of incorporation or establishment, and be operating in conformity with those laws and its constitution. When an application is made to list depositary receipts, the issuer for the purposes of these listing rules will be the issuer of the relevant underlying securities which must be a foreign entity acceptable to the SEM and whose securities are not already listed on the SEM.

Financial information

- 19.2 Unless where the issuer is an overseas public sector issuer or as may otherwise be authorised by the SEM, the issuer must have published or filed annual financial statements which:
- a) are in respect of a period ended not more than eighteen months before the date of the Listing Particulars and which cover the last three financial years;

- b) have been prepared in accordance with International Financial Reporting Standards or any other applicable standards under the issuer's national laws; and
- c) have been independently audited in accordance with International Standards on Auditing.

19.3 In certain exceptional circumstances, the SEM may accept financial statements covering a shorter period.

Nature and duration of business activities

19.4 Unless where the issuer is an overseas public sector issuer or as may otherwise be authorised by the SEM, the issuer must be carrying on as its main activity, either by itself or through one or more of its subsidiary undertakings, an independent business which is revenue earning and must have done so for at least the period covered by the financial statements required by the Rule 19.2(a).

19.5 Except for an overseas public sector issuer acceptable to the SEM, the directors of the issuer must collectively have appropriate expertise and experience for the management of its business.

Validity

19.6 The underlying securities must:

- a) conform with the law of the issuer's place of incorporation;
- b) be duly authorised in accordance with the requirements of the issuer's constitution; and
- c) have any necessary statutory or other consents.

19.7 The depositary receipts for which listing is sought must:

- a) conform with the law of the depositary's place of incorporation;
- b) be duly authorised in accordance with the requirements of the depositary's constitution;
- c) have the necessary statutory or other consents; and
- d) be valid under the law which is expressed to govern the document giving effect to the depositary receipts.

Transferability

19.8 The depositary receipts for which listing is sought must be freely transferable.

Market capitalisation

- 19.9 Except where depositary receipts of the same class are already listed, the expected aggregate market value of all depositary receipts to be listed must be at least MRU 10 million. The SEM may admit to listing depositary receipts of lower value provided it is satisfied that there will be an adequate market for the depositary receipts concerned.

Sufficiently liquid market

- 19.10 Unless otherwise determined by the SEM, where an application for listing has been made for a class of depositary receipts, twenty five per cent of that class must be in the hands of the public at all times. For the purposes of this rule, “the public” and “public hands” shall have the same meaning as in Chapter 1.
- 19.11 The SEM may accept a lower market capitalisation or percentage in public hands if it determines that the market in the depositary receipts will still be sufficiently liquid and will still operate properly.
- 19.12 If the percentage of a class of depositary receipts in the hands of the public falls below twenty five per cent or such lower percentage as may have been agreed by the SEM, the SEM may suspend or withdraw the depositary receipts from the Official List. The SEM will allow a reasonable time to restore the percentage, unless this is precluded by the need to maintain the smooth operation of the market or to protect investors.

Whole class to be listed

- 19.13 Where an application for listing is made for any class of depositary receipts:
- a) if none of the depositary receipts of that class are already listed, the application must relate to the depositary receipts of that class, whether already issued or proposed to be issued; and
 - b) if some of the depositary receipts of that class are already listed, the application must relate to all further depositary receipts of that class.

Clearing and settlement

- 19.14 The issuer or where applicable, the depositary, must ensure that appropriate arrangements are made with the Central Depository & Settlement Co. Ltd for the clearing and settlement of transactions in the depositary receipts in accordance with Section 3(3) of the Securities (Central Depository, Clearing and Settlement) Act 1996.

The depositary

- 19.15 The depositary, including any replacement depositary, must be a suitably authorised and regulated financial institution acceptable to the SEM and must be duly incorporated or otherwise validly established according to the relevant laws of the place of incorporation or establishment, and be operating in conformity with those laws and its constitution. Unless the depositary itself performs the functions of a payment agent and registrar within Mauritius, it must appoint a paying agent and registrar in Mauritius.
- 19.16 The depositary must hold on trust (or under equivalent arrangements) for the sole benefit of the holders of the depositary receipts, all rights pertaining to the securities and all money and benefits that it may receive in respect of them, subject only to payment of the remuneration

and proper expenses of the depositary. Subject as hereinafter provided in Rule 19.17, none of the securities nor any such rights, money or benefits may be, or be liable to be treated as assets of the depositary under the law (including insolvency law) of the place of its incorporation, the place of incorporation of the issuer or the place of administration of the trust or other arrangement under which the securities are held.

