LEC/P/03/2026

Issued in compliance with Chapter 21 of
the SEM Listing Rules pertaining to
High Growth Companies

Ziweto Holdings Limited
 (Incorporated in the Republic of Mauritius)
 (Company registration number: C210284/GBL)
 Having its registered address at
 c/o Rogers Capital Corporate Services Limited,
 Level 3, Rogers Capital House,
 5, President John Kennedy Street,
 Port Louis, Mauritius
 LEC/P/03/2026
 (“Ziweto Holdings” or the “Company” or the “Issuer”)

LISTING PARTICULARS

The definitions commencing on page 7 of these Listing Particulars have, where appropriate, been used on this cover page.

The Company intends offering and issuing additional shares by way of private placement(s) to existing shareholders or new targeted investors all as may be permitted in terms of the Mauritian Companies Act 2001, the SEM Listing Rules, the Mauritian Securities Act 2005 and any other applicable laws and regulations. The details of any such offer will be communicated to targeted investors as and when such offer is made.

An application has been made for the listing of up to 1,000,000 additional Ordinary Shares of no par value of Ziweto Holdings Limited (“Ziweto Holdings shares”) on the High-Growth Segment of the Main Market of the SEM (“High Growth Segment”). Accordingly, these Listing Particulars have been prepared and issued in compliance with Chapter 21 of the Listing Rules, being the rules governing the listing of securities on the High-Growth Segment:

- in respect of the listing of up to an additional 1,000,000 shares through private placement(s) at an issue price to be decided by the Board, at the time any such offer, issue or placement is announced; and
-
- for the purpose of providing updated information to the public and to targeted qualified investors with regard to the Company.

This document does not constitute an invitation to the public to subscribe for Ziweto Holdings shares.

A copy of these Listing Particulars is available in English only, accompanied by the documents referred to under “Documentation available for inspection” as set out in section five, paragraph 13 of these Listing Particulars.

These Listing Particulars include particulars given in compliance with the Stock Exchange of Mauritius Ltd Rules Governing the Official Listing of Securities for the purpose of giving information with regard to the Issuer. The directors, whose names appear on page 10, collectively and individually, accept full responsibility for the accuracy or completeness of the information contained in these Listing Particulars and confirm, having made all reasonable enquiries, that to the best of their knowledge and belief there are no other facts the omission of which would make any statement herein misleading.

Admission to the High Growth Segment is primarily intended for high growth companies. A prospective investor should be aware of the risks of investing in such companies and should make the decision to invest only after careful consideration and, if appropriate, consultation with a professional financial adviser.

The SEM Authorised Representative and Sponsor, Transaction Advisor, Auditors, Company Secretary, Registrar and Transfer Agent, Market Maker and Principal Bankers, whose names are included in these Listing Particulars, have consented in writing to the inclusion of their names in the capacity stated and have not withdrawn their written consent prior to publication of these Listing Particulars.

These Listing Particulars may include forward-looking statements. Forward-looking statements are statements including, but not limited to, any statements regarding the future financial position of the Company and its future prospects. These forward-looking statements have been based on current expectations and projections which, although the directors believe them to be reasonable, are not a guarantee of future performance.

The distribution of these Listing Particulars and the placing, sale or delivery of Ziweto Holdings shares are restricted by law in certain jurisdictions. Therefore, persons who may come into possession of these Listing Particulars are advised to consult their own legal advisors as to what restrictions may be applicable to them and to observe such restrictions. These Listing Particulars may not be used for the purpose of an offer or invitation in any circumstances in which such offer or invitation is not authorised.

Potential investors should not treat the contents of these Listing Particulars as advice relating to legal, taxation, investment or any other matters. Potential investors should inform themselves as to (i) the legal requirements within their own respective country for the purchase, holding, transfer or other disposal of shares; (ii) any foreign exchange restrictions applicable to the purchase, holding, transfer or other disposal of shares which they may encounter; (iii) the income and other tax consequences which may apply in their own countries as a result of the purchase, holding, transfer or other disposal of shares. Prospective investors must rely on their own representatives, including their own legal advisors and accountants, as to legal, tax, investment or any other related matters concerning the Company and an investment therein. These Listing Particulars should be read in its entirety before making any application for shares.

This document does not constitute an “offer to the public” and has accordingly not been registered as a prospectus with Mauritian Financial Services Commission under the Mauritian Securities Act 2005.

APPROVAL FROM THE LISTING EXECUTIVE COMMITTEE OF THE SEM

These Listing Particulars have been approved by the Listing Executive Committee (“LEC”) of the SEM, in conformity with the Listing Rules, on 19th June 2026 for the listing of up to 1,000,000 additional Ziweto Holdings Shares by way of private placement(s).

Neither the LEC, nor the SEM, nor the FSC assumes any responsibility for the contents of these Listing Particulars. The LEC, the SEM and the FSC make no representation as to the accuracy or completeness of any of the statements made or opinions expressed in these Listing Particulars and expressly disclaim any liability whatsoever for any loss arising from or in reliance upon the whole or any part thereof.

Permission has been granted by the LEC on 19th June 2026 for the listing of up to 1,000,000 additional Ziweto Holdings shares by way of private placement(s).

SECTION ONE - INFORMATION ON THE COMPANY

1. INTRODUCTION

The purpose of these Listing Particulars is to provide information to potential investors in relation to the Company and its activities.

2. DIRECTORS AND MANAGEMENT OF THE COMPANY

i. Ziweto Holdings’ board of directors

Annexure 1 contains the following information:

- (i) details of directors and executive management including their names, addresses, qualifications, occupations and experience;
- (ii) information concerning the appointment, remuneration, terms of office and borrowing powers of the directors;
- (iii) directors’ interests; and
- (iv) directors’ other directorships and partnerships.

ii. Key Service Providers

(i) Company secretary

The Board leverages off the existing operations within Rogers Capital Corporate Services Limited, its duly appointed Company Secretary.

Rogers Capital Corporate Services Limited is duly licensed by the FSC to provide a comprehensive range of financial and fiduciary services to international businesses. All administrative business functions of the Company will be carried out by Rogers Capital Corporate Services Limited in Mauritius.

(ii) SEM Authorised Representative & Sponsor and Transaction Advisor

The Company has appointed Perigeum Capital Ltd (“**Perigeum Capital**”) as its SEM authorised representative & sponsor and transaction advisor.

Perigeum Capital is a corporate finance house, which is licensed and regulated by the Financial Services Commission in Mauritius.

Perigeum Capital handled the listing application process of the Company with the SEM last year and has been engaged to advise the Company and its directors on compliance with ongoing SEM listing obligations.

(iii) Market Maker

Tuesday Markets Ltd. (the “**Market Maker**”), a Mauritian incorporated entity, is registered as market maker for the Company. The Market Maker has given an undertaking to the Company that it will provide liquidity to the market when the stock exchange is open and will always, in normal market circumstances, endeavour to provide and maintain a reasonable bid and offer. In certain exceptional circumstances, the SEM may relieve the Market Maker from its responsibility to maintain a reasonable bid and offer until the issue is resolved. Other Market Makers may similarly provide bids and offers for shares of the Company, as may be approved by the SEM.

(iv) Other Third-Party Service Providers

In addition, it is envisaged that the Company will outsource several key, but noncore functions to specialist third-party service providers. Such service providers may include without limitation: investor relations managers; company administrators; legal counsel; accountants and auditors; and bankers. In this regard, the Board will engage only with reputable, intentionally- recognized institutions with established track records for the provision of such services.

3. INCORPORATION, HISTORY AND NATURE OF BUSINESS

i. Incorporation, name and address

The Company was incorporated in Mauritius on 1 July 2024 as a public company limited by shares and has its registered office at c/o Rogers Capital Corporate Services Limited, 5, President John Kennedy Street, Port Louis, Mauritius.

Since the Company derives most of its revenue from outside Mauritius, primarily through its subsidiary, it has applied for and obtained a Global Business License issued by the FSC.

ii. History

The Company has no major trading history, having been recently incorporated.

On 25 September 2024, the Company executed its foundational strategy by acquiring 100% of Ziweto Enterprises Limited, a Malawian operating company with an established operating history of approximately eight years.

On 18 October 2024, the Listing Executive Committee of the Stock Exchange of Mauritius approved the listing of the Company’s ordinary shares. Official trading on the High-Growth Segment of the SEM commenced on 3 December 2024 at an indicative price of USD 1.60 per share (trading at USD 2.04 as at the Last Practicable Date).

The Company leverages on the track record of the revenue-earning business of its sole subsidiary, Ziweto Enterprises Limited, which has demonstrated strong growth over time, with revenue increasing from USD 845,622

in 2021 to approximately USD 1.9 million in 2025. The directors of Ziweto Enterprises Limited have also been appointed as directors of the Company to oversee and act in the best interests of the Company. The Group is led by an experienced management team who collectively have over decades of experience and a successful track record in the agricultural sector.

iii. Nature of the business

The Company's principal activity is that of a holding company. It holds 100% of the issued share capital of Ziweto Enterprises Limited.

As a Group, the Ziweto Holdings Group operates in the livestock sector in Malawi through its subsidiary. The Group is involved in the following activities:

- i. distribution of veterinary and animal nutrition products, provision of veterinary services and supply of livestock production equipment through a network of branded "Ziweto Agro-vet Shops";
- ii. production of poultry feed and concentrates through its own feed mill; and
- iii. breeding of chicks through a chicken hatchery facility.

Ziweto Enterprises partners with leading veterinary product manufacturers to source quality products distributed through its network of veterinary shop outlets. The Group also recruits, trains and equips Livestock Lead Farmers (currently approximately 222), who provide meat and other food supplies in rural areas. In addition, the Group provides livestock extension services and veterinary assistance to farmers.

Through its integrated model, the Group aims to improve livestock productivity by enhancing animal health and nutrition, thereby contributing to improved food security, nutrition and income generation for smallholder farmers in Malawi.

No change in the nature of the Company's business and no divestment whatsoever from its subsidiary company, Ziweto Enterprises Limited, are being contemplated presently or for at least the next three years.

iv. Financial year-end

The financial year-end of the Company is 31 December each year

4. ABOUT ZIWETO ENTERPRISES LIMITED

i. Inception of Ziweto Enterprises Limited

Ziweto Enterprises is a Malawian business operating in the livestock sector offering animal health, nutrition, and breeding solutions to livestock farmers in Malawi.

Founded by Mr. Victor Chambayika Mhango in 2014, Ziweto was born out of the need to address the challenges faced by smallholder farmers in accessing affordable and reliable animal health services. In 2016, Mr. Byton Simwela, who had been working with the Malawi government in the Ministry of Agriculture, joined Ziweto as a co-founder and full-time Chief Operating Officer (COO).

Their shared experiences at the University of Malawi's Bunda College of Agriculture, where they both studied, and their subsequent work as field officers in the Ministry of Agriculture, sparked their drive to transform Malawi's livestock sector.

Figure 1: Ziweto Enterprises Logo

Victor and Byton encountered the devastating effects of preventable diseases that decimated farmers' livestock, such as chickens, pigs, cows, and goats. The

Figures 2 and 3 (left to right):

Victor Chambayika Mhango, Co-founder, CEO and Executive Chairman of Ziweto Enterprises and;

Byton Simwela, Co-founder and COO of Ziweto Enterprises.

Ministry lacked the resources to help farmers with disease prevention, such as providing vaccines, and smallholder farmers were losing up to 30% of their livestock to diseases like Newcastle disease in village chickens. Additionally, farmers face difficulty accessing veterinary services, often having to travel long distances to find veterinary shops and purchase essential treatments.

After six years of waiting for the government to address these issues, Victor and Byton took matters into their own hands. With a USD 20,000 foreign development grant, they launched Ziweto Enterprises in November 2015 as a for-profit company dedicated to filling this gap. The company initially opened three agroveter shops outside of Mzuzu, in northern Malawi, and began hiring veterinarians to visit farms, administer vaccines, and treat preventable diseases.

By end of 2025, Ziweto had expanded to a network of 23 Agroveter Shop outlets across all three regions of Malawi. This strategic growth has been bolstered by partnerships with leading manufacturers of veterinary and animal nutrition products, ensuring that farmers can access high-quality and affordable solutions for their livestock. The company is also recognized for its integrated business model, which combines both vertical and horizontal integration to support long-term sustainability and expansion.

As part of its vertical integration strategy, Ziweto has established a state-of-the-art animal nutrition products manufacturing facility in Lilongwe. This facility processes feed and feed concentrates, aiming to reduce livestock production costs for smallholder farmers. By controlling the production of essential inputs, Ziweto enhances its ability to deliver tailored solutions that meet the specific needs of local farmers.

Figure 4: Ziweto Agroveter Shops. Currently there are 21 Ziweto Agroveter Shops, all of which are branded the same and sell similar products at standardized prices across Malawi.

The company's strategy is firmly grounded in the belief that improving animal health and nutrition will empower smallholder farmers to raise more productive livestock, providing them with more meat, milk, and eggs. This, in turn, enhances food security, nutrition, and income levels, helping farmers escape poverty and hunger. By combining these strategic initiatives, Ziweto is transforming the agricultural landscape of Malawi, positioning itself as a key player in the livestock sector.

The company has also embraced opportunities for growth beyond the Malawian borders. In November 2024, Ziweto successfully listed on the Stock Exchange of Mauritius, marking a new chapter in its journey and opening the door for international investment to fuel future expansion. With strong financial performance, evidenced by a 30% increase in turnover in 2024, Ziweto is well-positioned to continue scaling its impact and reach in Malawi and beyond, helping to create a more sustainable and prosperous future for smallholder farmers.

KEY STATISTICS	2022	2023	2024	2025
Revenues (USD) ¹	835,449	1,340,230	1,029,173	1,970,038
Revenue (MK)	822,081,728	1,393,839,467	1,802,082,080	3,416,065,244
Number of Customer Visits	70,466	76,892	82,000	93,999
Number of Livestock Lead Farmers	200	222	222	222
Job creation	41	51	51	56
Number of Shops	15	21	21	23

The revenue growth rate was calculated based on the reported revenue of Ziweto Enterprises in Malawian Kwacha (MWK). However, its revenue in USD significantly reflects the rapid devaluation of the Kwacha against the Dollar. In May 2022, the Reserve Bank of Malawi (RBM) devalued the Kwacha by 25% to address severe foreign exchange shortages. This downward trend accelerated in November 2023, when the RBM devalued the currency by a further 44%, moving the official selling rate from approximately MWK 1,180 to MWK 1,700 per USD.

As of March 2026, the Kwacha has begun to show signs of stabilization following a change in administration and improving foreign exchange reserves, with the RBM ruling out further planned devaluations for the near term. Despite this, the cumulative impact of recent years remains stark; the exchange rate currently sits at approximately MWK 1,733 per USD, and a new K10,000 banknote was introduced in March 2025 to manage the economic impact of the currency's eroded value.²

ii. Ziweto Enterprises' Business Model

Ziweto Enterprises operates a one stop shop integrating across value chains by offering animal health, nutrition, and poultry farm solutions to farmers through its 3 business units. Ziweto owns all aspects of the value chain through its business units listed below.

- Ziweto Agrovet Shops (ZWA):** This business unit is the distribution arm of the company and supplies veterinary drugs, vaccines, and livestock production equipment through a network of 23 outlets across Malawi. Ziweto Enterprises has partnered with leading veterinary and animal nutrition products manufacturing companies such as Hester Biosciences (from India), Vetcare Africa (from Kenya) and Interchemie (from Netherlands), to bring quality and affordable solutions closer to farmers. In 2024, the Company has also secured the supply of products from Urban Farmer (from South Africa) and Cibus (from Kenya).
- Ziweto Nutrition Solutions (ZNS):** This business unit produces feed and feed concentrates distributed through the Ziweto Agrovet Shops. Ziweto Enterprises has recently set up an animal nutrition products manufacturing facility in Lilongwe, for the production of feed and concentrates and aims to reduce the cost of livestock production among local farmers. ZNS is also planning to establish a soybean processing plant aimed at producing soybean cake for its feed operations. This product will be available for both the local and export markets. Fundraising efforts for the project are currently underway, with implementation expected to commence in 2027. Revenues from the plant are projected to begin in 2028.
- Ziweto Breeding Solutions (ZBS):** Ziweto started selling imported chicks in Malawi 2022. To meet the growing demand of chicks, the company has set up a hatchery to produce good-quality poultry chicks. It currently has 3 incubators and 3 hatcheries, which will be fully operation in 2026. The company has completed the set-up of parent stock housing and the building of a hatchery house. The company will invest in the building of more hatcheries and incubators, to produce more chicks by itself and sell them to local

¹ The figures shown in USD are based on financial information extracted from the Group's audited consolidated financial statements, which are presented in MWK.

