NOTES
The above condensed unaudited results for the period ended 31 December 2025 are issued pursuant to DEM Rule 17.

Results

Performance:

The Group's revenue for the six months ended 31 December 2025 reached Rs 189.9 million, a growth of 2.8% compared to the same period last year. However, the result was weighed down due to a lower stock of vehicles available for disposal exceptionally for this financial year. Despite this, the Total Comprehensive Income remained positive at Rs 10.5 million, supported by a fair value gain of Rs 18.5 million in the investment portfolio.

Mobility cluster:

The Mobility segment remains the largest contributor to the Group turnover, accounting for Rs 162.2 million (85% of total revenue). Results have been hampered by a drop in ridership for RHT Bus Services Ltd (RHT BS) and the non-availability of cars for sale by Fleet Pro Services Ltd (FPSSL).

Investment cluster:

The Investment segment continues to be the Group's primary profit driver. For the period under review, the segment delivered an operating profit of Rs 28.8 million. This performance reflects the quality of the underlying portfolio and consistent dividend inflows. The segment's asset base stood at Rs 1.05 billion, contributing to the Group's balance sheet strength.

Technology cluster:

The turnover of the Technology segment was Rs 29.2 million for the period, some projects are currently in advanced stages of completion and will materialise in the next semester.

Outlook:

The focus for Q3 will be the finalisation of the bond issue, which will provide a new impetus for FPSSL to grow. The addition of EV buses to the fleet of RHT BS and the recruitment of additional experts are expected to improve operational efficiencies and generate higher revenues during this financial year. Management continues to monitor the impact of increasing costs and remains focused on achieving the budget for this financial year.