- 19.17 The SEM will permit the depositary to receive cash distributions or other amounts from the issuer without segregating such distributions from other cash amounts held by the depositary, provided that the documentation constituting the depositary receipts provides that the depositary will distribute such amounts to investors as soon as practicable.

Obligations of the depositary

- 19.18 The depositary receipts must not impose obligations on the depositary other than to the extent necessary for the protection of rights to and the transmission of entitlements of the underlying securities.

Conditions relating to the Underlying Securities

- 19.19 The securities which the depositary receipts represent must be fully paid and free from all liens and any restriction on the right of transfer to the depositary.

Legal opinions

- 19.20 Unless the issuer is an overseas public sector issuer, the issuer must provide to the SEM a satisfactory legal opinion from suitable counsel practising in the issuer's country of incorporation, in a form satisfactory to the SEM, which includes an opinion that at the time of the listing the issuer has the capacity to apply to list depositary receipts and that any issue of underlying securities and the establishment of the depositary receipt facility is in compliance with its constitution and all applicable local laws and regulations and any listing rules and that all actions, consents, registrations, and filings to be taken, obtained or made by the issuer under such laws have been taken or obtained. MINERAL COMPANIES

Introduction

20.1 Mineral, oil and natural gas companies (collectively referred to in this chapter as Mineral Companies) seeking a listing, or admitted to listing under Chapter 20, must comply with all the provisions of the Listing Rules, subject to additional requirements, modifications or exceptions set out, or referred to, in this Chapter.

A mineral company which is an international issuer must comply with the relevant provisions of Chapter 15 of the Listing Rules, subject to the additional requirements or conditions contained in this Chapter.

Companies that are involved only in exploration for mineral resources and are not undertaking or proposing to undertake their extraction on a commercial scale are not suitable for listing.

Definitions

20.2 The following definitions apply:

- (a) "CIMVAL" is the Standards and Guidelines for Valuation of Mineral Properties endorsed by the Canadian Institute of Mining, Metallurgy and Petroleum, February 2003 (final version) as amended from time to time.
- (b) "extraction" includes mining, production, quarrying or similar activities, and the reworking of mine tailings or waste dumps;
- (c) "indicated mineral resource" is that portion of a mineral resource for which quantity and quality can only be estimated with a lower degree of certainty than for a measured mineral resource because the sites used for inspection, sampling and measurement are too widely or inappropriately spaced to enable the material or its continuity to be defined, or its grade throughout to be established.
- (d) "JORC Code" is the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (2004 edition), as published by the Joint Ore Reserves Committee, as amended from time to time.
- (e) "measured mineral resource" is that portion of a mineral resource for which tonnage or volume can be calculated from outcrops, pits, trenches, drill-holes or mine workings, supported where appropriate by other exploration techniques. The sites used for inspection, sampling and measurement must be so spaced that the geological character, continuity, grades and nature of the material are so well defined that the physical character, size, shape, quality and mineral content will be established with a high degree of certainty; and
- (f) "Mineral Company" is a company or group of companies, of which a principal activity is, or is planned to be, the extraction of mineral resources (which may or may not include exploration for mineral resources). In determining what constitutes a principal activity, the SEM will have regard to all circumstances, including whether the activity

represents 25% or more of gross revenue, operating expenses, net assets or market capitalisation of the company or group of companies.