² [Malawian Kwacha - Quote - Chart - Historical Data - News](#)

farmers, and eventually phase out the import of chicks. ZBS will also start commercial poultry production and chicken meat processing. The company is setting up an abattoir for chicken meat processing.

Each business unit sells directly to external clients. However, they are also interconnected, acting as a key component in the internal supply chain, providing essential inputs to other units. For instance, ZWP will use the output from ZNS in its production of livestock. This business model ensures quality control and reduces the cost of production and cost of sales thanks to the elimination of middlemen/salesforce. The three business units all report to the same senior management team and leverage the full-on shared services: human resource, information technology and accounting.

Ziweto Enterprises' business Model

Support provided by Ziweto Enterprises – Integrated approach to empowerment

Ziweto is committed to empowering smallholder farmers by providing essential support services that enhance livestock productivity and sustainability. Central to this mission are two key initiatives: the ZWA Credit Facility and ZWA Technical Support.

- **ZWA Credit Facility:** Ziweto offers a credit facility to its customers. The company's credit policy offers customers a 30-day period to settle payments. Ziweto's credit facility is aimed at building relationships with customers while helping them to manage their cashflow.
- **ZWA Technical Support:** Ziweto offers technical support and training of livestock farmers, Livestock Lead farmers and frontline staff on feed making to ensure that farmers have the right knowledge on the use of animal nutrition products that Ziweto sells to enhance livestock production and productivity. Livestock Lead farmers and 'Assistant Veterinary Officers' act as last mile distributors of these animal nutrition products.

By integrating these services, Ziweto not only supports the immediate needs of farmers but also ensures a sustainable increase in livestock production, contributing to the broader goal of food security and economic growth in rural communities.

iii. Ziweto Enterprises' Mission and Vision

Ziweto Enterprises mission is to boost livestock production, thereby contributing to increased incomes, food security and nutrition for Malawians and revolutionize the way that livestock and veterinary services are offered to smallholder farmers in Malawi by creating a more sustainable and entrepreneurial model.

This vision of “reach” extends beyond mere contact and reflects meaningful engagement with farmers to ensure access to high-quality livestock products, veterinary services and the knowledge required to improve farming practices.

Ziweto Enterprises intends to achieve this through the expansion of its Agrovet shop network, enhanced marketing and promotional efforts, and broader outreach activities, including the formation and support of farmer groups, the delivery of targeted training programmes, and participation in trade centres to strengthen its connection with the farming community. Through this integrated approach, Ziweto Enterprises aims not only to improve livestock productivity, but also to strengthen rural livelihoods, empower farming communities and promote more resilient agricultural practices across Malawi. Through these initiatives, Ziweto Enterprises seeks to support the development of a thriving and sustainable agricultural ecosystem that promotes growth and prosperity in rural Malawi.

Ziweto Enterprises and its contribution to UN Sustainable Development Goals

Ziweto Enterprises is a pioneering agricultural company in Malawi, committed to transforming the livestock sector and improving the livelihoods of smallholder farmers. Through its innovative products and services, Ziweto plays a critical role in advancing several United Nations Sustainable Development Goals (UN SDGs), particularly those focused on eradicating hunger, alleviating poverty, and reducing inequalities.

Ziweto is bridging the gap for affordable and high-quality animal health, nutrition, and breeding solutions in Malawi. Healthier, more productive livestock and improved farming practices translates into increased income for the farmers.

By ensuring access to high-quality animal feed, veterinary medicines, and breeding solutions, Ziweto helps farmers produce healthier and more productive livestock. This contributes to increased meat, milk, and egg production, improving food security and nutrition for Malawian communities.

Ziweto plays a crucial role in preventing and controlling livestock diseases, reducing the risk of zoonotic diseases (diseases transmitted from animals to humans). This enhances public health and ensures the safety of animal-derived food products.

Employment is created across the entire value chain, starting from the feed mill production to the agrovet shops and poultry farming. Ziweto is also advocating for inclusive economic growth by supporting entrepreneurship among its franchisees. The technical support and training provided to the agrovet network helps to build a skilled workforce in the livestock sector.

The micro-franchise model which has an extensive reach across the country, ensures equitable distribution of necessary resources and support to smallholder farmers, especially in rural areas. 80% of agrovet shop operators are female.

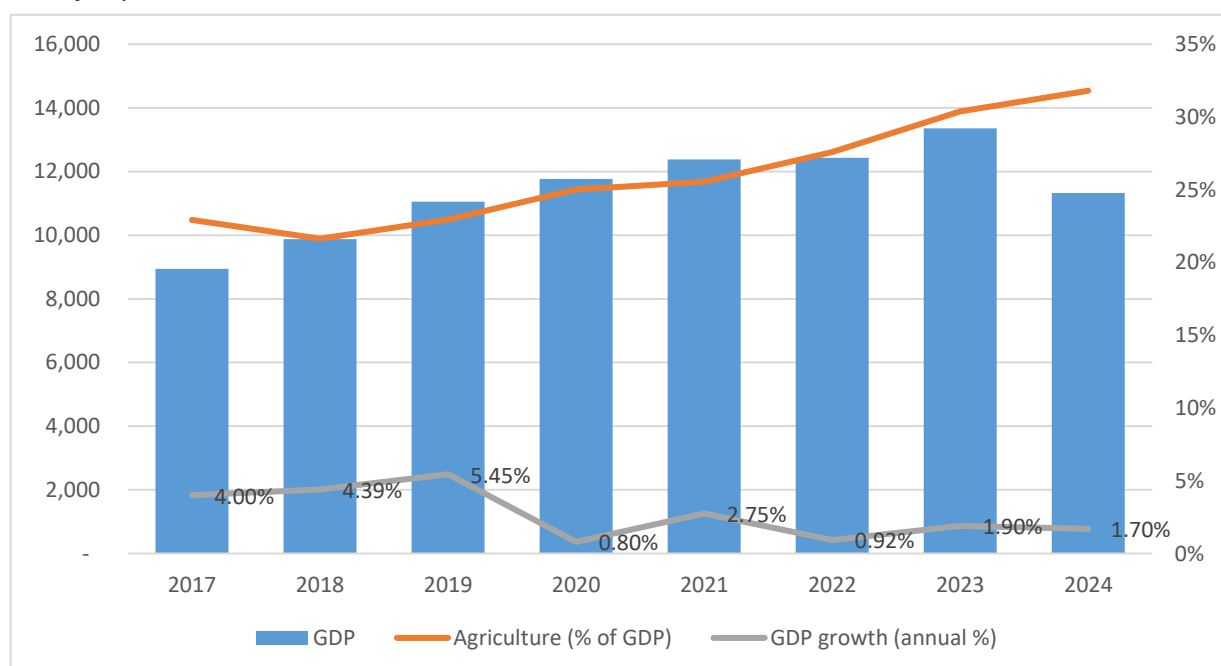

iv. Ownership Structure

Ziweto Enterprises is currently 100% owned by Ziweto Holdings. The structure of Ziweto Holdings are as follows:

Name of Beneficial Owners	Role in Ziweto Holdings Group	% Indirect Shareholding
Africa Eats Ltd	Investment Partner	47.36%
Victor Chambayika Mhango	Co-founder, CEO and Executive Chairperson of Ziweto Enterprises	28.61%
Byton Simwela	Co-founder and COO of Ziweto Enterprises	11.88%
Tuesday Markets Ltd	Market Maker	9.02%

v. Market Environment and Industry landscape

Located in Southern Africa, Malawi is a landlocked country that shares its borders with Mozambique, Zambia, and Tanzania. Despite substantial economic and structural reforms aimed at sustaining growth, Malawi remains one of the world's least developed and lowest-income countries with a large proportion of the population dependent on agriculture for their livelihoods. The agricultural sector continues to play a central role in national economic activity and rural employment, directly influencing food security and income generation for the majority of rural households.

Source: World Bank

In 2025, Malawi's overall economic performance remained constrained by structural weaknesses and climatic sensitivities. Real GDP growth was around 2.4% in 2025, with moderate expectations for the medium-term future, increasing to approximately 3.4%, as per projections from the IMF. This growth continues to be heavily influenced by agricultural output, particularly in climate-sensitive sectors. Structural constraints, such as energy shortages, inflationary pressures, and limitations in foreign exchange, continued to challenge overall economic performance.

Agriculture remains the backbone of the economy, contributing a significant share of national output and employment. In 2025, the agricultural sector continued to account for around 30% of Malawi's GDP, with agriculture-related industries (livestock, horticulture, agro-processing) significantly contributing to GDP. While maize and tobacco are the major crops cultivated, the livestock sector plays an important complementary role in rural livelihoods, economic diversification, and food security. Livestock production, which includes poultry, dairy, and beef, is critical for income generation in rural areas. Livestock accounts for roughly 7% of total national GDP, with a larger share within agriculture.

The agricultural sector remains highly vulnerable to climatic shocks. Malawi continues to face challenges related to extreme weather events, including periodic droughts and flooding that impact crop yields and livestock production. These events exacerbate risks, making agricultural production uncertain and directly affecting smallholder farmers. The growing frequency and severity of weather disruptions highlight the need for more resilient farming systems and improved climate adaptation strategies.

Livestock significantly contributes to Malawi's economy, with approximately two-thirds of rural households raising cattle, swine, sheep, goats, and chickens for food and income. According to World Bank datasets, agriculture contributed approximately USD 3.6 billion to GDP in 2024 (~32.4% of GDP). Latest statistics estimate that about USD 2.5 billion comes from the livestock sector alone. This contribution underscores the importance of livestock in enhancing food security and rural incomes. The sector is also a key provider of employment for rural communities, with livestock farming serving as a vital economic activity for many Malawians.

The veterinary supply business in Malawi remains fragmented, dominated by small veterinary corner shops and independent outlets. Despite this, Ziweto Enterprises has emerged as a dominant player in the market, holding a 10% market share in a fragmented industry. The company has successfully consolidated its presence through a network of branded Ziweto Agrovets Shops, strategically located across Malawi's three regions. Ziweto's leadership in this space was further solidified through its acquisition of Alfa Medics in Mzuzu in 2017, contributing to its growth and market dominance in veterinary product importation and distribution. This expansion has allowed Ziweto to offer a more comprehensive and reliable supply of animal health products to smallholder farmers across the country, positioning the company as a key industry leader.

In the livestock feed market, Ziweto Nutrition Solutions entered at a time when established players like Proto Feeds and CP Feeds mainly catered to broiler and layer poultry farmers. Recognizing the underserved demand in other livestock segments such as piggery, indigenous poultry, dairy, and beef, Ziweto strategically positioned itself to offer feed solutions for these sectors. By focusing on a broader livestock species portfolio, Ziweto has become a key competitor, leveraging its widespread distribution network to reach more farmers across the country. This has allowed the company to differentiate itself in a competitive market and expand its market share in Malawi's livestock sector.

With its leadership in animal health and nutrition, Ziweto Enterprises is well-positioned for expansion into adjacent markets, such as poultry processing and soya-based animal feed production. The company's planned poultry abattoir integrated with its vertically aligned supply chain, including poultry raised using Ziweto's feed and veterinary solutions which will further enhance its market presence. Additionally, the growing international demand for soya meal, a critical ingredient in animal feed, presents a strategic opportunity for Ziweto to expand into soya processing and export. This could further reinforce Ziweto's market leadership in Malawi's livestock sector and position the company to capitalize on regional and global demand for high-quality, nutritious animal feed.

vi. Target Market

The key target market for Ziweto Enterprises includes smallholder livestock farmers; veterinary shops; assistant veterinary officers; commercial farmers; non-governmental organizations and academic institutions.

The agrovet shops are located at the district level, primarily targeting smallholder farmers.

Ziweto Enterprises' three distribution centers in Mzuzu, Lilongwe, and Blantyre target wholesale customers that include veterinary shops, commercial farmers, and institutions such as NGOs and academic/research centres.

Ziweto Enterprises' poultry abattoir and Soya processing operations will target local market (mostly retail, i.e., supermarkets, butcheries, restaurants, hotels, schools, hospitals) and export to countries such as Kenya, Tanzania, Mozambique, Zimbabwe, South Africa and Democratic Republic of Congo among others.

vii. Competitor Analysis

The veterinary services supply market in Malawi is highly fragmented, dominated by numerous individual private veterinary service providers and small-scale veterinary shops, such as GIL Vet Centre and Royal Veterinary. There are also a few more established players in the sector, including the Lilongwe Livestock Centre, Agricultural Trading Centre, Femano Veterinary Services, and Share Vet. In addition, there has been an increased influx of cross-border veterinary products from Zambia and Tanzania.

Despite this fragmentation, Ziweto Enterprises Limited (ZEL) is currently the market leader in the distribution of veterinary products in Malawi, operating through its network of Ziweto Agrovet Shops across all regions of the country. The company has consolidated its position as a market leader in the importation and distribution of essential veterinary and animal nutrition products. ZEL maintains a competitive edge through its strategic approach. The company has a presence across all regions, whereas competitors are largely concentrated in urban areas. It employs qualified professionals to assist farmers. It stocks a wide range of veterinary products and feed. It engages in sole-distributor agreements with key manufacturers to reduce reliance on cross-border supplies. In addition, ZEL offers complementary services such as veterinary consultations, livestock extension services, and farmer training programs. Management anticipates that within the next three years, ZEL will control over 60 percent of the veterinary supply market in Malawi.

In the livestock feed and concentrates market, ZEL entered at a time when there were already two major players, Proto Feeds (Kelfoods) and Central Poultry and Feeds. Central Poultry and Feeds, with more than twenty years of operations, breeds and rears its own broiler livestock using feed from its own mills. The company distributes fresh and frozen chicken, commercial eggs, and exports day-old chicks and poultry feed to Mozambique. Proto Feeds supplies table eggs, animal feed, day-old broiler chicks, and animal health products under several brand names. These players primarily target broiler and layer poultry farmers and have limited focus on low-income or price-sensitive farmers, leaving other livestock species such as piggery, indigenous poultry, dairy, and beef underserved. ZEL's Nutrition Solutions business unit aims to fill this gap by offering affordable, tailored products to smallholder farmers, leveraging its extensive distribution network of one-stop livestock shops to reach these customers effectively.

ZEL has also recently expanded into the breeding of day-old chicks. Its main competitors in this segment include Central Poultry and Feeds, Kamponji Enterprises Limited (Kelfoods), and Glenae/Conforzi, alongside several small SMEs and rural households that breed chickens. Despite this competition, ZEL is confident in the success of this new business line, particularly with smallholder farmers, because of its widespread reach through the Agrovet shop network, which allows its production and services to be widely accessible and known across Malawi.

ZEL's combination of veterinary product distribution, feed and concentrate production, and poultry breeding positions the company to capitalize on significant market opportunities and strengthen its dominance in Malawi's livestock and veterinary services sector.

viii. Growth and Expansion Plans

Ziweto Enterprises has identified the overarching goals that it wants to achieve over a five-year period (2024 to 2028). The strategic goals and objectives will provide a framework for guiding Ziweto actions, decision-making and resource allocation. The strategic plan focuses on the following elements:

- Revenue Growth
- Market Leadership
- Innovation and Product Development
- Operational Efficiency
- Financial Stability
- Profitability

The goals and objectives have been identified to propel Ziweto forward and contribute to the fulfilment of its long-term strategies. The management believes that the goals and objectives are SMART in nature which means they are: **Specific, Measurable, Achievable, Relevant/Realistic, and Time-Bound**.

