

OPERATIONS OF THE STOCK EXCHANGE OF MAURITIUS DURING CYCLONIC WEATHER

The following procedures concerning the operations of the SEM shall prevail during cyclonic weather conditions:

(a) The SEM shall not be open and no trading sessions will take place in the following circumstances:

- (i) On the announcement of a cyclone warning class III or IV and for so long as the warning remains in force;
- (ii) If the issue of a termination bulletin by the Mauritius Meteorological Services occurs at or after 10.00 a.m. on a business day.

(b) Subject to paragraph (a)(ii), where the issue of a termination bulletin occurs before 10.00 a.m., the SEM shall open for business within two hours.

(c) On the announcement of a cyclone warning class III during a trading session, the market shall close after 15 minutes. The market participants shall be informed of the market closure immediately after the announcement.

NOTE: The above Procedures may be subject to modifications to reflect any safety measures announced by the Mauritius Meteorological Services or other relevant authorities. The market will be informed accordingly.