- (g) "NI 43-101", also referred to as National Instrument 43-101, is the (Canadian) Standards of Disclosure for Mineral Projects, including Companion Policy 43-101 as amended from time to time.
- (h) "probable reserves" mean:
 - (i) with respect to Mineral Companies primarily involved in the extraction of oil and gas resources, those reserves which are not yet "proven" but which, on the available evidence and taking into account technical and economic factors, have a better than 50% chance of being produced; and
 - (ii) with respect to Mineral Companies other than those primarily involved in the extraction of oil and gas resources, those measured and/or indicated mineral resources (see (c) and (e) above), which are not yet "proven" but of which detailed technical and economic studies have demonstrated that extraction can be justified at the time of the determination and under specified economic conditions;
- (i) "proven reserves" mean:
 - (i) with respect to Mineral Companies primarily involved in the extraction of oil and gas resources, those reserves which, on the available evidence and taking into account technical and economic factors, have a better than 90% chance of being produced; and
 - (ii) with respect to Mineral Companies other than those primarily involved in the extraction of oil and gas resources, those measured mineral resources (see (e) above) of which detailed technical and economic studies have demonstrated that extraction can be justified at the time of the determination, and under specified economic conditions;
- (j) "Reporting Standard" is a recognised standard acceptable to the SEM, including, but not limited to:
 - (i) The JORC Code, NI 43-101, and The SAMREC Code, with regards to mineral Resources and Reserves;
 - (ii) CIMVAL, the SAMVAL Code, and the VALMIN Code, with regard to valuations.
- (k) "SAMREC Code" is the South African Code for the Reporting of Exploration Results, Mineral Resources and Mineral Reserves (2007 edition) as amended from time to time.
- (l) "SAMVAL Code" is the South African Code for the Reporting of Mineral Asset Valuation (2008 edition) as amended from time to time.
- (m) "VALMIN Code" is the Code for the Technical Assessment and Valuation of Mineral and Petroleum Assets and Securities for Independent Expert Reports (2005 edition),

as prepared by the VALMIN Committee, a joint committee of The Australasian Institute of Mining and Metallurgy, the Australian Institute of Geoscientists and the Mineral Industry Consultants Association as amended from time to time.

Confidentiality

20.14 If a Mineral Company wishes to exclude from the Listing Particulars or a Circular, or from a Competent Person's Report included in them, information which is confidential for legal or other reasons, it must allow an independent person, mutually approved, to verify to the SEM in confidence the importance of such information so that the SEM can assess whether investors have all relevant information.

Continuing Obligations

20.15 Mineral Companies admitted to listing on the SEM must comply with Chapters 11, 12, 13 and 14 of the Listing Rules, as modified by the provisions of the present Chapter, unless otherwise determined by the SEM, in which case the SEM may impose alternative and/or additional requirements.

20.16 In addition to the specific requirements under Chapter 12, a Mineral Company must include in its Annual Reports, Abridged Audited Financial Statements or Interim (Quarterly) Reports, a summary of its exploration, development and mining production activities, as well as a summary of the expenditure incurred on these activities during the period under review. If there has been no exploration, development or production activity, that fact must be stated. A listed issuer that publicly discloses details of Resources and/or Reserves must give an update of those Resources and/or Reserves in its Annual report, in accordance with Listing Rule 20.17.

- 20.17 Any data presented on Resources and/or Reserves must be presented in tabular form, in a manner readily understandable to a non-technical person. It must comply with Listing Rules 20.3 and 20.4, with respect to compliance with Reporting Standards, and must at least be substantiated by the issuer's internal experts. All assumptions must be clearly disclosed and statements should include an estimate of volume, tonnage and grades.

Notifiable Transactions

- 20.18 The provisions of Chapter 13 of the Listing Rules, insofar as they relate to disclosable, substantial and related party transactions, apply to all Mineral Companies.
- 20.19 Notwithstanding Listing Rule 20.18, a Mineral Company undertaking any transaction involving significant mineral resources must consider the Reserves Ratio, defined below, in order to assess the size of the transaction relative to the size of the company proposing to undertake it, and determine whether the transaction is a notifiable transaction as per Chapter 13.

Reserves ratio: The volume or amount of the aggregate proven and probable reserves acquired or disposed of, divided by the volume of the aggregate proven and probable reserves of the acquiring or disposing company.

Notwithstanding the fact that the transaction may already qualify as a notifiable transaction pursuant to Listing Rule 20.18, where the Reserves ratio is 15 per cent or more, but less than 50 per cent, the transaction would be classified as a disclosable transaction under Chapter 13 of the Listing Rules. Similarly, where the Reserves ratio is 50 per cent or more, the transaction would be classified as a substantial transaction under Chapter 13.

(In the case of mineral resources which are not directly comparable, the SEM may permit the use of valuations instead of volumes or amounts.)