The growth and expansion plan of the company is built around investments in the following three areas:

I. Ziweto Agrovet Shops

Strengthen and expand Ziweto Agrovet Shops: Ziweto Enterprises is raising funding to enhance stock availability across its retail network, strengthen suppliers relationships, and improve the profitability of each outlets. The Company aims to expand its footprint and deepen its reach within Malawi, targeting a network of 30 Agrovet shops by 2030, while continuing to scale its customer base thereafter.

	2024	2025	2026	2027	2028
Number of shops	21	23	30	30	30

The Company also intends to invest in technology solutions to support inventory management, customer relationship management, and sales and marketing activities, with a view to enhancing operational efficiency and data-driven decision-making.

II. Ziweto Nutrition Solutions

- **Invest scale up production capacity of Ziweto Nutrition Solutions:** Ziweto Enterprises Limited has commissioned its animal nutrition manufacturing facility in Lilongwe and is focused on increasing production capacity to meet growing demand. The Company plans to invest in bulk procurement of key raw materials (including maize, soya, soya cake, vitamins and minerals), while also entering into structured produce purchase arrangements with smallholder farmers to secure a reliable supply of inputs.

Production volumes are expected to scale progressively in line with capacity expansion at the feed mill. The Company is targeting production of approximately 1,150 thousand tonnes in 2026, with capacity expected to increase to approximately 3,072 tonnes by 2029, reflecting a phased ramp-up of operations.

- **Investment in a Soya Processing Plant:** Ziweto Enterprises plans to establish a soya extraction plant to produce soya meal for use in its feed production operations, while also supplying both local and export markets. This initiative is expected to enhance input security, improve margins through backward integration, and support foreign currency generation.

The plant is expected to become operational from 2028, with an estimated production capacity of 30 tonnes per day, initially operating below full capacity and scaling up over time.

III. Ziweto Breeding Solutions

- **Investment in Poultry Hatchery and Breeding Operations:** Ziweto Enterprises is investing in the development of its poultry breeding operations to improve smallholder farmers' access to high-quality chicks, including hybrid and improved village chickens. The hatchery will support both direct sales to farmers and internal supply for the Company's downstream poultry operations.

Production volumes are expected to scale significantly as capacity is expanded, with a phased increase in parent stock and hatchery output to meet growing demand across Malawi.

- **Investment in Poultry Farming and Abattoir Operations:** Ziweto Enterprises plans to expand into commercial poultry farming and processing as part of its vertically integrated business model. This includes the establishment of poultry farms, construction of an abattoir, and acquisition of processing equipment to support both domestic and export markets.

The farm and abattoir operations are expected to commence in 2027, initially operating 6 chicken houses, increasing to 12 houses in 2028 and 24 houses by 2029. Each chicken house will have a capacity of approximately 10,000 chickens per production cycle, enabling a significant ramp-up in output over the forecast period.

Broiler chicks will be raised to maturity for processing, with revenues driven by production volumes and selling prices. A mortality rate of approximately 5% has been assumed in the projections. Production is expected to increase from approximately 126,000 chickens in 2027 to approximately 1.9 million chickens by 2029, reflecting the phased expansion of farming capacity.

The Company intends to serve both local and regional markets. Initially, a higher proportion of sales will be domestic, with exports expected to increase over time. By 2028, approximately 30% of sales are expected to be local, with the balance exported to neighboring countries.

To support market penetration while remaining competitive, local selling prices are expected to increase by approximately 10% per annum, while export prices are projected to increase at a more moderate rate of 5% per annum.

ix. Affiliation with Africa Eats Ltd

Africa Eats Ltd is a permanent capital investment company domiciled in Mauritius which invests in and helps to grow companies across Sub-Saharan Africa working in the food and agriculture supply chain. It has been founded and is managed by a strongly qualified team of individuals with extensive experience in investing and supporting young and growing companies, and in expanding companies across the continent of Africa.

The investees of Africa Eats are building the Food/Ag supply chain in Africa. None of them are direct food producers. Instead, they work with networks of smallholder farmers and co-ops of smallholder farmers. The majority of the investees buy from farmers, aggregating the supplies from across a whole region or country, then process the food before distributing it to dozens, hundreds, or thousands of customers.

These efforts solve the yield, post-harvest losses, and hunger problems all at the same time. Yields are improved as farmers have an incentive to follow those long-taught best practices once their outputs have a guaranteed buyer. Post-harvest losses are lowered with that same path from harvest to customer and then lowered further as Africa Eats' investees upgrade to refrigerated trucks, modern storage facilities, and cold storage. Hunger decreases when farmers have higher incomes and when the cost of quality food is lowered due to improved logistics and fewer middlemen.

In short, what Africa Eats is seeing is that supply chains are the key leverage point toward improving the agricultural sector in Africa, ultimately turning the trade deficit into a trade surplus, and with that greatly reducing not only hunger, but also poverty across the continent.

Africa Eats currently owns a minority equity ownership stake in these companies, averaging 15% today with a target ownership of 25% for each portfolio company. As at the Last Practicable Date, Africa Eats holds 47.36% of the issued shares of Ziweto Holdings.

Each of the companies is run by its founder(s), and it is the belief of Africa Eats' management that the best way to grow the investee companies is to arm its founders with oversight, capital, and advice, empowering them and their management teams to operate the companies as they think best.

This structure is proving to help the portfolio companies grow their revenues at a fast pace, be profitable, and to seize opportunities as they are spotted. The expectation is that the investments in these companies will last for decades, if not longer, that they will continue growing quickly at least through 2030, and that new companies will be added to the portfolio over time that do the same.

Africa Eats has achieved remarkable growth in its portfolio, with the aggregate revenues of its companies surpassing USD 54 million in 2025, reflecting a substantial increase from previous years. This growth underscores the company's continued success in scaling its investments across Sub-Saharan Africa, particularly in the food and agriculture sectors. With a solid financial foundation and ongoing expansion strategies, Africa Eats is well-positioned to maintain its upward trajectory and continue creating value for its investors and the communities it serves.

x. Other Investment Partners

Ziweto Enterprises partners with like-minded organisations to help the company grow its portfolio. Below is a snapshot of the partners affiliated with Ziweto Enterprises.

xi. Historical Revenues and Financial Highlights

A summary of the historical financial trend of Ziweto Enterprises is presented below. The directors of Ziweto Enterprises are responsible for the preparation and fair presentation of the historical financial information of the company in accordance with International Financial Reporting Standards. For further information on the audited financial statements of Ziweto Enterprises, reference may be made to **Annexure 4 – the Accountant's Report**.

(USD 000s)	FY Dec 2023	FY Dec 2024	FY Dec 2025
Revenue	1,340	1,029	1,970

*Figure 10: Historical financial performance of Ziweto Enterprises over the past 3 years
Source: Audited financial statements of Ziweto Enterprises*

The Company generates revenue from two primary business lines: Ziweto Agrovets Shops (ZAS) and Ziweto Nutrition Solutions (ZNS) Feed Mill.

In FY25, ZAS contributed 74% of total revenue, while ZNS accounted for 24%. In comparison, during FY24, ZAS represented 78% of total revenue and ZNS contributed 22%.

Revenue nearly doubled in FY25, primarily driven by upward pricing adjustments and improved availability of USD-denominated working capital, which enhanced the Company's capacity to procure inventory and support higher sales volumes.

ZEL's gross profit margin was lower in 2025, compared to prior years due to higher COGS driven by general inventory price increases and broader inflationary pressures.

<i>In USD</i>	<i>2023</i>	<i>2024</i>	<i>2025</i>
<i>NAV</i>	<i>253,264</i>	<i>578,679</i>	<i>1,614,130</i>
<i>No of shares</i>	<i>2,934</i>	<i>1,207</i>	<i>2,934</i>
<i>NAV/Share</i>	<i>86</i>	<i>479</i>	<i>550</i>
<i>Profit after Tax</i>	<i>267,537</i>	<i>128,236</i>	<i>204,900</i>
<i>No of shares</i>	<i>2,934</i>	<i>1,207</i>	<i>2,934</i>
<i>EPS</i>	<i>91</i>	<i>106</i>	<i>70</i>

Revenue Growth

Over the past three years, Ziweto Enterprises has demonstrated significant growth in its total revenue, with an impressive average compound annual growth rate (CAGR) of 21%. The company generates revenue from two primary business lines: Ziweto Agrovets Shops (ZAS) and Ziweto Nutrition Solutions (ZNS) Feed Mill. In FY25, ZAS contributed 74% of total revenue, while ZNS accounted for 24%. In comparison, during FY24, ZAS represented 78% of total revenue and ZNS contributed 22%. Revenue nearly doubled in FY25, primarily driven by upward pricing adjustments and improved availability of USD-denominated working capital, which enhanced the Company's capacity to procure inventory and support higher sales volumes.

The significant 91% revenue growth in 2025 is largely driven by the expansion of Ziweto Agrovets Shops, and Ziweto Nutrition Solutions – Feed Mills (see revenue breakdown chart at the beginning of section 2 for more details).

CAGR Analysis

CAGR	
2022-2023	60%
2022-2024	11%
2022 - 2025	33%
2023 - 2025	21%

The Compound Annual Growth Rate (CAGR) is calculated based on the audited consolidated revenue of the Group.

The Group has demonstrated a solid growth trajectory over the period under review. While revenue growth normalised to a CAGR of 11% between FY22 and FY24, the inclusion of FY25 performance has strengthened the overall growth profile, resulting in a CAGR of 33% over the FY22–FY25 period.

On a more recent basis, the Group recorded a CAGR of 21% between FY23 and FY25, reflecting continued expansion in operations. Overall, the trend indicates sustained growth, supported by increased trading activity and operational scale-up across the Group’s business segments.

Profitability

EBITDA increased from USD 255k in FY2024 to USD 336k in FY2025, driven by strong revenue growth during the period. However, EBITDA margin declined from 25% to 17%, reflecting higher cost of sales and continued pressure on input costs, compounded by inflationary conditions and foreign exchange constraints in Malawi.

Profit after tax followed a similar trend, increasing from USD 128k in FY2024 to USD 205k in FY2025, while net profit margin remained broadly stable at 11% (FY2024: 12%). The margin compression is attributable to elevated cost of goods sold and higher operating expenses, driven by general price increases across key inputs, increased production at ZNS, and stronger activity levels at ZWA. Additional cost pressures arose from higher rental and operational expenses, fuel price increases, and increased staff costs linked to business expansion and structural changes in employee benefits.

Foreign exchange shortages further contributed to cost pressures, requiring alternative sourcing of foreign currency for supplier payments at less favourable rates. Overall, while profitability improved in absolute terms due to scale, margins remained constrained by inflationary and foreign exchange-related pressures.

Liquidity

The Group’s liquidity position has improved significantly, with the current ratio increasing from 1.3x in 2023 to 4.6x in 2025. This reflects a strengthening of the Group’s working capital position, with working capital increasing from USD 388k in 2023 to USD 805k in 2025, alongside a substantial increase in cash and cash equivalents to USD 428k in 2025.

The improvement is primarily driven by higher levels of current assets, notably inventory and trade receivables, in line with the expansion in trading activity. The increase in inventory levels, particularly within the Group’s merchandising operations, is also consistent with the higher cost of sales recorded during the period, reflecting increased procurement to support volume growth.

Overall, the elevated current ratio indicates strong short-term solvency, supported not only by working capital expansion but also by improved cash reserves, although it also reflects a greater proportion of capital being allocated to working capital components.

Gearing

The Group’s gearing ratio decreased from 0.43x in 2023 to 0.18x in 2024, before increasing moderately to 0.23x in 2025. The initial reduction reflects a strengthening of the Group’s capital structure, supported by improved equity and reduced reliance on debt. The subsequent increase in 2025 is attributable to additional funding

requirements to support the expansion of operations and increased working capital needs, particularly in relation to inventory build-up.

Notwithstanding this increase, the gearing level remains relatively low, indicating a prudent level of leverage and providing the Group with sufficient headroom to support future growth initiatives.

xii. Research and Development

Ziweto Enterprises adopts a practical and partnership-driven approach to research and development, focused on improving livestock productivity and supporting the adoption of modern farming practices among smallholder farmers in Malawi.

The company works closely with its network of Livestock Lead Farmers to deliver livestock extension services, provide technical support, and facilitate knowledge transfer at the farm level. This approach is consistent with its broader objective of improving farmer productivity, food security, and income generation.

In addition, Ziweto actively collaborates with international suppliers of veterinary and animal nutrition products to identify key challenges faced by farmers and to adapt product offerings to local market conditions. This is aligned with its business model of partnering with established manufacturers to provide affordable and accessible livestock solutions in Malawi.

As part of these initiatives, Ziweto Enterprises has undertaken the following:

- i. Collaboration with **Hester Biosciences Limited** to distribute a thermostable Newcastle Disease (NCD) vaccine, enabling off-grid smallholder farmers to reduce poultry mortality and improve productivity; and
- ii. Collaboration with **Interchemie** to redesign product packaging into smaller, more affordable units (e.g. 30g dewormers), thereby enhancing accessibility for low-income farmers.

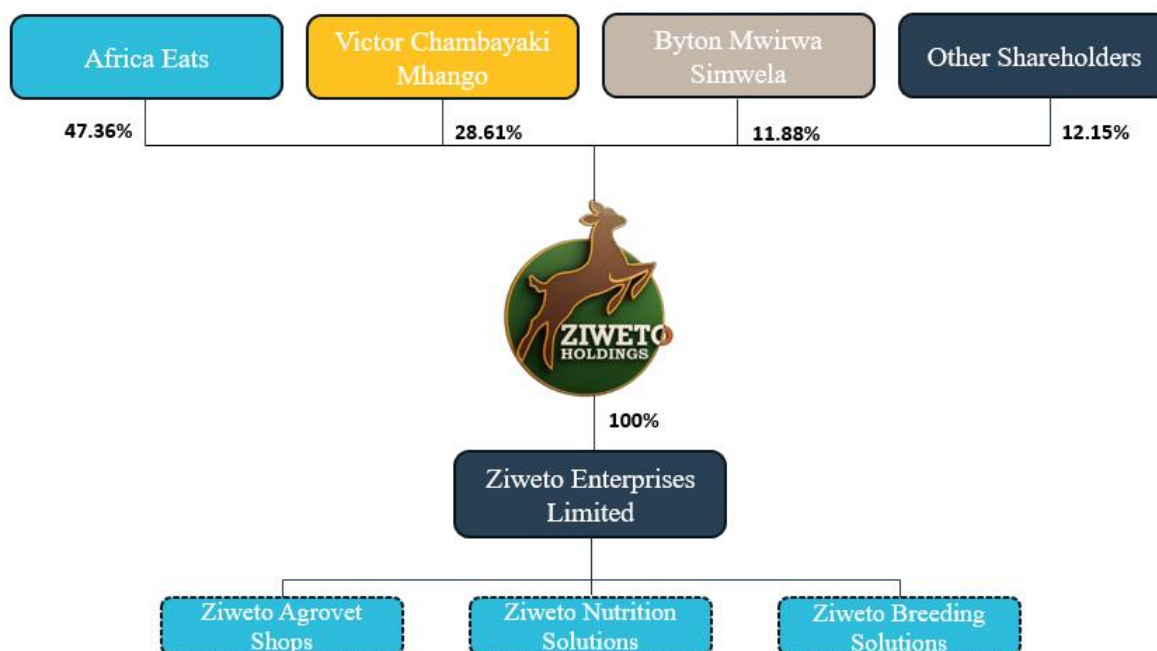

Within Ziweto Nutrition Solutions, the Company collaborates with partners such as Urban Farmer and Exchange Belgium to develop and refine feed formulations, taking into account locally available raw materials and cost considerations.

Looking ahead, Ziweto Enterprises plans to further strengthen its innovation capabilities through the establishment of a more structured research and development function, aimed at enhancing product development, improving operational efficiency, and supporting long-term growth across its integrated livestock value chain.

5. COMPANY STRUCTURE

i. Company structure

The Company structure is set out below:-

ii. Share capital

Information regarding the issued share capital of the Company, the shareholders of the Company holding in excess of 5% of the voting shares immediately prior to the SEM listing, alterations of capital, a summary of offers of shares by the Company to the public since incorporation and ancillary information is set out in **Annexure 2**.

iii. Constitution

Extracts from the Company's constitution are set out in **Annexure 3**.

6. EMPLOYEES

As at the last practicable date, Ziweto Holdings did not have any employees.

Ziweto Enterprises on the other hand, has approximately 64 employees, 42 employees in full time employment and more than 17 employees in part-time employment. The employees are engaged in various roles, including veterinary services, retail as shop assistants, within the breeding business unit as production workers, managers. The company also employs farm and hatchery workers.

Ziweto is on a growth trajectory and will need to hire more staff going forward in order to meet the demands of the market and its customers.

Figure 1: Ziweto Enterprises Team

7. COMMISSIONS PAID AND PAYABLE

No amount has been paid, or accrued as payable, since incorporation, as commission to any person, including commission so paid or payable to any sub-underwriter that is the holding company or a promoter or director or officer of the Company, for subscribing or agreeing to subscribe, or procuring, or agreeing to procure, subscriptions for any securities of the Company.

Since incorporation, there have been no commissions paid or are payable in respect of underwriting by the Company.

Since incorporation, the Company has not entered into any promoter's agreements and as a result no amount has been paid or is payable to any promoter.

8. MATERIAL CONTRACTS

The Company started its operations in July 2024, and there was no material contract entered into (other than contracts entered into in the ordinary course of business) by the Company since then.

9. DIRECTORS AND RELATED PARTIES' INTEREST IN SHARES

As at the last practicable date, Victor Mhango and Byton Simwela held 28.61% and 11.88% of the issued shares of the Company respectively. Michael Libes also holds an indirect interest of 2.63% in the issued shares of the Company, through his shareholding in Africa Eats.

None of the other directors or advisors of the Company have or have had an interest in any shares or options in respect of shares as at the last practicable date.

10. EXPENSES FOR THE LISTING

The estimated expenses relating to the listing of the additional Ziweto Holdings shares on the SEM, which have been or expected to be incurred are set out below:

Expenses	USD
Professional and advisory fees	5,000
SEM application and listing fees	4,700
Total	9,700

SECTION TWO –DETAILS OF THE APPLICATION FOR LISTING OF ADDITIONAL SHARES

1. REASONS FOR CAPITAL RAISE

The capital raise will primarily support Ziweto Enterprises Limited's continued expansion and operational scaling across its integrated livestock value chain. Funds will be allocated towards increasing production capacity, including the expansion of feed manufacturing facilities, development of poultry breeding (hatchery) operations, and the establishment of commercial poultry farming and processing (abattoir) infrastructure.

In addition, the capital will support working capital requirements, including bulk procurement of raw materials and inventory to ensure consistent product availability, as well as the expansion of the Company's agrovet retail network and distribution capabilities to meet growing demand across Malawi.

2. ANTICIPATED APPLICATION OF THE PROCEEDS FROM THE INITIAL PRIVATE PLACEMENT, AND SUBSEQUENT PLACING(S)

The proceeds from the private placement(s) will be used primarily to invest further into Ziweto Enterprises, thereby supporting its expansion plans.

Part of the funds raised will be used as working capital by Ziweto Holdings.

3. SALIENT DATES AND TIMES FOR TARGETED INVESTORS

Further details of any offer, including salient dates and time, the number of shares being offered and the offer price will be communicated to targeted and the market in due course.

4. TERMS, CONDITIONS AND PAYMENT FOR SHARES

Participation in the Private Placement(s)

Only targeted investors may participate in the private placement(s)

Application and payment of shares

Applicants will be required to pay for the shares *via* bank wire transfers

Issue and allocation of shares

Ordinary Shares will be issued subject to the provisions of the Constitution of the Company and will rank *pari passu* in all respects, including dividends, with any existing issued Ordinary Shares of that particular class. The Ordinary Shares will be issued either in registered form or in certificated form.

The basis of allocation of the Ordinary Shares will be determined on an equitable basis by the Board.

The Board shall, pursuant to applicable laws, these Listing Particulars and the Constitution of the Company, be entitled to refuse any application for subscription of Ordinary Shares at its sole discretion.

Over-subscription

The maximum number of shares that can be subscribed for and issued in terms of the private placement(s) is 1,000,000. In the event of an over subscription, shares will be allocated and issued at the discretion of the directors on an equitable basis. Factors to be considered by the board in allocating shares include promoting liquidity. Tradability and an orderly after-market in the shares of the Company.

Simultaneous issues

No shares of the same class will be issued simultaneously or almost simultaneously with the issue of Ordinary Shares for which application is being made.

Anti-Money Laundering provisions

As part of its responsibility for the prevention of money laundering, the Company will require a detailed verification of each shareholder's identity and the source of the payment. Depending on the circumstances of each shareholder, a detailed verification might not be required in the case of shareholders qualifying under the reduced or simplified due diligence regime based on the applicable laws.

The Company reserves the right to request such information as is necessary to verify the identity of a subscriber or shareholder and its source of income and wealth at any time after the application for subscription. In the event of delay or failure by the shareholder to produce any information required for verification purposes, the Company may refuse to accept the application and the subscription monies relating thereto.

5. UNDERWRITING

The placement(s) will not be underwritten and is(are) not subject to an underwriting commission. Future placement(s) may be underwritten and may be subject to an underwriting commission.

6. AUTHORITY TO ISSUE ADDITIONAL SHARES

On 20 June 2025, the shareholders of the Company passed a resolution authorising the Board to issue up to 1,000,000 additional shares in terms of private placement(s) and/or consideration issues to be undertaken, subject to the Mauritian Companies Act 2001, the Mauritian Securities Act 2005, the SEM Listing Rules and the Company's Constitution, and that such authority given to the directors shall be valid for a period of twelve months from the date of the resolution, or until the Company's subsequent annual meeting of shareholders. The shareholders' authority will be renewed at the next annual general meeting.

SECTION THREE – RISK FACTORS

A number of factors may affect the result of operations, financial conditions and prospects of the Company and Ziweto Enterprises. This section describes the risk factors which are considered by the Board to be material. However, these factors should not be regarded as a complete and comprehensive statement of all potential risks and uncertainties.

Additional risks not presently known to the Board or that the Board currently considers to be immaterial may also adversely impact the Company's business operations. The business, growth prospects, financial condition, and/or results of operations of high-growth companies could be materially adversely affected by any of these risks.

The value of the shares could decline due to the materialisation of any of these risks and potential investors could lose part or all of their investment. However, the management of the Company possesses sufficient expertise to implement mitigating measures to manage the impact of such business risks. The management proactively reviews such risks periodically and remediates them through timely interventions.

Ziweto Enterprises is implementing a comprehensive risk management framework that assesses a wide variety of risk including financial risks (e.g., liquidity risk and foreign currency risk), environmental risks (e.g., climate change, environmental degradation and pollution, adherence to environmental and social standards at the level of local governments, industry specific and product specific standards and requirements), value chain risks (e.g., sourcing from small holder farmers, accessing various local and imported inputs, logistics and distribution, market risks), and governance risks (e.g., reputational, limited or ineffective controls within the company, ethical misconduct and failure to comply with local and global regulations and standards).

In order to protect the interests of the Company's shareholders, the Company has implemented a structured approach to identify and assess risks, develop and implement risk mitigation measures that are benchmarked against local and global standards, monitor and evaluate the effectiveness of the strategies, report to all relevant stakeholders and have both internal and external audit of the controls and outcome. Then repeat the entire process. This continuous process of improvement covers all risks identified in the previous paragraph.

Ziweto Enterprises seasoned team has 10 decades of combined experience, specializing in key areas such as leadership, financial management, business development, veterinary products, animal feed products and food processing. With a proven track record of successfully navigating the challenges of early-stage and growth-stage animal feed products and food processing companies, particularly in the Malawi market, Ziweto enterprises is well-equipped to identify the risks involved in growing its market share in the industry.

The following section identifies a few of the key risks and demonstrates some of the key risk mitigation measures that the company has implemented.

1. CAPITAL AND INVESTMENT RISK

Early and growth-stage companies carry specific risks. For Ziweto Holdings, whose primary asset is Ziweto Enterprises, the capital investment in the latter company is subject to various unpredictable factors. Many unforeseeable events, including actions by customers, vendors, government agencies, and competitors in addition to domestic/international economic and political developments may cause issues which adversely affect such companies in the short and longer terms.

While management of the Company endeavours to comply with legal and regulatory frameworks, there remains an investment risk that Ziweto Holdings could suffer a loss of capital. Given that Ziweto Holdings' sole investment is in Ziweto Enterprise, any downturn in Ziweto Enterprise's performance could severely impact shareholder returns, potentially resulting in a loss of part of an investor's capital.

A key risk mitigation factor for Ziweto Holdings is the support received from its largest shareholder (outside of the founder), Africa Eats. Africa Eats employs a number of risk assessment and mitigation tools to manage its portfolio companies. For example, Ziweto Enterprise is currently implementing a risk management framework that systematically identifies, assesses, resolves and monitors various internal and external risks.

2. PORTFOLIO DIVERSIFICATION RISK AND RELIANCE ON ZIWETO ENTERPRISES

The success of Ziweto Holdings is significantly dependent upon the ability of Ziweto Enterprises to consistently perform well financially, as the sole subsidiary of Ziweto Holdings. Therefore, there could be a significant negative impact on shareholders' equity should the performance of Ziweto Enterprises be unsatisfactory.

The Board of Ziweto Holdings will closely monitor this risk. To ensure effective oversight, several Board members of Ziweto Holdings also serve on the Board of Ziweto Enterprises. This overlap allows for direct supervision and comprehensive understanding of Ziweto Enterprises' performance and strategic decisions. These Board members are tasked with reviewing Ziweto Enterprises' business regularly and ensuring that any issues are addressed promptly to protect the interests of the shareholders of both Ziweto Holdings and Ziweto Enterprises.

An important risk mitigation is the diversification to multiple revenue streams. Ziweto Enterprises has already diversified its revenue in terms of three business units. Furthermore, Ziweto Enterprises is scaling its product diversification strategy and is expected to expand into both local and regional markets. This will help to increase diversification of revenues and operations, although the Group remains primarily exposed to the Malawian market.

Ziweto Nutrition Solutions is planning to set up a soya bean processing plant to produce soya cake for its feed operation and sale to local and export markets. Soya meal, a key ingredient in animal nutrition products, is in high demand, making it a strategic investment for Ziweto Enterprises. These initiatives are expected to further strengthen Ziweto Enterprises' position in the livestock sector in Malawi. It is expected that soya production will contribute meaningfully to future revenues, and the success of this initiative will therefore affect the prospects of both Ziweto Enterprises and Ziweto Holdings.

Ziweto Enterprises has experience in soya-related inputs through its animal feeds and concentrate business, where it purchases soya meal and sells it to customers, and through its poultry business line, where it uses such inputs in feed production. Through this exposure, Ziweto Enterprises is seeking to reduce reliance on external third parties and build internal capacity to strengthen the value chain for both its internal poultry production and its distribution network. Collectively, this risk mitigation measure is expected to improve margins, reduce exposure to supply chain risks and strengthen the Company's presence in its existing and targeted markets.

3. HEALTH AND DISEASE OUTBREAKS

Livestock in Malawi are highly susceptible to various diseases and parasites due to the favorable environmental conditions that support the proliferation of pathogens and parasites. This poses a significant risk to the health and productivity of livestock, which can lead to major economic losses.

Inherent to Ziweto Enterprise, the company's business, particularly Ziweto Poultry, is largely exposed to potential loss of revenue if such outbreaks were to affect its livestock. To mitigate this risk, the company employs stringent health monitoring practices, collaborating closely with veterinarians to ensure early detection and prompt treatment of any health issues. Ziweto Enterprise also maintains a steady supply of essential medicines and vaccines, ensuring they are readily available when needed. Furthermore, the company actively engages in educating farmers and staff on best practices for disease prevention and management through workshops and extension services. These proactive measures are crucial in safeguarding livestock health and maintaining consistent productivity, despite the prevalent risks in the region.

On the other hand, the heightened risk of disease outbreaks also presents a potential opportunity for increased revenue through the Agrovets Shops, which supply veterinary products and animal health solutions. As disease risks heighten, the demand for veterinary medicines, vaccines, and preventive treatments typically rises among farmers who seek to protect their livestock. Ziweto Enterprises' well-established network of Agrovets Shops is well-positioned to meet this increased demand, offering a wide range of products and expert advice on livestock health management. This scenario not only helps in mitigating the impact of disease outbreaks on Ziweto Enterprises' own livestock but also strengthens its market presence and drives additional revenue through increased sales of veterinary products. By leveraging its extensive distribution network and expertise in animal health Ziweto Enterprises' can turn a potential threat into a growth opportunity, reinforcing its leadership in the agricultural sector.

Furthermore, Ziweto Enterprises has already begun the implementation of IFC's globally recognized Environmental and Social Management System (ESMS), which has a notable focus on the health and safety

standards. The implementation of IFC's ESMS, not only constantly improves health and safety standards, but contribute towards increased sales from globally recognized companies that require global standards to purchase from Ziweto Enterprises (e.g., hotels, supermarkets and restaurants).

4. STOCK MARKET PRICE AND NEGATIVE VALUE CORRELATION RISK

Now that the Company's ordinary shares are listed, the value of the shares could decrease as a result of a decline in both domestic and global stock markets. This risk is inherent to all publicly traded companies and can be influenced by a variety of factors, including economic downturns, geopolitical events, changes in interest rates, and market sentiment.

While these risks cannot be entirely eliminated, understanding the factors that influence stock market performance and employing strategic risk management practices can help mitigate their impact. Besides, the appointment of Tuesday Markets as Market Maker helps to stabilize trading and enhance liquidity in the Company's shares.

An additional risk mitigation is Ziweto Holdings focusing on maintaining its growth rate in order to remain on the High-Growth Segment of the SEM. More specifically, as the number of companies listed on the High-Growth Segment increases, there are more examples/evidence/data points for investors to see the ability of high growth companies to absorb potential negative effects such as economic downturns or geopolitical events. The positive company performance or fast paced recovery will encourage investors to purchase shares; and thereby have the share price reflect the performance of the underlying portfolio.

5. LIQUIDITY RISK

There is the risk that the trading volume of Ziweto Holdings' shares on the SEM is low, and it might be difficult for the Company to raise capital through equity issuance or to use its shares as collateral for financing. This can limit the Company's ability to quickly access funds when needed, especially in times of financial stress or when significant investments or acquisitions are planned. The sale of illiquid securities takes more time and effort than the sale of publicly traded securities and the fair market value of private securities is often lower when sales are rushed.

In addition, the SEM has approved regulations for market makers to operate on the High-Growth Segment. Tuesday Markets has been appointed as market maker by the Company, who has undertaken to create liquidity in the shares of Ziweto Holdings to be listed on the High-Growth Segment of the SEM. Either directly through its broker or during the closing auction on Tuesdays, Tuesday Markets will always, in normal market circumstances, endeavor to provide and maintain a reasonable bid and offer.

6. COUNTRY AND POLITICAL RISKS

Ziweto Enterprises operates within the Malawian economy, an economically challenging but relatively politically stable environment compared to many Sub-Saharan African nations. However, like any business operating in Sub-Saharan Africa, Ziweto Enterprises remains exposed to potential economic and political uncertainties that could impact its operations. These risks include shifts in government policies, regulatory changes, and broader political instability, all of which can affect Ziweto Enterprises' ability to maintain consistent production and distribution.

To mitigate these risks, Ziweto Enterprises is seeking to expand into regional and international markets, growing its sources of revenue both locally and through export-oriented activities (e.g., poultry and soya meal). This is expected to support diversification of revenues over time, although the Company remains primarily exposed to the Malawian market.

Regional export patterns for Malawi provide an indication of potential market distribution. For instance, soybean oilcake exports are primarily directed to Zimbabwe (approximately 35%), Tanzania (approximately 26%), Kenya (approximately 10%) and Mozambique (approximately 6%), while live poultry exports are highly concentrated in Mozambique, which accounts for over 90% of exports.