- 20.20 Where a transaction is either a disclosable transaction or a substantial transaction by virtue of Listing Rule 20.19 only, the issuer must comply with the respective requirements as per Listing Rules 13.15 to 13.20, whichever may be relevant.
- 20.21 Where a Mineral Company proposes to enter into a related party transaction, it must comply with the requirements of Chapter 13 pertaining to related party transactions (See Listing Rules 13.21 to 13.32.)
- 20.22 Where a transaction by a Mineral Company is either a disclosable transaction or a substantial transaction by virtue of Listing Rule 20.19 or Listing Rule 20.20, or it is a related party transaction pursuant to Listing Rule 20.21, the Circular issued by the Mineral Company must, in addition to meeting the requirements of Chapter 13, contain the following:
- (a) a Competent Person's Report as described in paragraphs 20.12 and 20.13;
 - (b) a glossary of the terms used in presenting information in the Circular; and
 - (c) a statement as to the existence of reserves which must be substantiated by the Competent Person and supported by the actual details of drilling results, analyses or other evidence.

APPENDIX 4

ARTICLES OF ASSOCIATION/CONSTITUTION

The articles of association or equivalent document of any issuer seeking admission to the Official List, other than an issuer whose debt securities only are to be listed, shall provide:

As regards transfer and registration

1. That transfers and other documents relating to or affecting the title to any shares must be registered without payment of any fee.
2. That fully paid shares shall be free from any restriction on the right of transfer and from all lien. Partly paid shares which are listed may be subject to restrictions provided that the restrictions are not such as to prevent dealings in the shares from taking place on an open and proper basis.
3. That where power is taken to limit the number of shareholders in a joint account, such limit shall not prevent the registration of a maximum of four persons.

As regards definitive certificates

4. That all certificates for capital shall be under seal, or a facsimile thereof, which shall only be affixed with the authority of the directors.
5. Where power is taken to issue share warrants to bearer, that no new share warrant shall be issued to replace one that has been lost, unless the issuer is satisfied beyond reasonable doubt that the original has been destroyed.

As regards dividends

6. That any amount paid up in advance of calls on any share may carry interest but shall not entitle the holder of the share to participate in respect thereof in a dividend subsequently declared.
7. Where power is taken to forfeit unclaimed dividends, that power shall not be exercised until five years or more after the date of declaration of the dividend.

As regards directors

8. That, subject to such exceptions specified in the articles of association/Constitution as the SEM may approve, a director shall not vote on any contract or arrangement or any other proposal in which he or his associates have a material interest nor shall he be counted in the quorum present at the meeting (Note 1).
9. That any person appointed by the directors to fill a casual vacancy on or as an addition to the board shall hold office only until the next following annual meeting of shareholders of the issuer, and shall then be eligible for re-election.
10. That, where not otherwise provided by law, the issuer in the meeting of shareholders shall have power by resolution to remove any director, managing director or other executive director before the expiry of his period of office subject, however, to the right of any such director to claim damages under any contract.

11. That the minimum required period of notice to the issuer of the intention to propose a person for election as a director, and the required minimum period of notice to the issuer by such person of his willingness to be elected, will be at least seven days and that the latest date for lodgement of such notices shall be not more than seven days prior to the date of the meeting appointed for such election.

As regards accounts

12. That a printed copy of the issuer's Annual Report (including the balance sheet and every document required by law to be annexed thereto and profit and loss account or income and expenditure account) shall, at least 14 days before the date of the meeting of shareholders, be delivered or sent by post to the registered address of every member.

As regards rights

13. That adequate voting rights will, in appropriate circumstances, be secured to preference shareholders.
14. That the quorum for a separate class meeting (other than an adjourned meeting) to consider a variation of the rights of any class of shares shall be the holders of at least one third of the issued shares of the class.

As regards notices

15. That where power is taken to give notice by advertisement, that such advertisement shall be published in at least two daily newspapers of wide circulation, or on the issuer's website.
16. That an international issuer whose primary listing is or is to be on the SEM shall give sufficient notice to enable members, whose registered addresses are in Mauritius, to exercise their rights or comply with the terms of the notice. If the international issuer's primary listing is on another securities exchange, the SEM will normally be satisfied with an undertaking by the issuer to do so and will not normally request the issuer to change its articles/Constitution to comply with this paragraph where it would be unreasonable to do so.
17. That there is no prohibition on the giving of notice to members whose registered address is outside Mauritius.

As regards redeemable shares

18. That where the issuer has reserved the power to purchase listed redeemable shares:
 - (a) purchases not made through the market or by tender shall be limited to a maximum price; and
 - (b) if purchases are by tender, tenders must be available to all shareholders alike.

As regards capital structure

19. That the structure of the share capital of the issuer be stated and where such capital consists of more than one class of share, particulars of the order in which the various classes shall rank for any distribution by way of dividend and on a return of capital be given.