Additionally, establishing strong relationships with local stakeholders, including government authorities and community leaders, will be critical in navigating potential political or economic changes that could disrupt business operations. One example in which this is achieved is through the Livestock Lead Farmer model, which empowers a large number of indigenous smallholder farmers who now support the value chain for Ziweto Enterprises, as it directly affects their livelihoods.

It is important to note that political risks are not uniform across Africa, and Malawi's political landscape, while relatively stable, could still face challenges that affect individual sectors or projects of national importance, such as agriculture and food production. Political risk broadly refers to losses caused by the exercise or lack of political power, and this can be especially relevant in the context of shifting global markets, where political landscapes are increasingly unpredictable.

By actively engaging with stakeholders, monitoring the regional landscape, and progressively expanding its market presence, Ziweto Enterprises is better positioned to manage these risks and continue its growth trajectory.

7. COMPETITOR AND NEW ENTRANTS RISK

Currently, Ziweto Enterprises is a key player in the supply of veterinary products, operating in a sector that is fragmented and characterised by a large number of small and independent operators. While the market remains competitive, there are operational and scale-related challenges associated with building a reliable distribution network, maintaining supplier relationships, and ensuring consistent product availability. Despite this, there is a risk that new competitors could enter the market and capture a portion of Ziweto Enterprises' market share, potentially impacting revenues and profitability.

To counter this risk, Ziweto Enterprises focuses on continuously expanding and adapting its product offering in collaboration with its international suppliers. By providing a broad range of veterinary and animal nutrition products, the Company aims to meet the evolving needs of farmers and maintain its competitive position. In addition, the Company places emphasis on marketing, customer engagement and service quality to strengthen customer loyalty and attract new clients.

Maintaining product quality and reliability of supply are also important components of Ziweto Enterprises' strategy. The Company works closely with established suppliers to ensure that products meet required standards and remain consistently available in the market. This helps to support customer confidence and reduces the risk of losing customers to competing providers.

Furthermore, Ziweto Enterprises recognises the importance of maintaining strong relationships with its suppliers. By sustaining these relationships, the Company is better positioned to secure a steady supply of products and manage potential supply chain disruptions, which is critical in maintaining its presence in the market.

In summary, while the threat of new competitors entering the market remains, Ziweto Enterprises' focus on product range, supplier partnerships, distribution strength and customer engagement supports its ability to compete effectively within a fragmented market.

8. KEY-PERSON RISK AND LACK OF SKILLED LABOUR

Key-person risk (sometimes called key-man risk) refers to the potential negative impact on business operations if a critical employee, particularly a founder, is absent for an extended period of time, which may affect business continuity and future performance. The Group recognizes the significant role of its co-founders Victor Mhango (20 years of experience) and Byton Simwela (17 years of experience) who are key figures in the Group's success. To mitigate this risk, Ziweto Enterprises has appointed several experienced and trained executives to run operations. The collective experience of the team excluding Victor and Byton is over 65 years of collective experience. Ziweto management team experience includes Jeffrey's Bauleni, Operations Manager (21 years), Emelea Yasin, Regional Manager South (11 years), Tadala Kulemeka, Regional Manager North (5 years), Ungweru Gondwe, Finance and Admin Officer (10 years), Paul, Production Manager, Feed Mill (18 years), and Pauline, Quality Assurance and Safety Officer (5 years).

Additionally, the Company is implementing good governance practices at the Board level. This includes maintaining a proper balance of independent non-executive directors and executive directors to ensure that strategic decisions and oversight are not dependent on both founders, and either of them can take the decisions in the absence of the other. This governance structure aims to provide stability and continuity, even in the absence of key personnel.

Albeit most part of the population in Malawi are engaged in the agriculture sector, Ziweto Enterprise does face difficulty in finding skilled professionals in the veterinary field which can affect quality of service. In order to mitigate the risks, Ziweto Enterprise also actively invests in training and development programs for its employees,

and has established partnerships with local educational institutions, such as the Lilongwe University of Agriculture and Natural Resources to recruit qualified veterinary personnel.

9. DELAYS IN CERTIFICATION OF THE AGROVET SHOPS

One of the significant operational risks faced by Ziweto Enterprises is the potential delay in obtaining certification for its Agrovets Shops from the Pharmacy Medicines and Poisons Board of Malawi (PMPB). This certification is crucial for the legal operation of the shops, which sell veterinary medicines, vaccines, and other animal health products. Delays in obtaining these certifications can have several negative consequences for Ziweto Enterprises.

Firstly, such delays could directly hinder the opening of new Agrovets Shops, slowing down Ziweto Enterprises' planned expansion and limiting its ability to capture new market opportunities. For instance, if Ziweto Enterprises plans to open a new Agrovets Shop in a high-demand area, but the certification process is delayed, the company may miss out on critical sales opportunities, allowing competitors to fill the gap and gain market share.

Secondly, delays in certification can also affect Ziweto Enterprises' financial performance. The company typically incurs significant upfront costs when setting up new shops, including investments in infrastructure, inventory, and staffing. If the certification process is delayed, these investments remain tied up without generating any revenue, leading to potential cash flow issues and reduced return on investment. This situation can be particularly challenging if Ziweto Enterprises has made substantial financial commitments based on the expected timely opening of these shops.

For example, suppose Ziweto Enterprises had planned to open five new Agrovets Shops within a fiscal year, anticipating that each shop would contribute to a specific revenue target. If certifications for these shops are delayed, Ziweto Enterprises would not only fail to meet its revenue projections but also face increased operational costs due to the prolonged preparation phase. This could lead to a shortfall in expected earnings, potentially impacting shareholder confidence and the company's overall financial stability.

To mitigate the risk of certification delays, Ziweto Enterprises adopts a proactive approach by submitting certification applications well in advance of the planned opening dates. This strategy ensures that any unforeseen delays in the approval process do not disrupt the company's expansion timeline. To date, implementation of this strategy has reduced certification delays to 30 days, which as stated earlier, Ziweto can submit this application before the agrovets shop is fully set up in order to reduce the timeframe to just a few days from the time Ziweto is ready to receive the certification.

10. FREQUENT AND EXTENDED POWER OUTAGE

In Malawi, frequent and extended power outages are a significant operational challenge that can severely impact the production capacity and financial performance of the different business units within Ziweto Enterprises. Power disruptions are common, and they can last for extended periods, posing multiple risks to Ziweto Enterprises' operations, particularly in its distribution, manufacturing facilities and poultry operations.

Ziweto Agrovets shops

Power outages also pose a risk to temperature-sensitive veterinary products. Many of these products require consistent refrigeration to remain effective. Extended periods without power can lead to temperature fluctuations, causing vaccines to spoil or expire prematurely. This not only leads to financial losses due to the need to discard ineffective products but also compromises the health of Ziweto Enterprises' livestock if compromised vaccines are administered.

To mitigate this risk, Ziweto Enterprises has implemented rigorous temperature monitoring protocols and equipped its storage facilities with backup power systems, including solar-powered refrigeration units. These systems ensure that vaccines and other sensitive products are kept at the required temperatures, even during prolonged power outages.

Ziweto Nutritions Solutions

One of the most immediate impacts of power outages is the loss of production capacity at Ziweto Enterprises' manufacturing facilities. These facilities are responsible for producing essential products such as animal feed, which is a critical input for Ziweto Enterprises' operations and for its customers. This interruption not only affects

Ziweto Enterprises' ability to meet market demand but also results in wasted resources and increased operational costs due to the inefficiencies of restarting production processes.

To mitigate this risk, Ziweto Enterprises has taken proactive measures by installing standby generators and solar power systems at its key production sites. The standby generators provide immediate backup power, ensuring that production can continue even during prolonged power outages. Additionally, the installation of solar power systems offers a sustainable and cost-effective solution, reducing Ziweto Enterprises' reliance on the unstable national grid and ensuring a continuous power supply.

Ziweto Breeding Solutions

For Ziweto Enterprises' poultry operations, power outages present a particularly severe risk. Chickens are highly sensitive to changes in their environment, and power disruptions can lead to significant increases in mortality rates. For instance, without electricity, ventilation systems that regulate the temperature in poultry houses may fail, leading to overheating or inadequate air circulation. This can cause stress and increase the vulnerability of chickens to diseases, ultimately resulting in higher mortality rates and financial losses.

To address this risk, Ziweto Enterprises carefully plans its production schedules to ensure that critical operations, such as feeding and temperature regulation, can be managed even during power outages. The use of solar power systems in poultry houses is particularly beneficial, as it ensures that essential systems remain operational, maintaining a stable environment for the chickens.

11. REGULATORY RISKS

Legal or regulatory change may affect the Company and impose potential limits on the Company's flexibility in implementing its strategy. Any change to laws and regulations relating to the areas in which the Company operates may have an adverse effect on the Company. For example, changes in taxation laws could adversely affect Ziweto Holdings' financial prospects and shareholder returns. Ziweto Holdings must stay informed about potential regulatory changes and adapt its strategies accordingly to minimize the impact on its operations.

In order to mitigate these risks, the Company will employ local experts / consultants (in Mauritius and Malawi) to ensure compliance with updated regulations.

IFC's ESMS helps to manage regulatory risk by ensuring constant monitoring of changes in regulations. Furthermore, Ziweto Enterprises can leverage the collective resources of other Africa Eats' companies located within the same geographic location to mitigate the risk of changes in regulations (e.g., peer learning, shared policies, systems and staff). In addition, participation in industry bodies (i.e., private sector companies that come together to represent their collective interest and engage the government) can be an effective mechanism for engaging with government to address any adverse regulations. Finally, expansion of Ziweto Enterprises sales and eventually its operations across countries and regions is a further risk mitigating mechanism.

12. ENVIRONMENTAL AND SOCIAL RISK

These risks include environmental risks such as spills, accidents, dirty energy, effluents, water contamination, climate change, natural disasters, destruction of biodiversity, and social risk such as labour unrest, human accidents, ill health and diseases, child labour and displacement of people to name a few. The Company, at Group level, has a high standard for environmental and social risk management, and as such only invests with parties that have experience in addressing environmental and social risks and who also consider appropriate mitigants.

Ziweto Enterprises monitors environmental and social risks (E&S) through IFC's ESMS. More specifically, a risk assessment is conducted and reviewed annually, the highest risks are identified and an implementation plan is then followed, which Africa Eats oversees.

In addition, Ziweto Enterprises engages with all stakeholders within their value chain including staff, customers, farmers, and any other stakeholder. Through this process, avenues for risks and concerns are collected and shared with Ziweto Enterprises, and reviewed by Africa Eats. This ensures that the Company is not creating any negative impacts on both the environment and community. IFC's ESMS is a dynamic system that builds in constant improvement each year as Ziweto Enterprises grows in size and the complexity around managing environmental and social risk constantly increases.

13. TAX

The Company has structured the parent-subsidary relationship in a manner that is tax-efficient for its shareholders. However, there can be no assurance that the structure of the Company or any investment will be tax-efficient to any particular investor. Investors are urged to consult their tax advisors with reference to their specific tax situations with reference to any special issues that the investment in the Company may raise for investors.

14. CURRENCY RISKS

Due to the weak and unstable local currency in Malawi (MK), there are very often increases in the product prices which tend to scare farmers away. To counter this 'inflation' problem, Ziweto Enterprises is proceeding with bulk purchases most of the time.

The availability of foreign currency is also a big challenge in Malawi. There are difficulties accessing foreign currency to pay suppliers, resulting in stockouts and broken relationships with manufacturing partners, which might cause disruptions in the business of Ziweto Enterprises.

Ziweto Enterprises intends to mitigate this risk by buying its stock in bulk and negotiating fixed pricing agreements with suppliers. Furthermore, the company will also start exporting soya and commercial poultry. Export transactions are typically conducted in USD (specifically the price per soy cakes is quoted in USD hence it automatically hedges changes in currency), this will help Ziweto Enterprises to have access to foreign currency to purchase veterinary products. Some of the key markets targeted from exports include DRC, Mozambique, Kenya and Tanzania.

15. RISK OF WITHDRAWAL FROM THE SEM

The SEM will allow the Company to remain listed on the High-Growth Segment as long as it demonstrates at least 10% on a CAGR basis over the prior three financial years in audited consolidated revenue. Where the Company has not been able to demonstrate such growth, it will no longer be suitable for the High-Growth Segment. Reference can be made to Section One, Part 4 (xi) for the financial highlights of the Company.

In order to mitigate this risk, Ziweto Enterprises constantly assesses its performance. Furthermore, Africa Eats monitors and intervenes to address any potential growth challenges.

SECTION FOUR – STATEMENTS AND REPORTS REGULATING THE SEM LISTING

1. WORKING CAPITAL

The directors of the Company, are of the opinion that, taking into account the additional capital that will be received by the Company following the private placement(s), the working capital available to the Company will be sufficient for its present requirements, that is at least for the next 12 months.

2. LISTING AND DEALINGS ON THE SEM

An application has been made for the listing of up to 1,000,000 additional Ziweto Holdings shares, on the SEMx.

3. SIGNIFICANT CHANGES

There has been no significant change in the financial or trading position of Ziweto Holdings since its last audited financial statements published in March 2026.

There have been no material changes in the business of Ziweto Holdings since incorporation and no change in the nature of business is in contemplation.

SECTION FIVE – ADDITIONAL MATERIAL INFORMATION

1. HISTORICAL FINANCIAL INFORMATION

The abridged audited financial statements of Ziweto Holdings for the financial years ended 31 December 2024 and 31 December 2025 are also set out in **Annexure 4**.

The abridged unaudited financial statements for the quarter ended 31 March 2026 is provided in **Annexure 5**.

For reference, the Accountant's Report prepared by external auditors and covering the financial years ended 31 December 2022, 2023 and 2024 is also set out in **Annexure 4** and falls under the responsibility of the board of directors of Ziweto Enterprises.

2. DIVIDENDS AND DISTRIBUTIONS

- i. There are no plans for the time being to distribute dividends or other forms of distributions to the Company's shareholders. All profits of the Company are expected to be re-invested into further growth initiatives. Investors and shareholders shall benefit from the increase in the price per Ziweto Holdings share, allowing them to realize profits through the sale of Ziweto Holdings shares at their discretion.
- ii. Subject to the laws of Mauritius, the directors have absolute discretion as to the payment of any dividends, including interim dividends, on the shares. In the event dividends are paid, payments will be made in accordance with the laws of Mauritius. In addition, the directors may, in their discretion, declare scrip dividends in the form of a bonus issue of additional shares in lieu of a cash dividend.
- iii. Once growth objectives have been achieved, the directors may reassess the situation and adjust the dividend policy to align with investors' expectations. No dividend shall be declared or paid unless the directors are satisfied or have reasonable grounds that immediately after the dividend, the value of the Company's assets will exceed its liabilities plus stated capital and the Company will be able to pay its debts as they fall due.
- iv. The amount of any dividend will be at the complete discretion of the Board and will depend on a number of factors, including expectation of future earnings, capital requirements, financial conditions, future prospects, laws relating to dividends, and other factors that the Board deems relevant.
- v. No dividends have been declared as of the last practicable date.
- vi. No shares of the Company are currently in issue with a fixed date on which entitlement to dividends arises and there are no arrangements in force whereby future dividends are waived or agreed to be waived.

3. INFORMATION ON SUBSIDIARIES

As at the last practicable date, the sole subsidiary of Ziweto Holdings is Ziweto Enterprises Limited. The acquisition was made on 25 September 2024.

For further information relating to Ziweto Enterprises, reference can be made to Section One Paragraph Four.

4. ACQUISITIONS

Other than the information disclosed in Section 3 above, no other material immovable properties, fixed assets, securities and/or business undertakings have been acquired by the Company since incorporation or are in the process of being or are proposed to be acquired by the Company (or which the Company has an option to acquire).

5. DISPOSALS

No material immovable properties, fixed assets, securities in subsidiaries and/or business undertakings have been disposed of by the company since incorporation nor are any of these to be disposed of in the first six months following the SEM Listing

6. ADVANCES, LOANS AND BORROWING

As at the last practicable date:-

- i. Ziweto Enterprises has 2 long-term loans. The first loan is with **NBM Development Bank Limited**, secured in 2023, and has an interest rate of 11%.