As regards non-voting or restricted voting shares

20. That, where the capital of the issuer includes shares which do not carry voting rights, the words "non-voting" shall appear in the designation of such shares.
21. That, where the equity capital includes shares with different voting rights, the designation of each class of shares, other than those with the most favourable voting rights, shall include the words "restricted voting" or "limited voting".

As regard proxies

22. That where provision is made in the articles/Constitution as to the form of proxy, this must not preclude the use of a two-way proxy form.
23. That a corporation may execute a form of proxy under the hand of a duly authorised officer.

As regards untraceable members

24. That where power is taken to cease sending dividend warrants by post, if such warrants have been left uncashed, it will not be exercised until such warrants have been left so uncashed on two consecutive occasions. However, such power may be exercised after the first occasion on which such a warrant is returned undelivered and reasonable enquiries have failed to establish any new address of the registered holder.
25. That where power is taken to sell the shares of a member who is untraceable, the power may not be exercised unless:
 - (a) during a period of 12 years at least three dividends in respect of the shares in question have become payable and no dividend during that period has been claimed; and
 - (b) on expiry of the 12 years the issuer gives notice of its intention to sell the shares by way of an advertisement published in at least two widely circulated daily newspapers and notifies the SEM of such intention.

As regards the alteration of the articles/Constitution

26. That where the issuer (save an international issuer) has been admitted to the Official List, no amendment or addition to the articles/Constitution shall be made unless prior written approval has been sought and obtained from the SEM for such deletion, amendment or addition.

Note 1

Articles of association/Constitution will be acceptable to the SEM if they provide exceptions from the requirements of paragraph 8 of this Appendix in respect of the following matters:

- (1) *the giving of any security or indemnity either:*
 - (a) *to the director in respect of money lent or obligations incurred or undertaken by him at the request of or for the benefit of the issuer or any of its subsidiaries; or*

- (b) *to a third party in respect of a debt or obligation of the issuer or any of its subsidiaries for which the director has himself assumed responsibility in whole or in part and whether alone or jointly under a guarantee or indemnity or by the giving of security;*
- (2) *any proposal concerning an offer of shares or debentures or other securities of or by the issuer or any other company which the issuer may promote or be interested in for subscription or purchase where the director is or is to be interested as a participant in the underwriting or sub-underwriting of the offer;*
- (3) *any proposal concerning any other company in which the director is interested only, whether directly or indirectly, as an officer or executive or shareholder or in which the director is beneficially interested in shares of that company, provided that he, together with any of his associates, is not beneficially interested in five per cent or more of the issued shares of any class of such company (or of any third company through which his interest is derived) or of the voting rights;*

For the purposes of Section 3 above, the definition of “associates” under Part I of the Schedule of the Act shall apply.

- (4) *any proposal or arrangement concerning the benefit of employees of the issuer or its subsidiaries including:*
 - (a) *the adoption, modification or operation of any employees' share scheme or any share incentive or share option scheme under which he may benefit; or*
 - (b) *the adoption, modification or operation of a pension fund or retirement, death or disability benefits scheme which relates both to directors and employees of the issuer or any of its subsidiaries and does not provide in respect of any director as such any privilege or advantage not generally accorded to the class of persons to which such scheme or fund relates; and*
- (5) *any contract or arrangement in which the director is interested in the same manner as other holders of shares or debentures or other securities of the issuer by virtue only of his interest in shares or debentures or other securities of the issuer.*

APPENDIX 6

MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS OF LISTED COMPANIES

Introduction

1. This model code is seen by the SEM as setting a minimum standard of good practice against which issuers should measure their own general conduct. In principle, a director should seek to secure that all dealings in which he is or is deemed to be interested be conducted in accordance with the model code.
2. Directors of listed companies wishing to deal in the securities in their own companies must first have regard to the statutory provisions concerning insider dealing in the Companies Act, the Securities Act and relevant FSC Rules and the requirements of the listing rules that listed companies adopt and apply a code of dealing based on the Model Code set out in this appendix. However, there are occasions where, even though they would not be expressly culpable under the statutory provisions, directors should not be free to deal in their companies' securities.
3. The purpose of Rules 1 to 9 of the model code is to provide guidance to directors on when those occasions arise, and also to set out the obligation on directors to notify their company of their holdings in its securities. The purpose of Rules 10 to 12 of the model code is to enable the issuer to comply with its continuing obligations under the Listing Rules to record the interests of its directors in it.
4. A director should not make any unauthorised disclosure of confidential information, whether to co-trustees or to any other person (even those to whom he owes a fiduciary duty) or make any use of such information for the advantage of himself or others.
5. For the purpose of the model code, the grant to a director of an option to subscribe or purchase his company's securities shall be regarded as a dealing by him, if the price at which such option may be exercised is fixed at the time of such grant. If, however, an option is granted to a director on terms whereby the price at which such option may be exercised is to be fixed at the time of exercise, the dealing is to be regarded as taking place at the time of exercise.