The second loan is with **United Nations Capital Development Fund (UNCDF)** obtained in December 2025, bearing an interest rate of 25%.
- ii. No other loans receivable is outstanding by the Company or Ziweto Enterprises;
- iii. No loan capital is outstanding in the Company or Ziweto Enterprises;
- iv. No loans have been made or security furnished by the Company to or for the benefit of any director or manager or associate of any director or manager of the Company; and
- v. There were no outstanding convertible debt securities.

7. CORPORATE GOVERNANCE

- i. Ziweto Holdings is committed to upholding the principles of the National Code of Corporate Governance for Mauritius (2016).
- ii. In so doing, the directors recognise the need to conduct the enterprise with integrity and in accordance with generally acceptable corporate practices. This includes timely, relevant and meaningful reporting to its shareholders and other stakeholders and providing a proper and objective perspective of the Company and its activities.
- iii. The directors shall, accordingly, establish mechanisms and policies appropriate to the Company's business according to its commitment with best practices in Corporate Governance in order to ensure the principles of the National Code of Corporate Governance for Mauritius (2016) are upheld to the fullest extent possible. The board will review these mechanisms and policies from time to time.

8. LITIGATION

The Company is not involved in any governmental, legal or arbitration proceedings and, in so far as the directors are aware, there are no governmental, legal or arbitration proceedings pending or threatened against them, or being brought by the Company since incorporation which may have, or have had in the recent past, a significant effect on the financial position or profitability of the Company.

9. MATERIAL COMMITMENTS, LEASE PAYMENTS AND CONTINGENT LIABILITIES

The Company does not have any capital commitments, financial lease payments and contingent liabilities as at the last practicable date, other than in the ordinary course of business.

10. MATERIAL COMMITMENTS IN RESPECT OF ACQUISITION AND ERECTION OF BUILDINGS, PLANT AND MACHINERY

As at the last practicable date, the Company does not have any material commitments for the purchase and erection of buildings, plant or machinery.

11. PRINCIPAL IMMOVABLE PROPERTY LEASED OR OWNED

As at the last practicable date, the Company does not own any immovable property nor has the Company entered into any leases in respect of immovable property.

12. TAXATION

Mauritian taxation provisions

Ziweto Holdings is liable to income tax in Mauritius at the rate of 15% on its worldwide income and to a 2% Corporate Climate Responsibility (CCR) levy (if the company will have a turnover over MUR 50 million in a tax year). As from 1 January 2019, an income tax exemption of 80% (Partial Exemption Regime) applies to the following streams of income of all tax resident Companies in Mauritius including companies holding a Global Business Licence:

- a) Foreign source dividend, provided that the dividend has not been allowed as a deduction in the source country and the company satisfies the conditions relating to the substance of its activities as prescribed
- b) Interest derived by a company other than a bank, a non-bank deposit taking institution, a money changer, a foreign exchange dealer, an insurance company, a leasing company, a company providing factoring, hire purchase facilities, or credit sales facilities
- c) Profit attributable to a permanent establishment which a resident company has in a foreign country
- d) Income derived by a Collective Investment Scheme (CIS), Closed End Fund (CEF), CIS Manager, CIS Administrator, Investment Advisor or Asset Manager licensed or approved by the FSC. Interest income derived by a CIS or CEF is subject to an income tax exemption of 95%
- e) Foreign Income derived by a company engaged in the leasing of ships, aircrafts, locomotives and trains, including rail leasing
- f) Income derived by a company from reinsurance and reinsurance brokering activities
- g) Income derived by a company from leasing and provision of international fibre capacity
- h) Income derived by a company from the sale, financing arrangement, asset management of aircraft and its spare parts and aviation advisory services related thereto

The exemption on dividend shall be granted provided that Ziweto Holdings (a) complies with its filing obligations under the Companies Act or the Financial Services Act; and (b) has adequate resources for holding and managing share participations.

Other than the foreign source dividend, the partial exemption shall be granted provided that the Company:

- (i) Carries out its core income generating activities in Mauritius
- (ii) Employs, directly or indirectly, an adequate number of suitably qualified persons to conduct its core income generating activities; and
- (iii) Incurs a minimum expenditure proportionate to its level of activities

It is to be noted that if a company claims the partial exemption with respect to any of the specified above-mentioned income, it will not be eligible to claim credit for actual foreign taxes suffered on such income. The nature and amount of tax payable by the company (actual foreign taxes) is dependent on the availability of relief under the various tax treaties in the jurisdictions in which the Board chooses to invest from time to time.

Under the Mauritius fiscal regime as at the last practicable date:

- There are no withholding taxes on dividends distributed by a company to its shareholders and no capital gains taxes. Accordingly, the capital gains realised by a non-resident shareholder on the disposal of its shares in the company are not subject to tax in Mauritius.
- Royalty paid to a non-resident by the company out of its foreign source income is tax exempt.

13. DOCUMENTATION AVAILABLE FOR INSPECTION

Copies of the following documents will be available for inspection at the Company's registered office during business hours from the date of issue of the Listing Particulars for a minimum period of 14 calendar days:

- i. The signed Listing Particulars
- ii. The Constitution of the Company
- iii. The unaudited interim financial statements of the Company for the quarter ended 31 March 2026; and
- iv. The audited financial statements for the years ended 31 December 2024 and 31 December 2025.

14. DIRECTORS' RESPONSIBILITY STATEMENT

The directors whose names are given in **Annexure 1**:

- i. have considered all statements of fact and opinion in these Listing Particulars;
- ii. collectively and individually, accept full responsibility for the accuracy of the information given;
- iii. certify that, to the best of their knowledge and belief, there are no facts the omission of which would make any statement false or misleading;
- iv. have made all reasonable enquiries in this regard; and
- v. certify that, to the best of their knowledge and belief, these Listing Particulars contains all information required by law and the Listing Rules.

SIGNED ON 19 JUNE 2026 FOR AND ON BEHALF OF **ZIWETO HOLDINGS LIMITED**

Mr. Victor Chambayika Mhango,

who warrants that he is duly authorised thereto by resolution of the board of directors of Ziweto Holdings.

DIRECTORS, EXECUTIVE MANAGEMENT, FOUNDERS, APPOINTMENT, QUALIFICATION, REMUNERATION AND BORROWING POWERS

1. FULL NAMES, NATIONALITIES, AGES, BUSINESS ADDRESSES, ROLES, QUALIFICATIONS, OCCUPATIONS AND EXPERIENCE OF EACH DIRECTOR

The full names (including former names, if applicable), ages, nationalities, qualifications, roles, business addresses, occupations and experience of each of the directors of the Company and the proposed directors of the Company and executive management are set out below:

Directors of Ziweto Holdings			
Director name, age, nationality and qualification	Role	Business address	Occupation and experience (profile)
Victor Chambayika Mhango (44), Malawian Programme Development and Management Specialist with a BSc Agriculture from University of Malawi and MSc Development Studies from University of Leeds, Leeds, United Kingdom	Executive Director	Ziweto Enterprises Limited Kanengo Industrial Area, Bowler Beverages Compound, Plot 28/95 P.O. Box 30240 Lilongwe 3, Malawi	Victor is the founder of Ziweto Enterprises. Victor has over 20 years of work experience with both local and international organisations in Malawi. He worked with Heifer International, Land O' Lakes, Practical ActionTechnoServe. Victor has also mentored and advised several start-up agricultural social businesses in Malawi, specifically aimed at the economic empowerment of Malawi's youth and smallholder farmers. He is currently the Chief Executive Officer of Ziweto Enterprises Limited.
Byton Simwela (41), Malawian BSc Agriculture form University of Malawi and MSc Community Sustainability from Michigan State University	Executive Director	Ziweto Enterprises Limited Kanengo Industrial Area, Bowler Beverages Compound, Plot 28/95 P.O. Box 30240 Lilongwe 3, Malawi	With about 15 years of experience in the fields of Agriculture Extension and Rural Development, Byton joined Victor in 2016 to develop Ziweto Enterprises. He has a Master of Science in Community Sustainability and was previously employed at the Ministry of Agriculture and Food Security in Malawi, where he worked on the implementation of agriculture extension development policies and organisation of agricultural extension programs and activities. He is the current COO of Ziweto Enterprises.

2. REMUNERATION OF THE DIRECTORS OF ZIWETO HOLDINGS

During the year ended 31 December 2025, an amount of USD 7,700 was paid to Rogers Capital Corporate Services Ltd in respect of the services provided by the resident Directors. This comprised of USD 2,200 in fees for the office held by the two resident Directors, USD 4,500 in Board Chairperson fees, and USD 1,000 in Board Committee membership fees.

The Executive Directors, namely, Mr. Victor Chambayika Mhango and Mr. Byton Mwirwa Simwela, and the Non-Executive Directors who served the Company during the period under review namely, Mr. Jumaane Akintola Tafawa (from 01 January 2025 to 04 April 2025) Mr. Michael Libes (from 04 April 2025 to 31 December 2025), have not received any remuneration during the year under review.

The remuneration of the three independent Directors namely Ms. Phyles Kachingwe, Mr. Tione Pascal Kaonga and Dr. Patricia Mayuni will be performance-based, which will be assessed over a two-year period (2025–2026). Any remuneration awarded pursuant to their performance assessment will be settled through issuance and allocation of shares in the Company. For the year ended 31 December 2025, their remuneration was accrued, but remains subject to the performance review which will be conducted after the year ended 31 December 2026. Accordingly, no remuneration has yet been paid for the year under review, and the actual number of shares to be awarded to them will be determined post completion of the performance evaluation exercise.

3. DIRECTORS' INTERESTS IN SECURITIES

The table below sets out the direct and indirect interests of the directors in Ziweto Holdings' issued ordinary share capital as at the last practicable date, including any directors who may have resigned during the last 18 months:-

Directors	Number of shares		Total	% of issued ordinary share capital
	Indirect	Direct		
Victor Chambayika Mhango	70.75	1,002,650	1,002,720.75	28.61
Byton Simwela	707.51	416,300	417,007.51	11.90
Tione Pascal Kaonga	-	-	-	-
Phyles Tatha Kachingwe	-	-	-	-
Dr. Patricia Mayuni	-	-	-	-
Michael Libes	92,191.28	-	92,191.28	2.63
Jumaane Akintola Tafawa	35,381.68	-	35,381.68	1.01
Madiihah Binte Beegum	-	200	200	0.006
Veerha Bhogun	-	-	-	-
Total	128,351.22	1,419,150	1,808,044.54	44.16

4. DIRECTORS' INTERESTS IN TRANSACTIONS

As at the Last Practicable Date, none of the directors have had any material beneficial interest, direct or indirect, in transactions entered into by the Company.

- during the current financial year; or
- during the two preceding financial years; or
- during any earlier financial year and which may still be outstanding.

No amount has been paid to any director (or to any Company in which he is interested (whether directly or indirectly) or of which he is a director or to any partnership, syndicate or other association of which he is a member) in the three years preceding the date of these Listing Particulars (whether in cash or securities or otherwise) by any person either to induce him to become or to qualify him as a director or otherwise for services rendered by him (or by the associate identity) in connection with the promotion or formation of the Company.

5. DIRECTORS' INTERESTS IN PROPERTY ACQUIRED OR TO BE ACQUIRED

None of the directors have had any material beneficial interest, direct or indirect, in any property acquired or proposed to be acquired by the Company or otherwise in the three years preceding the date of issue of these Listing Particulars and no amount has been paid during this period, or is proposed to be paid to any director.

6. TERMS OF OFFICE

None of the directors have entered into a service contract with the Company and accordingly the appointment of the directors is indefinite but remains subject to all applicable laws and the provisions of the Company's Constitution.

7. BOARD COMMITTEES

The Board has established an Audit and Risk Committee with the appropriate mix of Independent Directors and Executives in line with the Mauritian Code of Good Corporate Governance.

The Composition of the Board Committee is set out below:-

- i. Phyles Tatha Kachingwe (Chairperson)
- ii. Tione Pascal Kaonga
- iii. Jumaane Tafawa
- iv. Veerha Bhogun

The Audit and Risk committee's primary objective will be to provide the Board with additional assurance regarding the efficacy and reliability of the financial information used by the directors, to assist them in the discharge of their duties. The committee will be required to provide satisfaction to the Board that adequate and appropriate financial and operating controls are in place; that significant business, financial and other risks have been identified and are being suitably managed; and that satisfactory standards of governance, reporting and compliance are in operation.

8. CONSTITUTION

The relevant extracts of the Constitution of the Company providing for the appointment, qualification, retirement, remuneration and borrowing powers of the directors and the powers enabling a director to vote on a proposal, arrangement or contract in which he is materially interested are set out in **Annexure 3**.

9. BORROWING POWERS

As set out more fully in **Annexure 3**, the borrowing powers of the Company exercisable by the directors are unlimited and, accordingly, have not been exceeded since incorporation.

10. SUMMARY OF EXISTING OR PROPOSED CONTRACTS (WHETHER WRITTEN OR ORAL) RELATING TO DIRECTORS' AND MANAGERIAL REMUNERATION, RESTRAINT PAYMENTS, ROYALTIES AND SECRETARIAL AND TECHNICAL FEES

There are no existing or proposed contracts (whether written or oral) relating to directors or managerial remunerations, restraint payments, royalties or secretarial and technical fees.

There were no other contracts or arrangements in which the directors were materially interested, and which were significant in relation to the business of the Company.

SHARE CAPITAL AND SHAREHOLDING

1. MAJOR AND CONTROLLING SHAREHOLDERS

As at the date of these Listing Particulars, the following shareholders held 5% or more of the issued Ordinary Shares in Ziweto Holdings:

Name of Shareholder	Number of shares held	Percentage of issued ordinary share capital
1. Victor Chambayika Mhango	1,002,650	28.61%
2. Africa Eats Ltd	1,660,050	47.36%
3. Byton Simwela	416,300	11.88%
4. Tuesday Markets Ltd	316,029	9.06%
Total		100%

2. SHARES ISSUED OTHERWISE THAN FOR CASH

As part of the acquisition of the issued shares of Ziweto Enterprises by Ziweto Holdings, a total of 3,149,900 new Ziweto Holdings shares were issued to the existing shareholders of Ziweto Enterprises (being Victor Chambayika Mhango, Byton Simwela and Africa Eats Ltd) on 25 September 2024 in exchange for their shares held in Ziweto Enterprises.

3. COMPANY'S SHARE CAPITAL

The share capital of the Company as at 31 March 2026 is as follows:

Share Capital³	USD
<i>Issued shares</i>	
3,505,021 Ordinary Shares of no par value	5,608,033
Total	5,608,033

Since its listing on the Stock Exchange of Mauritius in November 2024, Ziweto Holdings Limited's share price has shown a positive upward trend. Initially priced at USD 1.60, the stock saw significant growth over the following months, reaching approximately USD 1.91–1.92 by the end of 2025. By March 2026, the share price had further appreciated to around USD 2.04, reflecting investor confidence in the company's strategic expansion and performance. This marks an overall increase of approximately 27.5% since the listing, highlighting strong market interest and a positive outlook for the company's future growth.

Market capitalisation as at the last practicable date	USD
<i>Issued shares</i>	
3,505,021 Ordinary Shares as at \$2.04 per share [^]	7,150,242
Total	7,150,242

[^]Share price as at 31 March 2026

³ Share Capital is the part of a company's equity that is created when shares are issued to shareholders, recorded at their nominal(par) value.

- i. The Company does not hold any treasury shares.
- ii. As per Clause 4 of the Constitution, the members in general meeting may authorise the Board to issue shares and/or grant options at any time to any person.
- iii. The capital of the Company shall consist of the following class of shares and confer the rights set out below:

(i) Ordinary Shares

The Ordinary Shares shall be no par value shares in the share capital of the Company, which shall be listed on the High Growth Segment of the Main Market of the SEM.

(ii) Ordinary Shares shall confer on the holders thereof the rights as provided under the Companies Act 2001 and its Constitution, i.e.:-

- the right to one vote on a poll at a meeting of the Company on any resolution;
 - the right to an equal share in dividends authorised by the Board; and
 - the right to an equal share in the distribution of the surplus assets of the Company.
- iv. All the Ordinary Shares to be issued in terms of these Listing Particulars will be of the same class and will rank *pari passu* with all other issued Ordinary Shares of the Company (if any).
 - v. In terms of Mauritian law, the Company does not have an authorised share capital. Under Mauritian law, the stated capital of the Company is made up of the shares issued by the Company.