RULES

A. Absolute Prohibitions

1. A director should not deal in any of the securities of the issuer at any time when he is in possession of unpublished price-sensitive information in relation to those securities.
2. A director should not deal in the securities of any other listed issuer when by virtue of his position as a director of his own company, he is in possession of unpublished price-sensitive information in relation to those securities.
3. During the period of one month immediately preceding the announcement of the issuer's annual results and the publication of the interim (quarterly) report together with dividends and distributions to be paid or passed, a director should not purchase any securities of the issuer nor should he sell any such securities unless the circumstances are exceptional, for example, where a pressing financial commitment has to be met. In any event he must comply with the procedure in rules 5 and 6.

4. The restrictions on dealings by a director contained in this code should be equally applicable to any dealings by the director's associates. It is the duty of the director, therefore, to seek to avoid any such dealing at a time when he himself is not free to deal.

B. Notification

5. A director should not deal in any securities of his own company without first notifying the chairman (or other director(s) appointed of the specific purpose) in advance, and receiving a dated written acknowledgement. In his own case the chairman should first notify the board at a board meeting, or alternatively notify the other director(s) appointed for the purpose and receive a dated written acknowledgement.
6. The procedure established within the company should, as a minimum, provide for there to be a written record maintained by the issuer that the appropriate notification was given and acknowledged, and for the director concerned to have written confirmation to that effect.
7. Any director of the company who acts as trustee of a trust should ensure that his co-trustees are aware of the identity of any company of which he is a director so as to enable them to anticipate possible difficulties. A director having funds under management should likewise advise the investment manager as the director remains subject to the same restrictions and procedures, even in the case of a discretionary management arrangement.
8. Any director who is a beneficiary, but not a trustee, of a trust which deals in securities of the issuer should endeavour to ensure that the trustees notify him after they have dealt in such securities on behalf of the trust, in order that he in turn may notify the issuer. For this purpose he should ensure that the trustees are aware of the companies of which he is a director.
9. The directors of a company should as a board and individually endeavour to ensure that any employee of the company or director or employee of a subsidiary company who, because of his office or employment in the company or a subsidiary, is likely to be in possession of unpublished price-sensitive information in relation to the securities of any listed issuer does not deal in those securities at a time when he would be prohibited from dealing by the model code if he were a director.

C. Notification of Interests in the Company's Securities

10. A director should notify his company, in writing, of any beneficial or non-beneficial interest he holds, either in his own name or through a nominee, in the securities of the company, and of any beneficial interest in the securities of the company, so far as he is aware (having made all reasonable enquiries), of any of his associates. Any changes in a director's or his associates' holdings, as notified under this rule, should also be reported to the company in writing.
11. Any notifications under rule 10 should occur as soon as possible after the acquisition or cessation of the interest and should contain the following information:
 - (a) the date on which the transaction giving rise to the interest (or cessation of interest) was effected;
 - (b) the price, amount and class of security concerned;
 - (c) the nature of the transaction; and
 - (d) the nature and extent of the director's interest in the transaction.

12. A written record of the interests of the directors of a company and their associates should be kept by the company in the form of a register of directors' interests.
13. For the purposes of this Sub-part C (Notification of Interests in the Company's Securities) of Appendix 6, the definition of "associates" under Part I of the Schedule to the Act shall apply.

APPENDIX 9
ACCREDITATION OF INDEPENDENT PROFESSIONAL EXPERTS, INDEPENDENT FINANCIAL ADVISORS
AND INDEPENDENT VALUERS

Background

The Listing Rules provide for the appointment of the following professionals by Listed Issuers under certain specific circumstances:

- A. Independent Professional Experts (IPE) are appointed for the certification of valuation reports on Related Party Transactions pursuant to Listing Rule 13.25 (a) and Listing Rule 13.28(b).
- B. Independent Financial Advisors (IFA) are appointed for the certification of Business Plans, submitted where the Issuer making an application under Chapter 18 does not have a 3 year track record (Listing Rule 18.6(a) (ii)).
- C. Independent Valuers (IV) are appointed, as may be requested by the Listing Executive Committee (LEC) of the SEM, for the purpose of arriving at an independent value of a business likely to seek a listing on SEM or for any other purpose deemed to be appropriate by the LEC.
- D. Notwithstanding the above provisions, the SEM may require an Issuer to appoint an IFA, an IPE and/or an IV with respect to a new listing, a corporate action to be undertaken by an Issuer or under any other circumstances where it deems suitable.

Accreditation

Firms, the partners of those firms (partners), corporations, directors of those corporations (directors) and individuals acting on their own behalf (individuals) who wish to act as IPE, IFA and IV must be duly accredited by the SEM in accordance with the requirements set out in this Appendix.

A firm/corporation seeking accreditation as IPE/IFA/IV with the SEM shall ensure that at least one of its partners/directors also seeks accreditation with the SEM pursuant to the provisions of this Appendix (Appendix 9), failing which the SEM shall not grant accreditation to the firm/corporation.

The accreditation granted to a firm/corporation under the provisions of this Appendix shall not imply that any of its partners/directors is automatically accredited with the SEM unless the partner(s)/director(s) also apply(ies) for accreditation pursuant to the provisions of this Appendix.

A partner/director seeking accreditation as IPE/IFA/IV with the SEM, under the patronage of his/her firm/corporation, shall ensure that his/her firm/corporation also seeks accreditation with the SEM pursuant to the provisions of this Appendix, failing which the SEM shall not grant accreditation to the partner/director under the patronage of his/her firm/corporation.

The accreditation granted to a partner/director under the provisions of this Appendix shall not imply that his/her firm/corporation is automatically accredited with the SEM unless the firm/corporation also applies for accreditation pursuant to the provisions of this Appendix.

The accreditation of IPE, IFA and IV with the SEM shall not entail any responsibility on the part of the SEM as stated hereunder:

"The SEM does not assume any responsibility for the contents of any document prepared by an accredited IPE, IFA or IV and makes no representation as to the accuracy or completeness of any of the statements made or opinions expressed in those documents and expressly disclaims any liability whatsoever for any loss arising from or in reliance upon the whole or any part thereof. The SEM does not vouch for the financial soundness of a company or for the correctness of any statements made or opinions expressed with regard to it, in any document prepared by an accredited IPE, IFA or IV."

The above statement must be included in any document submitted to the SEM by IPE, IFA or IV.

 - 11.1. The firm, partner, corporation, director or individual having contravened or failed to adhere materially to the provisions of the Listing Rules;

Special Circumstances

14. Notwithstanding the fact that an IFA, IPE or IV may be duly accredited with the SEM under Appendix 9 of the Listing Rules, the SEM may refuse that the IFA, IPE or IV undertakes an assignment on behalf of an Issuer on the basis that the IFA, IPE or IV does not possess the appropriate knowledge and expertise to carry out the said assignment or that there exists a conflict/undisclosed conflict of interest in relation to the said assignment. In those particular instances, the SEM will normally require that the said assignment be undertaken by an IFA, IPE or IV who has the necessary skills, specialist knowledge and required expertise for such types of assignments and is not conflicted in any manner whatsoever in relation to the said assignment.

If during the course of an assignment, the SEM becomes aware that the IFA, IPE or IV has a conflict of interest in relation to the said assignment, the SEM will require that the Issuer replaces the current IFA, IPE or IV and appoints another IFA, IPE or IV in his/her/its place.

15. The SEM reserves the right to enquire with the accredited IFA, IPE or IV on the affairs of the issuer in relation to the assignment(s) under consideration and on the reports submitted thereupon, where the SEM has grounds to believe that the listed issuer may not be in compliance with the Listing Rules.
16. The SEM reserves the right to have recourse to the relevant regulatory authorities, where it has reason to believe that an accredited IFA, IPE or IV has failed to carry out his/her/its duties.

Fees

17. A firm, partner, corporation, director or individual who wishes to make an application to be accredited with the SEM and subsequently maintain his/her/its accredited status shall be subject to application and annual fees, as set out in Appendix 7.
18. The accreditation fees set out in Appendix 7 may be reviewed on a yearly basis to reflect general economic and market conditions. Any increase in the accreditation fees shall be capped at a maximum of 7% per annum.