4. ALTERATIONS TO SHARE CAPITAL OF THE COMPANY

- i. The Company was incorporated on 1st July 2024 as a global business licensed company with a share capital of 100 Ordinary Shares of no par value (issued at USD 1 per share), and which were allotted to Victor Chambayika Mhango (70 Ordinary shares) and Byton Simwela (30 Ordinary shares).
- ii. As part of the acquisition of the issued shares of Ziweto Enterprises, a total of 3,149,900 new Ziweto Holdings shares were issued to the existing shareholders of Ziweto Enterprises on 25 September 2024 in exchange for their shares held in Ziweto Enterprises.
- iii. The Company issued 355,021 new Ordinary Shares to targeted investors as part of the Initial Private Placement, following which the total number of Ordinary Shares in issue increased to 3,505,021.
- iv. As at the date of this document, the total number of Ordinary Shares in issue is 3,505,021.
- v. Other than the information provided above, since the last practicable date, there have been no further alterations to the Company's share capital. Accordingly:
 - (i) there have been no issues or offers of securities of the Company since the last practicable date;
 - (ii) there have been no other consolidation or subdivision of shares in the Company since the last practicable date;
 - (iii) no offer for shares in the Company was made to the public since the last practicable date;
 - (iv) no share repurchases were undertaken by the Company since the last practicable date; and
 - (v) there has been no amount payable by way of premium on any share issued by the Company since the last practicable date.

5. FOUNDERS AND MANAGEMENT SHARES

Save for the details set out in paragraph 3 of **Annexure 1**:

- i. There are no deferred shares.
- ii. As at the last practicable date, Victor Chambayika Mhango (the founder of Ziweto Enterprises) held 28.61% of the issued shares of Ziweto Holdings and Byton Simwela (Co-founder of Ziweto Enterprises) held 11.88% of the issued shares of Ziweto Holdings. Michael Libes also holds an indirect interest of 2.63% in the issued shares of the Company, through his shareholding in Africa Eats.
- iii. As Ziweto Holdings does not own any physical property nor has entered into agreement to acquire any physical property as at the last practicable date, the directors of Ziweto Holdings do not have any material interest in any acquisition or disposal of any properties.

6. OPTIONS AND PREFERENTIAL RIGHTS

- i. There are no other preferential conversion, redemption and/or exchange rights in respect of any of the shares or other securities.
- ii. There are no contracts, arrangements or proposed contracts or arrangements whereby any option or preferential right of any kind was or is proposed to be given to any person to subscribe for or acquire any shares in the Company.

7. FRACTIONS

No fractions of shares have been or will be issued.

EXTRACTS FROM THE CONSTITUTION OF THE COMPANY

The following sections use the definitions as set out in the Constitution of the Company.

Extracts from the Constitution of the Company providing inter alia for the appointment, qualification, remuneration and borrowing powers, interests of Directors and dividends are set out below.

For a full appreciation of the provisions of the Constitution, shareholders are referred to the text of the Constitution, which is available for inspection, as provided for in Section Five Paragraph 13.

“

4. CAPITAL

- 4.1. Subject to the provisions of the Listing Rules of the Stock Exchange of Mauritius Ltd (“SEM Rules”), the requirements of any other exchange on which the company is listed and pursuant to Section 52 of the Mauritian Companies Act, 2001 (Act 15 of 2001) as amended (“Companies Act 2001”), the board of the company may only issue new shares where shares of that particular class are listed and/or grant options with the prior approval of the Shareholders. Such approval is not required if such shares have first been offered to existing Shareholders in proportion to their shareholding on such terms and in accordance with such procedures as the board may determine, or if, but only to the extent that, the existing shareholders of the company have by ordinary resolution in a general meeting of Shareholders given a general mandate to the directors of the Company, either unconditionally or subject to such terms and conditions as may be specified in the resolution, to allot or issue such securities or to grant any offers, agreements or options which would or might require shares to be issued, allotted or disposed of, whether during the continuance of such mandate or thereafter, subject to a restriction that the aggregate number of shares allotted or agreed to be allotted shall not exceed 10 per cent of the existing stated capital of the Company. Notwithstanding the foregoing, any new issue of shares must comply with the SEM Rules issued by the Stock Exchange of Mauritius Ltd (“SEM”).
- 4.2. No shares or any interest or right to the shares shall be issued or granted by the company to bearer.
- 4.3. The company may by way of special resolution from time to time and in accordance with the Companies Act 2001:
 - 4.3.1. create any class of shares;
 - 4.3.2. increase or decrease the number of shares of any class of the company’s shares;
 - 4.3.3. consolidate and reduce the number of the company’s shares of any class;
 - 4.3.4. subdivide its shares of any class by increasing the number of its issued shares of that class without an increase of its capital;
 - 4.3.5. change the name of the company;
 - 4.3.6. convert one class of shares into one or more other classes, save where a right of conversion attaches to the class of shares created; or
 - 4.3.7. subject to paragraph 13.6, vary any preference rights, limitations or other terms attaching to any class of shares.
- 4.4. Where the company issues shares which do not carry voting rights, the words “non-voting” shall appear in the designation of such shares.
- 4.5. Where the company issues shares with different voting rights, the company shall designate each class of shares, other than those with the most favorable voting rights, by inserting the words “restricted voting” or “limited voting”.
- 4.6. The shares, shall unless otherwise stated, be fully paid up when issued and rank pari passu in all respects as amongst themselves including as to participation in the profits of the company.

- 4.7. The capital of the company shall consist of ordinary no par value shares and having attached to them the following rights: -
- 4.7.1. The right to one vote on a poll at a meeting of the company on any resolution;
 - 4.7.2. The right to an equal share in dividends authorised by the board; and
 - 4.7.3. The right to an equal share in the distribution of the surplus assets of the company.
- 4.8. Any shares proposed to be issued wholly for cash consideration (which shall include a release of a liability of the company for a liquidated sum or an undertaking to pay cash to the company at a further date) must be issued in accordance with paragraph 4.1.

[...]

9. TRANSFER OF SHARES

- 9.1. Subject to the provisions of this Constitution, where shares are listed on the Main Market of the SEM or on another securities exchange, the shares of the company shall be freely transferable and free from any lien. Each Shareholder may transfer, without payment of any other charges, save Brokerage Fees payable in relation to such transfer, all or any of his shares which have been fully paid.
- 9.2. For so long as the company shall be admitted for listing on the Main Market of the SEM, a Shareholder wishing to transfer its shares, shall where physical Share Certificates have been issued to that Shareholder, cause its shares to be dematerialised.
- 9.3. For so long as the company shall be admitted for listing on the Main Market of the SEM, all shares transferred must be in the dematerialized form and must be conducted through the Automated Trading System in accordance with the Trading Procedures.
- 9.4. In respect of shares held in certificated form and where such shares have not been listed on the Main Market of the SEM, every instrument of transfer shall be executed by or on behalf of the transferor. Every instrument of transfer shall be left at the registered office of the company (or such other place as the board may from time to time determine) at which it is presented for registration accompanied by the certificate of the shares so transferred, and/or such other evidence as the company may require, to prove the title of the transferor of his rights to transfer the shares. All authorities to sign instruments of transfer granted by Shareholders for the purpose of transferring shares which may be lodged, produced or exhibited with or to the company at its registered office (or such other place as the Board may from time to time determine) shall, as between the company and the grantor of such authorities, be taken and deemed to continue and remain in full force and effect and the company may allow the same to be acted upon until such time as express notice in writing of the revocation of the same shall have been given and lodged at the company's registered office (or such other place as the board may from time to time determine) at which the authority was lodged, produced or exhibited. Even after the giving and lodging of such notice, the company shall be entitled to give effect to any instrument signed under the authority to sign, and certified by any officer of the company, as being in order before the giving and lodging of such notices. The transferor shall be deemed to remain the holder of such share until the name of the transferee is entered in the Register in respect of it.
- 9.5. Transmission of shares
- 9.5.1. If title to a share passes to a Transmitttee, the company may only recognise the Transmitttee as having any title to that share.
 - 9.5.2. A Transmitttee who produces such evidence of entitlement to shares as the directors may properly require –
 - 9.5.2.1. may, subject to the provisions of this Constitution choose either to become the holder of those shares or to have them transferred to another person; and
 - 9.5.2.2. subject to the provisions of this Constitution, and pending any transfer of the shares to another person, has the same rights as the holder had.

- 9.5.3.** Transmittees do not have the right to attend or vote at a general meeting, or agree to a proposed written resolution, in respect of shares to which they are entitled, by reason of the holder's death or bankruptcy or otherwise, unless they become the holders of those shares.
- 9.6.** The company shall not be bound to register more than four persons as the joint holders of any share or shares and in the case of a share held jointly by several persons. The company shall not be bound to issue more than one certificate therefor (where applicable), and delivery of a certificate for a share to one of several joint holders shall be sufficient delivery to all.
- 9.7.** The company shall not take any action to sell the shares of a shareholder who is untraceable unless: -
- 9.7.1.** during a period of 12 years, at least three dividends in respect of the shares in question have become payable and no dividend during that period has been claimed; and
- 9.7.2.** on expiry of the 12 years, the company gives notice of its intention to sell the shares by way of an advertisement published in at least two widely circulated daily newspapers in Mauritius and notifies the SEM of such intention.

[...]

11. DIRECTORS

[...]

11.2. Qualification

No director shall be required to hold shares in the company to qualify him for an appointment.

11.3. Appointment

The directors of the company shall be appointed by the company in general meeting or at meetings of the board provided that, in the case of director/s having been appointed by the board, such director/s appointment/s are approved by Shareholders at the next Annual Meeting if re-elected by the shareholders and if not re-elected, that director's appointment shall lapse. Section 137 of the Companies Act 2001 shall not apply in respect of the appointment of more than one person in a single resolution as directors of the company.

11.4. Retirement of directors

- 11.4.1.** At each Annual Meeting of Shareholders all the directors shall retire from office and may make themselves available for re-election.
- 11.4.2.** The company at the meeting at which a director retires under any provision of this Constitution may by ordinary resolution fill the office being vacated by electing thereto the retiring director or some other person eligible for appointment. In default, the retiring director shall be deemed to have been re-elected except in any of the following cases:
- 11.4.3.** where at such meeting it is expressly resolved not to fill such office or a resolution for the re-election of such director is put to the meeting and not approved by the requisite majority of directors;
- 11.4.3.1.** where such director has given notice in writing to the company that he is unwilling to be re-elected;
- 11.4.3.2.** where such director has attained any retiring age applicable to him as director.

- 11.4.4. The retirement shall not have effect until the conclusion of the meeting except where a resolution is passed to elect some other person in the place of the retiring director or a resolution for his re-election is put to the meeting and not approved by the requisite majority of directors and accordingly a retiring director who is re-elected will continue in office without a break.
- 11.4.5. At least 7 days' notice shall be given to the company of any intention to propose a person for election as a director at a meeting of the Shareholders and the consent of such person in relation thereto shall be communicated to the company at least seven days before the date of the meeting.
- 11.4.6. Notwithstanding anything to the contrary contained herein and subject to as may otherwise be provided by law, any director, managing director or other executive director may, by ordinary resolution passed at a meeting of Shareholders called for purposes that include their removal or ceasing to hold office pursuant to section 139 of the Companies Act 2001, be removed from office before the expiry of their period of office subject however, to the right of any such director to claim damages under any contract.

[...]

11.6. Remuneration of directors

- 11.6.1. The remuneration of directors shall be proposed by the relevant Board Committee to board for approval
- 11.6.2. The board may determine the terms of any service contract with a managing director or other executive director.
- 11.6.3. The directors may be paid all travelling, hotel and other expenses properly incurred by them in attending any meetings of the board or in connection with the business of the company.
- 11.6.4. If by arrangement with the board any director shall perform or render any special duties or services outside his ordinary duties as a director and not in his capacity as a holder of employment or executive office, he may be paid such reasonable additional remuneration (whether, by way of salary, commission, participation in profits or otherwise) as the Corporate Governance Committee may, from time, to time determine.
- 11.6.5. A director shall not vote on any contract or arrangement or any other proposal in which he or his associates have a material interest nor shall he be counted in the quorum present at the meeting.
- 11.6.6. Notwithstanding paragraph 11.6.5 above, a director shall be entitled to vote and be counted in the quorum at the meeting in respect of the following matters: -
- 11.6.6.1. the giving of any security or indemnity either:
- 11.6.6.1.1. to the director in respect of money lent or obligations incurred or undertaken by him at the request of or for the benefit of the issuer or any of its subsidiaries; or
 - 11.6.6.1.2. to a third party in respect of a debt or obligation of the issuer or any of its subsidiaries for which the director has himself assumed responsibility in whole or in part and whether alone or jointly under a guarantee or indemnity or by the giving of security;
- 11.6.6.2. any proposal concerning an offer of shares or debentures or other securities of or by the issuer or any other company which the issuer may promote or be interested in for subscription or purchase where the director is or is to be interested as a participant in the underwriting or sub-underwriting of the offer;

- 11.6.6.3. any proposal concerning any other company in which the director is interested only, whether directly or indirectly, as an officer or executive or shareholder or in which the director is beneficially interested in shares of that company, provided that he, together with any of his associates, is not beneficially interested in five percent or more of the issued shares of any class of such company (or of any third company through which his interest is derived) or of the voting rights;
- 11.6.6.4. any proposal or arrangement concerning the benefit of employees of the issuer or its subsidiaries including:
- 11.6.6.4.1. the adoption, modification or operation of any employees' share scheme or any share incentive or share option scheme under which he may benefit; or
- 11.6.6.4.2. the adoption, modification or operation of a pension fund or retirement, death or disability benefits scheme which relates both to directors and employees of the issuer or any of its subsidiaries and does not provide in respect of any director as such any privilege or advantage not generally accorded to the class of persons to which such scheme or fund relates; and
- 11.6.6.5. any contract or arrangement in which the director is interested in the same manner as other holders of shares or debentures or other securities of the issuer by virtue only of his interest in shares or debentures or other securities of the issuer.

[...]

12. POWERS AND DUTIES OF DIRECTORS

12.1. Borrowing Powers

The directors may exercise all powers of the company to borrow or raise or secure the payment of money or the performances or satisfaction by the company of any obligation or liability and to mortgage or charge its undertaking, property and uncalled capital or any part thereof and to issue mortgages, charges, bonds, notes and other securities and other instrument whether outright or as security, for any debt liability or obligation of the company or of any third party. In addition, such power shall be exercised, in compliance with Section 143 of the Companies Act 2001.”

[...]

14. DIVIDENDS AND RESERVES

14.1. Declaration of Dividends

14.1.1. The company in general meeting may declare dividends but may not declare a larger dividend than that declared by the directors and no dividend shall be declared and paid except out of profits and unless the directors determine that immediately after the payment of the dividend:

14.1.1.1. the company shall be able to satisfy the solvency test in accordance with Section 6 of the Companies Act 2001;

14.1.1.2. the realisable value of the assets of the company will not be less than the sum of its total liabilities, other than deferred taxes, as shown in the books of account, and its capital; and

14.1.1.3. the provisions of the SEM Rules are complied with

14.1.2. Subject to the requirements of the Companies Act 2001 and the SEM Rules, the board of the company may authorise and declare a dividend or other distribution at such time and of such amount (subject to the solvency test) and to any shareholders as it thinks fit. No approval of the Shareholders shall be required before the board makes a distribution.

14.1.3. Dividends may be declared and paid in money, shares or other property.

14.1.4. The company may cease sending dividend warrants by post if such warrants have been left uncashed on two successive occasions.

14.1.5. Notwithstanding paragraph 14.1.4 above, the company may cease sending dividend warrants after the first occasion on which such warrant is returned undelivered where after reasonable enquiries, the company has failed to establish any new address of the registered holder.

14.2. Computation of Profit

In computing the profits for the purpose of resolving to declare and pay a dividend, the directors may include in their computation the net unrealised appreciation of the assets of the company.

14.3. Interim Dividends

The directors may from time to time pay to the Shareholders such interim dividends as appear to the directors to be justified by the surplus of the company.

14.4. Entitlement to dividends

14.4.1. Subject to the rights of holders of shares entitled to special rights as to dividends, all dividends shall be declared and paid equally on all shares in issue at the date of declaration of the dividend.

14.4.2. If several persons are registered as joint holders of any share, any of them may give effectual receipt for any dividend or other monies payable on or in respect of the share.

14.4.3. Any amount paid up in advance of calls on any share may carry interest, but shall not entitle the holder of the share to participate in respect thereof in a dividend subsequently declared.

14.5. Reserves

The directors may, before recommending any dividend, set aside out of the profits of the company such sums as they think proper as a reserve or reserves which shall, at the discretion of the directors, be applicable for meeting contingencies, or for any other purpose to which the profits of the company may be properly applied, and pending such application may, at the like discretion, either be employed in the business of the company or be invested in such investments as the directors may from time to time think fit.

14.6. Notice

Notice of any dividend that may have been declared shall be given to each Shareholder in the manner hereinafter mentioned and all dividends unclaimed for five years after having been declared may be forfeited by resolution of the directors for the benefit of the company. The company shall hold monies other than dividends due to Shareholders in trust indefinitely until lawfully claimed by such Shareholder.

14.7. Interest

No dividend shall bear interest against the company.”

INTRODUCTION

Mwanelupembe, Mhango & Co Chartered Accountant – Malawi has been appointed by the Directors of Ziweto Enterprises Limited to report on the summary historical financial statements of the company, in the context of the contemplated listing on the Stock Exchange of Mauritius of the parent company of Ziweto Enterprises Limited (the “Purpose”).

OPINION

We refer to the accompanying summary historical financial statements, which comprise the summary Statements of Financial Position as at 31st December 2021, 31st December 2022 and 31st December 2023, summary statements of Profit or Loss and Other Comprehensive Income for the years then ended derived from the audited financial statements of Ziweto Enterprises for the respective years ended.

In our opinion, the accompanying summary financial statements are consistent, in all material aspects with the audited financial statements prepared in accordance with International Financial Reporting Standards and the requirements of the Malawi companies Act 2013.

SUMMARY FINANCIAL STATEMENTS

The audited summary financial statements have been prepared in both the functional currency the Malawi Kwacha and United States Dollars while the audited financial statements are prepared in Malawi Kwacha. They do not contain all the disclosures required by International Financial Reporting Standards (IFRS). Reading the summary financial and the accountant's report thereon, therefore, is not a substitute for reading the audited financial statements and the auditor's reports thereon.

BASIS OF PREPARATION

The principal accounting policies of the company, which are set on pages 7 – 15 have been consistently followed in all material aspects. The summary financial statements are prepared based on the IFRS framework and such other requirements which were applicable at the time of each reporting period being referred to in our report. The historical financial information was not revised to reflect the impact of subsequently issued IFRS, amendments to IFRS and such other requirements which are currently applicable as at the date of our report.

The summary financial statements and the audited financial statements do not reflect the effect of events that occurred subsequent to the date of our report on the audited financial statements.

Partners: W B Mwanelupembe FCCA, CA (M); C L Mhango FCCA, CA (M), V Munkhondya Chimaliro FCCA, CA (M)

DIRECTOR'S RESPONSIBILITY FOR THE SUMMARY FINANCIAL STATEMENTS

The Directors are responsible for the preparation of the Company's financial statements in accordance with International Financial Reporting Standards and the requirements of the Malawi companies Act 2013 and for such internal control as the Directors determine as necessary to enable the preparation of financial statements that are free from material misstatement whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the summary financial statements based on our procedures, which were conducted in accordance with International Standards on Auditing (ISA) 810. "Engagements to Report on Summary Financial Statements."

STATEMENTS IN ACCORDANCE WITH THE LISTING RULES

- The financial statements on which the accompanying financial statements were derived from were audited by Mwenelupembe, Mhango & Co, Chartered Accountants – Malawi.
- The most recent audited financial statements which have been issued are for the year ended 31st December 2023. There are no audited financial statements which have been issued since then up to the date of our report.
- The audited financial statements for the years 31st December 2021, 31st December 2022 and 31st December 2023 give a true and fair view of the results for the years then ended and of the assets and liabilities at the end of those years.
- We are not associate of and Directors or of any shareholders holding more than 5% of the number of shares issued by the Company.
- We have no relationship with the Company and its subsidiaries other than in our capacity as auditor of the Company.

OTHER MATTERS

"This report, including the opinion, has been prepared for and only for the Directors of Ziweto Enterprises Limited and for the stated Purpose. We do not, in giving this opinion, accept or assume responsibility for any other purposes or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing."

**SIGNIFICANT PRINCIPAL ACCOUNTING POLICIES
FOR THE YEARS ENDED 31 DECEMBER 2023, 2022 AND 2021**

1. SIGNIFICANT PRINCIPAL ACCOUNTING POLICIES**Statement of Compliance**

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) for Small and Medium sized Entities (IFRS for SME's issued by the International Accounting Standards Board (IASB), and interpretations issued by the Standing Interpretations Committee of the International Financial Reporting and Interpretations Committee (IFRIC).

Basis of Preparation

The financial statements are prepared in terms of the historical cost convention with the exception of certain non-current assets, which are included at valuation and cost. No other procedures have been adopted to reflect the impact on the financial statements of specific price changes or changes in the general level of prices. The principal accounting policies of the company, which are set out below have been consistently followed in all material respects.

(1.1) Property and Equipment**Owned Assets**

Items of property and equipment are stated at cost or valuation less accumulated depreciation and impairment losses. The cost of self-constructed assets includes cost of materials, direct labour and an appropriate proportion of overheads. Where relevant, the cost of dismantling and removing the items and restoring the site on which the assets are located is also included in the cost of assets.

Where an item of property and equipment comprises major components having different useful lives, they are accounted for as separate items of property and equipment.

Property that is being constructed or developed for future use as an investment property is classified as property and stated at cost until construction or development is complete, at which time it is remeasured to fair value and classified as investment property. Any gain or loss arising on re-measurement is recognized in the income statement.

**SIGNIFICANT PRINCIPAL ACCOUNTING POLICIES
FOR THE YEARS ENDED 31 DECEMBER 2023, 2022 AND 2021**

SIGNIFICANT ACCOUNTING POLICIES (continued)**(1.2) Subsequent Expenditure**

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the item of property and equipment and the cost can be reliably measured. All other expenditure is recognized in the income statement as an expense as incurred.

(1.3) Revaluation

Revaluation of property and plant are carried out with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair values at the statement of financial position date as economic conditions dictate, by independent valuers. The basis of valuation used is current market value. Surpluses on revaluations are transferred to revaluation reserve. On realization of the asset, the appropriate portion of reserves is transferred to retained earnings. Revaluation decreases are charged to the income statement except to the extent that they relate to revaluation surpluses previously transferred to the revaluation reserve. An amount equivalent to the additional depreciation arising from revaluations is transferred annually, net of deferred tax, from the revaluation reserve to retained earnings.

(1.4) Depreciation

Depreciation is charged to income statement on straight line basis over the estimated useful lives of items of property and equipment and major components that are accounted for separately. The estimated useful lives and residual values are estimated annually. Annual depreciation rates are used to reduce the cost of property, plant and equipment over their estimated residual values over their expected useful lives.

Depreciation Rates Used Are:

Motor Vehicles	20%
Office Furniture and Equipment	10%
Plant and Machinery	10%

**SIGNIFICANT PRINCIPAL ACCOUNTING POLICIES
FOR THE YEARS ENDED 31 DECEMBER 2023, 2022 AND 2021**

SIGNIFICANT ACCOUNTING POLICIES (continued)

(1.5) Income Recognition

Income is measured at the fair value of the consideration received or receivable and represent amounts receivable from sales of Agrovet products provided in the normal course of the business.

Income is recognized when the significant risks and rewards of ownership have transferred to the buyer of the services and recovery of the consideration is probable.

(1.6) Cash and Cash Equivalents

Cash and cash equivalents comprise cash on hand and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

Interest-bearing bank overdrafts are measured at fair value using the effective rate method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognized over the term of the borrowing.

(1.7) Trade Payables

Trade payables are initially measured at fair value, being the amount expected to be incurred on settlement.

(1.8) Interest Income

Interest income is recognized as revenue using the effective rate method.

(1.9) Current Tax

Current tax is the expected tax payable on the income for the year, using tax rates enacted or substantially enacted at the statement of financial position date, and any adjustment to tax payable in respect of previous years.

**SIGNIFICANT PRINCIPAL ACCOUNTING POLICIES
FOR THE YEARS ENDED 31 DECEMBER 2023, 2022 AND 2021**

SIGNIFICANT ACCOUNTING POLICIES (continued)**(1.10) Deferred Tax**

Deferred income tax is recognized using the liability method, on temporary differences arising between the tax bases of the assets and liabilities and their carrying amounts in the financial statements. However, deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of transaction affects neither accounting nor taxable profit nor loss. Deferred income tax is determined using tax rates and tax laws enacted or substantively enacted at balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled. Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on the Company where there is an intention to settle the balances on a net basis. Income tax expense represents the sum of the tax currently payable and deferred tax.

(1.11) Interest Expense

Interest expense is recognized in the income statement using effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash payments through the expected life of the financial liability (or, where appropriate, a short period) to the carrying amount of the financial liability. The effective interest rate is established on initial recognition of the financial liability and is not revised subsequently.

(1.12) Inventory

Inventories are stated at the lower of cost and net realizable value. The basis of determining cost is the average method.

**SIGNIFICANT PRINCIPAL ACCOUNTING POLICIES
FOR THE YEARS ENDED 31 DECEMBER 2023, 2022 AND 2021**

SIGNIFICANT ACCOUNTING POLICIES (continued)**(1.13) Provisions**

Provisions are recognized when the company has a present obligation (constructive or legal) as a result of a past event, and it is probable that the company will be required to settle that obligation and a reliable estimate can be made of the amount of the obligation. The amount recognized as provision is the best estimate of the consideration required to settle the present obligation at the date of the statement of financial position. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows. When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

(1.14) Foreign Currency Translation**a) Functional and Presentation Currency**

Items included in the financial statements of each Company's activities are measured using the currency of the primary economic environment in which the entity operates ("functional currency"). The financial statements are presented in Malawi Kwacha (MK), which is the Company's functional and presentation currency.

b) Transactions and Balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuations where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at the year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in profit or loss. Foreign exchange gains and losses that relate to borrowings are presented in profit or loss within "finance costs". All the other foreign exchange gains and losses are presented in profit or loss within "other / (losses)-net".

**SIGNIFICANT PRINCIPAL ACCOUNTING POLICIES
FOR THE YEARS ENDED 31 DECEMBER 2023, 2022 AND 2021**

SIGNIFICANT ACCOUNTING POLICIES (continued)

The Average Exchange Rates and Inflation Rate as at 31st December 2023, 2022 and 2021 were as follows:

	2023	2022	2021
Malawi Kwacha/US Dollar	1,040	984	787
Inflation Rate	28.8%	25.5%	9.2%

(1.15) Financial Risk Management

(i) Financial Risk Factors

The Company's activities expose it to a variety of financial risks: credit risk and liquidity risk. The Company does not have a formal risk management policy programme. Instead the susceptibility of the Company to financial risk such as foreign exchange risk, interest rate risk, credit risk and liquidity risk is monitored as part of its daily management of the business.

• **Credit Risk**

Credit risk is the risk of a financial loss to the company if a customer fails to meet its contractual obligations, and arises principally from the company's receivables and cash and deposits with financial institutions.

The Company does not have formal policies and procedures for the selection of banks and financial institutions. No individual credit limits and credit terms are set by the board. The credit quality of the customer is assessed taking into account its financial position, past experience and other factors. The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to external credit ratings (if available) or to historical information about counterparty default rates.

**SIGNIFICANT PRINCIPAL ACCOUNTING POLICIES
FOR THE YEARS ENDED 31 DECEMBER 2023, 2022 AND 2021**

SIGNIFICANT ACCOUNTING POLICIES (continued)**(1.15) Financial Risk Management (continued)****• Liquidity Risk**

The Company will keep on maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. The management maintains flexibility in funding by maintaining availability under committed credit lines.

(ii) Capital Risk Management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for the shareholders and benefits for the other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The capital as defined by management at 31st December 2023, 2022 and 2021 consists of equity as shown on the face of the statement of financial position.

(1.16) Critical Accounting Estimates and Judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances.

(i) Critical Accounting Estimates and Assumptions

The Company makes estimates and assumptions concerning the future. The resulting accounting estimate will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

**SIGNIFICANT PRINCIPAL ACCOUNTING POLICIES
FOR THE YEARS ENDED 31 DECEMBER 2023, 2022 AND 2021**

SIGNIFICANT ACCOUNTING POLICIES (continued)

- **Income Taxes**

Significant judgement is required in determining the provision for income taxes. There are transaction and calculations for which the ultimate tax determination is uncertain. The Company recognizes liabilities for anticipated tax audits issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such difference will impact the current and deferred income tax assets and liabilities in the period in which such determination is made.

- **Determination of Fair Value**

The Company determines the fair value for both financial and non-financial assets and liabilities, by using the market approach, the income approach and the cost approach.

(ii) **Critical Judgments in Applying the Company's Accounting Policies**

- **Related Party Transactions**

In the normal course of business, the Company enters into transactions with its related parties. Judgment is applied in determining if transactions are priced at the market or non- market rates, where there is no active market for such transactions.

**SIGNIFICANT PRINCIPAL ACCOUNTING POLICIES
FOR THE YEARS ENDED 31 DECEMBER 2023, 2022 AND 2021**

SIGNIFICANT ACCOUNTING POLICIES (continued)

(1.17) Borrowings Outstanding as at 30th June 2024

- MK**
- **Bamboo Capital** **127,661,250**
The loan is repayable over three years in equal monthly instalments and matures on 31st January 2025. The loan bears interest at 19.5% per annum.

- MK**
- **NBM FINES Loan** **252,324,576**
- **NBM Commercial Loan** **187,408,069**
The loans which are due to National Bank of Malawi are secured against property including land on Title Number Mawelo 4/1/1 situated at Mpingu in Lilongwe district. The two loans are repayable over 5 years in equal monthly instalments and mature on 31st March 2029 and 31st August 2027 respectively. The loans bear fixed interests at 11% and 31% per annum respectively.

- **Remaining Tenure (Difference between December 2023 and Maturity Date):**

Facility Name	Original Loan Term	Elapsed Time as at 31 st December 2023	Remaining Tenure
NBM FINES Loan	5 years (60 months)	Not Applicable (Loan Disbursed in April 2024)	5 years (60 months)
NBM Commercial Loan	5 years (60 months)	1 year and 4 months (16 months)	3 years and 8 months (44 months)

- **Amount left to be paid on the NBM facilities for the remaining tenure:**

Loan Name	Total Principal Payable (MK)	Total Interest Payable (MK)	Total Payable (MK)
NBM FINES Loan	252,324,576	72,763,289	325,087,866
NBM Commercial Loan	187,408,069	111,812,506	299,220,575

NOTE: Amount left to be paid on NBM facilities is for remaining tenure from July 2024 to the maturity dates for both loans which is 31st March 2029 and 31st August 2027 respectively.

**SIGNIFICANT PRINCIPAL ACCOUNTING POLICIES
FOR THE YEARS ENDED 31 DECEMBER 2023, 2022 AND 2021**

SIGNIFICANT ACCOUNTING POLICIES (continued)

(1.18) Contingent Liabilities

There were no contingent liabilities as at the statement of financial position date.

(1.19) Subsequent Events

No events had occurred subsequent to the statement of financial position date, which require adjusting the financial statements as at 31st December 2023, 2022 and 2021.

(1.20) Going Concern

There is a commitment from the Directors to the imminent growth of the business and management has ascertained that there are no events or conditions that may cast significant doubt upon the entity's ability to continue as a going concern.
